F. McCARTY, THE JEWELLER, South Side

Prince Edward Island

Farmer compelled to stop clearing up his farm.

John Ostrin, Minnigash, P.E.I., writes: In the Spring of 1901 I started to clear up a piece of land, but had not worked many days when I was taken with a very lame back, and compelled to stop work. The trouble seemed to be in the centre of my back and I could not stoop over. I bought a box of Doan's Kidney Pills and before I had taken the whole box I was completely able to proceed with my work. I suggest to all who are troubled as I was, to buy a box, or 3 for \$1.35. All dealers or Doan Kidney Pill Co., Toronto, Ont.

Dr. Burrows Advises Keeping Gas off the Leading Thoroughfares

COMPANY AND CONTRACT

The Lamps Must all be Lit within the Required Hours—No Team Yet

"The reports of the Public Library, Water Commission, and Town Council should be bound together this year" said Dr. Burrows. "They will be" replied Ald. McDiarmid. "If Kent-st. is to be paved the wires should all be put under ground" continued the doctor. "What, just for the looks of it?" asked Ald. Robson. "Yes," rejoined the medicine man, "and because if there is a fire now, you can hardly get the ladders up to a building."

"They might be put along the alleys at the back of the front street blocks" suggested Mayor Ingle. This little conversation is part of what aldermen said while waiting for business to begin at the general meeting of committees on Thursday night. When business began Ald. McDiarmid said there were some hours to the town's credit with the Gas Company because the full time had not been used some time ago. This time might be used during the dark November nights, even when the moonlight schedule does not call for light. Ald. Robson—it would be ridiculous to see the lamps lit on a bright night. It is like going back to the old town errie to have those lamps lit with matches. Mayor Ingle—I didn't see that London was lighted any better than our town.

Ald. McDiarmid—The Gas Company has been in the habit of beginning to light the lamps half an hour before the schedule time and beginning to put them out half an hour before the time named in the schedule. Is it your wish that they still be allowed to do it that way? Dr. Burrows—Who gave them permission to do it? Ald. McDiarmid—I did. Ald. O'Reilly—When the agreement calls for a service from 5 to 12, we want it all the time between those hours.

Ald. McDiarmid—It amounts to the same thing. They start ahead of time both to light them and put them out. Ald. O'Reilly—The people who live where they start to put the lights out at 11.30 do not get fair play. Ald. Hore—I thought they were going to light the lamps by an electric spark? Ald. McDiarmid—They cannot do it.

Ald. Hore—Well then, we must just go back to the old plan of 30 years ago. Ald. Robson—I think we shall have to let them do as they have been doing. Ald. O'Reilly—I don't; we want a full time service in every part of the town, and I move we tell the company that 12 hours means 12 hours. Dr. Burrows—They can't use electricity. They would have to get their current from the Light, Heat & Power Company. We have put up with a mighty poor light, and now we want all that is coming to us. But still let us give them fair play. Let them keep on as they have been. Ald. Jackson—No. We are not here to patch up the contract, but to demand its fulfilment.

Ald. McDiarmid—Are you going into the courts to enforce it. Ald. Jackson—That is not the question. They said they would light the lamps by electricity and the contract calls for certain hours of light; we want it that long. Ald. Hore—Will the light we are getting start at 5? Dr. Burrows—Some are all right. Ald. O'Reilly—We have nothing to do with how long it takes them to get all the lamps lit; we want them all lit between 5 and 12 on the nights agreed on. That policy prevailed.

SOME EXTRA LAMPS Chairman McDiarmid said a lamp was not needed at the corner of Kent-st. east and St. Lawrence, but that further east one should be put up on the north side. Ald. Hore—One is needed up in the north west limits of the town, but we should go carefully with putting up extra lamps. Ald. McDiarmid—Mr. R. Ross and others want one on the corner of Duke and Durham streets. A petition of 14 names asked for one on King-st. between St. Peter and St. David streets. Dr. Burrows—We should put the gas on the outside and electric light on the main streets.

Ald. McDiarmid said that there were already 131 lamps of 150 candle power ordered. They would cost \$1965 a year; the 6 bigger ones cost \$215 or a total of \$2180. Ald. Robson—That costs as much as an electric light; they were to cut the price in two. Dr. Burrows—I believe we could get the electric light at \$40 a lamp. Mayor Ingle—They had a chance to give it to us at that. Why didn't they do it? Dr. Burrows—Well, you know there was a fight over it: it was a fight between your town solicitor and Mr. Sadler. I'll guarantee the company will give you a \$40 rate now. We must see if we cannot make arrangements for that. Four extra lamps were ordered on the chairman's advice. A letter from the water commission

asked the town to pay for putting in the water service to fire hall, because it would furnish no revenue to the waterworks. Dr. Burrows—What are they trying to do—run the waterworks and council too? Let them pay for it; they can't expect every service to yield a revenue. The town will pay. Mr. Thos. Free wrote that because he had been unable to get a tenant for the farm he intended leaving, he could not take the position of caretaker of the fire hall. The Power Company offered to put in the appliances for automatic door-opening and other things at the fire hall, for \$245, and were given the contract.

THE SECOND TEAM Ald. Hore—I have seen a number of good teams but none that were suitable for the fire wagon. Mayor Ingle—A man tells me he saw a first-class team in Toronto that we can get for \$325. Ald. Hore—There is another in Lakefield at \$450. You had better advertise for a team. Ald. O'Reilly—You were told to go ahead and get a team. What do you want to come to us for now? If you want to advertise, why don't you do it? Ald. Hore—Well, I didn't want to be responsible. Ald. O'Reilly—Don't be afraid; you have authority to get the team. Dr. Burrows—You had better have other sets the horses before they are bought. Mr. Hore is no judge of a horse. Ald. Jackson—That's where you are mistaken. Ald. Hore—Thank you for the compliment doctor. But now after all, had we better get a team. Ald. Robson—We should get them both the same color. Mayor Ingle—We had better get the team. It will take them some time to train them, and the ones we have are liable to give out any time. Dr. Burrows—We should all see them. Ald. O'Reilly—Raymond has one you might look at doctor. Dr. Burrows—That's the sort you ought to drive. Mayor Ingle—I notice that the fire teams in Ottawa and Toronto are all rangy animals.

CHEESE STILL HIGH

The Last Sale of the Year was Made a Eleven and a Sixteenth Cents

The Cheese Board held its final sale on Monday. The 1344 boxes offered were sold at eleven and a sixteenth cents, which is nearly two cents higher than the price at the corresponding sale last year. Buyers Flavell and Fitzgerald got it all. The bidding began at 10 1/4. At 11 cents Flavell called Cameron 105 boxes, Mariposa 95, Janetville 48, North Verulam 115, and Bobcaygeon 155. These refused. After discussion Flavell offered a sixteenth more and got the factories called, together with Palestine 60 boxes, and Red Rock 135. Fitzgerald offered the same for Star 120, Dunsford 130, Omamee 130, North Ops 69, Reabro 93 and Maple Leaf 90. These sold.

THE PRESIDENT TALKS Pres. Robertson said: "This is the last sale of the season. We have been selling a little below some other places, but have done very well. I have scolded the buyers sometimes and tried to raise their bids, but now I must give them a little taffy; for they have done well for us. When they bid a price they pay it, and take all the factories they agree to. Salesman Parkin—I wouldn't say too much. We want to get after them again next year. Pres. Robertson—I have known Mr. Fitzgerald for 23 years and he has always been a square buyer. I have known Mr. Flavell since he was a boy. He always comes to the board with a good-natured look as though he was making money. After last sale, I was taken to task for not keeping better order. I don't think I should be calling the men who come here, to order all the time. Sometimes we talk too many at once, but usually our order is pretty good. It was Mr. Curries that called me down, and he is one who makes the most disorder. Salesman Parkin—He is all right. Mr. Flavell—Perhaps it's this Echo Hall that causes the disturbance. Pres. Robertson—I know he is all right, but he should not be too thin-skinned about order, when he breaks the rules so much himself. He is not here, but I would say the same things if he was. I hope your next president will keep better order than I have. Salesman Braden (Bobcaygeon) — I shall not be here another year; for I am leaving the farm. I want to thank the patrons who have sent me here for six years, and this board for the courtesy shown me. The president intimated that the buyers would set up the oysters, and Buyer Fitzgerald moved that the reporters get \$10 each, but neither suggestion had sufficient vigor to prevail. A motion that the press men get a vote of thanks was more to the board's liking. Salesman Parkin said things had been run too cheaply this year. The board fees should not have been rebated. The annual meeting will be held on the first Monday in February

Sails For South Pole. London, Nov. 4.—The auxiliary steam steamer Scotia left the Clyde yesterday for the Antarctic regions, with a number of members of the Scottish National Antarctic Association, under the leadership of William S. Bruce, of Edinburgh, on board.

C.P.R. Earnings. Montreal, Nov. 4.—The C.P.R. traffic for week ending Oct. 31 was \$1,347,000, for the same week last year \$1,210,000; the mileage has been increased to 7,638.

Small Settlers Need Relief. Melbourne, Nov. 4.—Australia's exports for 1903 will be \$25,000,000 less in foodstuffs than last year. A relief fund has been opened to aid small settlers.

FOR GOOD STREETS Ald. McDiarmid moved that a by-law be submitted to the people in January providing that \$20,000 be raised for making good streets. Mayor Ingle—Make it \$40,000. Ald. Jackson—You cannot carry a \$20,000 by-law. Ald. McDiarmid—We have settled on common macadam for Kent-st. Ald. Robson—That costs \$17,000 doesn't it? Ald. McDiarmid—No, \$7000.

THE RAILWAY GONGS Ald. O'Reilly—Did you get a letter from Mr. Tiffin, about the gongs for Clerk? Clerk Knowlson—No, only a complaint that they are being damaged. Ald. O'Reilly—We had better tell the commissioner to take them down. Dr. Burrows—You can't interfere with the company's property. Ald. O'Reilly—They are on the street. Dr. Burrows—Well, you had better leave them alone. Mayor Ingle—Yes, you may get into trouble. Ald. McDiarmid—Mr. Stewart says he will issue a writ against both the company and the town. Ald. O'Reilly—Let the clerk write Mr. Tiffin that the town will remove the gongs at once. Dr. Burrows—That is all right, if you give that notice.

CONTRACTOR WHITE'S ACCOUNT Mayor Ingle—We shall be sued for a settlement of the late Contractor White's account that we dispute. After discussion it was agreed to offer Mr. White's estate \$35 instead of \$50 asked.

TAXES STRUCK OFF Mr. Jas. Hamilton's request for exemption for taxes for six months on his property damaged by fire got him exemption for six months on his terrace and four on his own residence. Ald. Hore—We gave exemption to Mrs. Connolly; we cannot refuse this request. Dr. Burrows—If he had not broke the law building the fire, his places wouldn't have been burned. The whole thing was his fault, and others suffered more than he did. Commissioner Chalmers advised that Mr. Brumwell he not paid the balance of his account until two or three little jobs had been completed. He could not get Brumwell to do anything.

FARMER'S BACKACHE

There is scarcely a farmer in this country but knows what backache is. The hard work and heavy lifts, the constant grind of toil from early morning till late at night, frequently bring the stabbing pain in the back or the dull grinding ache that knows no let up. Then too there are often urinary troubles, swelling of the feet and ankles, puffiness under the eyes, rheumatic pains in the joints and muscles.

Dr. Pitcher ought to be held in high esteem by every farmer in the land on account of his Backache Kidney Tablets, which are doing such a grand and noble work in banishing backache, kidney and urinary troubles, which are such universal complaints on the farm.

HEAVY WORK. Mr. C. E. Lane, King Street East, Ingersoll, Ont.: "I have been subject to attacks of backache and kidney trouble for some years, owing to heavy work on the farm in my early days. Every attack of cold aggravated it. I have tried other remedies in the past but with little effect, and decided to try a bottle of Dr. Pitcher's Backache Kidney Tablets. I got a bottle from A. E. Gayfer, druggist, using a first three and then two as a dose, as they proved a little too laxative. With the two tablets dose the pain and other trouble disappeared, and since then there has been no return, consequently I am sure they are a good medicine. Dr. Pitcher's Backache Kidney Tablets are 50c a box, at all druggists or by mail, The Dr. Zina Pitcher Co., Toronto, Ont.

Draw-out Grate

Draw-out Oven rack

You'll Have Comfort

The Oven Bakes perfect at any hour of the day in the NEW IMPERIAL RANGE. Their distinctive flue construction ventilates the oven and keeps the heat perfectly even—the same in back, front and sides. Think of the saving and twisting of his back while roasting or baking. And the fire is so quickly regulated that the oven can be heated to any desired degree at a man's notice, you're making a mistake if you don't see all the new improvements found only in the Imperial Oxford before purchasing.

THE WOODS STOVE CO., Lindsay.

Speciality Made...

The Boer war was ended by a specialist. The Phonograph was invented by a specialist.

This is an age of specialists. Specialists make possible as stylish a hat for \$2 as \$4 could buy without them; as good boots for \$5 as \$8 could buy "made-to-order" as fine a suit of clothes or Overcoat at \$10 as \$18 could get from the custom-tailor.

The specialist system is half the secret of our clothing for men and boys. Every fraction of our clothing is made by team-organized specialists.

Collar moulders do nothing but make collars, Button hole specialists do nothing but make button-holes. Sleeve experts work on sleeves only, etc.

Thus, highest grade custom work is duplicated in (our clothing, at a little over half the usual cost.

M. J. CARTER, The One Price Clothier and Furnisher, LINDSAY

GOING OUT OF BUSINESS

Owing to my manager having accepted a responsible position with one of the largest Financial Corporations of Canada, and having to begin his duties by the 10th of November, we have decided to dispose of our business, and will offer till not later than November 8th the following bargains— \$5.00 Shoes Going at 4.00 \$4.00 Shoes Going at 3.25 3.00 Shoes Going at 2.50 2.50 Shoes Going at 2.10 2.00 Shoes Going at 1.65 1.75 Shoes Going at 1.45 1.50 Shoes Going at 1.25 1.25 Shoes Going at 1.00 \$1.00 Shoes Going at 80c.

Rubbers, Valises, Mackinacs, Skowhegans and everything and anything in the store at similar reductions. As this is a brand new stock made by the best manufacturers in Canada, and the sale a bona fide one, the public have never been offered a better opportunity to secure bargains. During next week we will keep open till 8 o'clock every evening in order to give the working men of the town an opportunity to secure some of these bargains.
