KEN-SI,

A TRYING TIME

IS THE PERIOD WHEN YOUNG GIRLS ARE MERGING INTO WOMANHOOD.

Marked by Pale Faces, Heart Palpitation, Loss of Appetite and General Lassitude—How to Overcome This Condition

After babyhood, the most perilous time in a young girl's life is when she is just entering womanhood. It is then that she is subject to headaches, dizziness, heart palpitation, feeble appetite, and bloodless cheeks and lips. This condition may easily develop into consumption, and to prevent this—to keep the young girl in good health and strength, mothers should insist upon their taking a blood-making tonic, such as Dr. Williams' Pink Pills. Mrs. Henry McIntyre, Port Dalhousie, Ont., gives sound advice to other mothers in cases of this kind. She says: "About three years ago the health of my daughter, Bertha, began to fail. She grew weak and seemed unable to stand the least exertion. She suffered from distressing headaches and fainting fits; her appetite left her and she lost flesh. I spent much money on medicines, but they did not help her. Then I took her to a doctor, and although his treatment was persisted in for long time, she seemed to be growing worse, and I began to fear she was going into consumption. Then I took her to a specialist, but his treatment was likewise unsuccessful. Finally upon the advice of a lady friend, a doctor practising in Chicago, Bertha began using Dr. Williams' Pink Pills, and before long there was a decided improvement in her condition, and by the time she had taken nine boxes she was once more enjoying the best of health and had gained fifteen pounds in weight. I would strongly advise all similar sufferers to give Dr. Williams' Pink Pills a fair trial, as her case seemed as hopeless as could be."

A LITTLE TYRANT.

The Trouble Not Due to Original Sin—There is no tyrant like a teething baby. His temper isn't due to original sin, however; the tyrant suffers more than the rest of the family. He doesn't know what is the matter. They do. The trouble is they do not always know what to do for his lordship. An Ontario mother writes to tell what is best to do. "When my baby was teething," she says, "he was so cross and restless that I hardly knew what to do with him. He had a poor appetite and ate but little, and was growing thin. I got a box of Baby's Own Tablets and they made a great change. He now rests well; has a splendid appetite, and gives me no trouble at all." This is the experience not only of Mrs. D. K. Schroeder, of Hanover, Ont., but also of thousands of mothers all over the Dominion. A baby teething is cross because his blood is heated and his little bowels constipated or unhealthily relaxed, and his system heated by the effort of getting his teeth through the gums. Baby's Own Tablets act like magic not only in this, but in all ailments of little ones. Sold by druggists or sent post paid at 25 cents a box by writing direct to the Dr. Williams' Medicine Co., Brockville, Ont., or Schenectady, N. Y.

Very Sad.
"Yes, it's very sad."
"How is that?"
"Why, he always held that to train a wife properly you should catch her while she's young. So he did."

"Well?"
"Well, it seems that she had the same idea about a husband, and now there's a crosser of training ideas that is simply home wrecking."

Why He Objected.
"But, papa," pleaded the millionaire's daughter in behalf of the poor young man she wished to marry, "surely it is no disgrace to work for a living?"
"N-no, my dear—no. What I object to is being the one who is worked for."

Coughs
"My wife had a deep-seated cough for three years. I purchased two bottles of Ayer's Cherry Pectoral, large size, and it cured her completely."
J. H. Burge, Macon, Col.

Probably you know of cough medicines that relieve little coughs, all coughs, except deep ones! The medicine that has been curing the worst of deep coughs for sixty years is Ayer's Cherry Pectoral.

Three sizes: 25c., enough for an ordinary cold; 50c., just right for bronchitis, hoarseness, hard cold, etc.; \$1., most economical for chronic cases and to keep on hand.

To Bad, But True

(Bobcaygeon Independent).
The disgraceful exhibition of rowdyism by the student element of Toronto, on Friday night last, was a shame to the city and to the province. When these young men, with pretensions to be something better than ordinary clay, parade the streets yelling like a lot of drunken Indians and acting like a pack of blackguard rowdies, and lawless hoodlums, there is some excuse for the country blackguards and the village smart alics cutting loose on Halloween. The police of Toronto appear to have endeavored to cope with the riot, though not to such purpose as should be the case. A few were arrested, and fined \$10 each. These parades of college students, singing and yelling, even if no damage is done to property, are a nuisance, and should not be permitted for a moment. It is little wonder that college life in this country fails to produce the slightest culture, when such a barbaric spirit of wild animalism is allowed to be perpetuated. It is verbally difficult to make silk purses from sow ears, and if the college authorities cannot, or will not, make gentlemen of the students, it is well that the police magistrate has determined to put them under the restraint of the law.

(Oshawa Reformer).
A number of the Toronto University students were fined \$10 each for the part they took in the Halloween pranks indulged in on that occasion. Some of them are said to have been roughly handled by the mounted police, and President Loudon is credited with expressing regret that the students were not armed, even with clubs, to defend themselves. The best thing President Loudon and the students can do is to abandon these orgies which are nothing more or less than a relic of barbarism.
