Why do I wear "C. R. Co." rubbers? Because they fit properly and wear better than any other rubber shoe in the market. You cannot afford to be without a pair if you value your health.

An Explanation—"C. R. Co." Rubbers are rubber shoes MADE IN CANADA by the Canada Rubber Co.

Mr. William Joliffe caretaker of the Cambridge-st Methodist church is recovering from the effects of falling 10 feet out of an apple tree in Mr. Bowes' orchard. His shoulder and hand were badly sprained.

The strongest life insurance company in the world desires to arrange with an active man as district agent for Victoria county. Also local agents wanted. Attractive terms. Address E. J. Deneen, General Manager, 90 Yonge-st., Toronto.

"C. R. Co." rubbers are the most tasty and best-constructed rubber dealer supplying you with this brand, shoes in Canada. If you value comfort and wear insist on your shoe

The first lecture of the Collegiate course for this season will be delivered on Friday evening Dec. 5th by Dr. W. H. Dunnington, of Montreal, the poet of "The Habitant." There is no more interesting or unique figure in Canadian literature than Dr. Dunnington and no literary man will be greeted by a large audience.

Do you wear rubbers? If so, buy rubbers with a reputation. "C. R. Co." rubbers have stood the test of half a century. Fit and style speak for themselves.

The annual tea and concert under the auspices of the Ladies' Aid of the Cambridge-st Methodist church, were held on Tuesday evening. A large number took supper in the basement of the church and afterwards listened to a very fair program. The chief singer and Miss Brown-sonbe the clever child elocutionist gave some very good numbers.

Mrs. Thos. Wilson of Teaboro died on Sunday after a short illness. She had for some time suffered from severe headaches. In the latter part of last week these became very acute and on Sunday Mrs. Wilson suddenly expired. Dr. White was in attendance and believes that an enlarged blood vessel in the silent section of the brain—or that part which has no external manifestation—caused the pain and it fatal ending.

The Christmas number of The Delimitator contains over 230 pages, with 34 full-page illustrations, of which 20 are in two or more colors. The magnitude of this December number, for which 728 tons of paper and six tons of ink have been used, may be understood from the fact that 91 presses running 14 hours a day, have been required to print it; the binding alone of 915,000 copies representing over 20,000,000 sections which had to be gathered individually by human hands.

On Friday morning at about 3 o'clock a fire was discovered in the double house owned by Capt. Cran- dall, at the corner of Queen and Car- oline streets. Through delay in sending in an alarm the firemen did not arrive for more than half an hour after the fire was first noticed. By that time the roof was burned off the north side and the interior badly damaged. The tenants, Mr. Heber Williamson and Mrs. Paul are heavy losers. The former had no insurance and the latter only a small amount. It is reported that there are evidences that the building was set on fire. During the fire Mr. Joe Mc-Connell fell through a skylight across a rain barrel and received slight injuries that might easily have been

—During the performance at the Academy of Music on Saturday night a high-priced gold watch belonging to the leading lady of the Marks' Bros. company was stolen. The theft was promptly reported to the police who searched but, in vain. The watch was a Christmas box and its loss is greatly regretted by its owner.

—On Tuesday morning Mr. "Bob" Lindsay figured in about as lively an episode as has been witnessed on our streets for some time. He had just driven his fine bay driver out of the stables when a holdback gave way and let the rig onto the heels of the spirited animal which plunged madly. Mr. Lindsay threw himself out of the buggy but lost one line. The buggy ran over his leg but he held the line, got to his feet and swung the horse around in a circle until help arrived. But for Mr. Lindsay's presence of mind in getting onto the ground where he could pull on the animal without drawing the rig onto its heels he would certainly have figured in a runaway out of which he would likely have emerged second best if nothing worse.
