

# OPERATIONS AVOIDED

### Two Grateful Letters from Women Who Avoided Serious Operations.—Many Women Suffering from Like Conditions Will Be Interested.

When a physician tells a woman, suffering from female trouble, that an operation is necessary it, of course, frightens her.

The very thought of the operating table and the knife strikes terror to her heart. As one woman expressed it, when told by her physician that she must undergo an operation she felt that her death knell had sounded.

Our hospitals are full of women who are there for just such operations, but it is quite true that these troubles may reach a stage where an operation is the only recourse, but such cases are much rarer than is generally supposed, because a great many women have been cured by Lydia E. Pinkham's Vegetable Compound after the doctors had said an operation must be performed. In fact, up to the point where the knife must be used to secure instant relief, this medicine is certain to help.

The strongest and most grateful statements possible to make come from women who, by taking Lydia E. Pinkham's Vegetable Compound, have escaped serious operations.

Mrs. Robert Glenn of 434 Marie St., Ottawa, Ont., writes:

Dear Mrs. Pinkham:— Lydia E. Pinkham's Vegetable Compound is so well known that it does not need my recommendation, but I am pleased to add it to the many which you have in its favor. I have suffered untold agonies from a serious female trouble for nearly three years, and the doctors told me that I must undergo an operation, but as I was unwilling to do this, I tried your Vegetable Compound, and I am only too glad to

pleased that I did so, for it restored me to perfect health, saving me the pain of an operation and the immense bills attending the same. Pray accept my hearty thanks and best wishes.

Miss Margaret Merkley of 275 3d Street, Milwaukee, Wis., writes:

Dear Mrs. Pinkham:— "Loss of strength, extreme nervousness, severe shooting pains through the pelvic organs, cramps, bearing-down pains, and an irritable disposition compelled me to seek medical advice. The doctor, after making an examination, said that I had a serious female trouble and ulceration, and advised an operation as my only hope. To this I strongly objected—and I decided as a last resort to try Lydia E. Pinkham's Vegetable Compound.

"To my surprise the ulceration healed, all the bad symptoms disappeared, and I am once more strong, vigorous and well; and I cannot express my thanks for what it has done for me."

Serious feminine troubles are steadily on the increase among women—and before submitting to an operation every woman should try Lydia E. Pinkham's Vegetable Compound, and write Mrs. Pinkham, at Lynn, Mass., for advice.

For thirty years Lydia E. Pinkham's Vegetable Compound has been curing the worst forms of female complaints, all functional troubles, inflammation, ulceration, falling and displacement, weakness, irregularities, indigestion and nervous prostration. Any woman who could read the many grateful letters on file in Mrs. Pinkham's office would be convinced of the efficiency of her advice and Lydia E. Pinkham's Vegetable Compound.

Ask Mrs. Pinkham's Advice—A Woman Best Understands a Woman's Ills.

#### OMEMEE.

(Crowded out last week.)

Rev. Mr. McClelland, of Toronto, occupied the pulpit of the Presbyterian church last Sabbath.

A hunting party composed as follows, Messrs. Geo. English, T. H. Laidley, of Omemee, W. J. Ferguson, and son Ernest, of Salem, Ops, and Geo. Rea, Lindsay, went north on Monday to Bear Lake, Haliburton.

Miss McCullough, daughter of the resident Methodist minister, has taken her departure for New York to resume her former labors as private nurse.

The Rev. J. H. Teney, rector of Omemee, went north to Parry Sound where he expects to spend a couple of weeks hunting deer.

Miss Marie Poast, popular teacher of Lebanon, has resigned her present school to accept a position more remunerative.

Messrs. H. Beatty, J. McGee, and John Weir, of Omemee, have gone deer hunting in the northern part of Peterborough county.

Mr. Will Jardine, who has been spending the summer months with a surveying party in the districts surrounding Lake Abitibi, New Ontario, returned recently to his home in Omemee before entering in upon his duties at the School of Practical Science, Toronto. Will narrates some thrilling adventures, and narrow es-

capades experienced by himself in the far north. The Presbyterian anniversary services will be conducted the second Sunday in November.

#### MANILLA.

(Crowded out last week.)

The many friends and acquaintances of Mr. John McLean, of Lindsay, learned with deep regret of his death last week, he having called upon and visited some of his friends and old neighbors of Manilla on Thanksgiving Day, so that his sudden death was a surprise to everyone. Mr. McLean was of a kind and jovial disposition, and well respected by all who had the pleasure of his acquaintance. The writer of this column extends his sympathy to the bereaved widow and children.

Mr. and Mrs. A. Varnes, of Ashburn, returned to their home on Monday, after visiting the latter's father, Mr. G. M. Pearce, who is quite ill.

Mrs. Soper and two children, of Toronto, returned to their home last week accompanied by her father, Mr. N. Minter, as far as Port Perry, but being still weak from his recent severe illness the journey proved too much for him, and he suffered a relapse, consequently has had to take to his bed again. Under the skillful treatment of Dr. McPhail, we hope for his speedy recovery.

The farmers in this vicinity are busily engaged taking in their root crops.

A sad accident befell the five-year-old son of Mr. and Mrs. Wesley Mullen last week. The child was riding on a load of turnips with

his father, when he accidentally fell off the load, the wagon passing over his leg, fracturing and badly splintering the bone above the knee. Dr. McPhail has charge of the case, and the little sufferer is doing as well as can be expected.

Rev. Arthur Coome was called home to the bedside of his aged and sick mother last week. We are sorry to report she is no better. There will be no service in the Methodist church next Sunday morning, owing to quarterly meeting being held at Salem, service to commence at 10.30 a. m.

Word reached here last week from Cleveland, Ohio, of the death of Mr. W. H. Park, who has been of late residing with his daughter, Mrs. Bell, of that city. The deceased was well known here, being the proprietor of the Queen's hotel for a number of years.

Mr. Henry, a retired clergyman, of Little Britain, has purchased the property of the late James Flemming, of South Manilla. Don McLean, of Gravenhurst, paid Manilla a short visit last week.

### G. I. R. Conductors Will Submit Case to Their Order

Montreal, Oct. 31.—The conductors who have been required to relinquish their positions on the Grand Trunk have submitted their case to the Order of Railway Conductors and it is expected that the Executives of these organizations will interpose on behalf of their members, and insist upon a conference and upon investigation of whatever complaints the officials have against the employees concerned.

This is the latest development in connection with the affair, so far as can be gathered from members of these bodies in this city.

The position the conductors take is that they have been innocent of any wrongdoing and that a vague declaration of "services unsatisfactory" is not sufficient justification for dispensing with the services of a number of men occupying positions of responsibility and trust.

On behalf of the conductors innocence of any wrongdoing is asserted, and it is claimed that if any complaint is made it ought to be clearly and specifically stated, and that the men should be given an opportunity of meeting it.

### The Protection of Fish and Game

A BRANCH OF THE ONTARIO ASSOCIATION ORGANIZED AT CAMPBELLFORD.

A recent despatch from Campbellford says: Campbellford falls in line with a branch of the Ontario Fish and Game Protective Association, which was formed to-night.

A larger number of citizens of all classes were roused to enthusiasm by the addresses of A. Kelly Evans and Oliver Adams, secretary and vice-president, from the headquarters branch at Toronto. These speakers explained clearly the objects and duties of the association, and showed how Campbellford could be benefited by forming a branch and helping in the work. Mr. Evans cited the past and present condition of the State of Maine, and showed from statistics the immense sums of money possible to attract by reasonable protection being afforded fish and game.

He also sketched the future of the Trent Valley Canal, if the farmer assisted in this work, and thereby produced the finest and most unique sportsman's waterway in the world, and showed how, taking in the Bay of Quinte, Georgian Bay, Kawartha Lakes and Rideau Lakes, there would be a thousand miles of good fishing and beautiful scenery.

Oliver Adams followed with an address, mainly devoted to the importance to the farmer if bird life as a destroyer of insects and noxious weeds were recognized.

At the conclusion of these addresses the meeting unanimously endorsed the platform presented to them and formed the Campbellford and Seymour branch. Fifty of those present signed the membership roll, after which the following officers were appointed: President, F. W. Wood; first vice-president, George A. Payne; second vice-president, C. S. Gillespie; secretary, A. B. Colville; treasurer, H. F. Skay; executive committee, Hod Keller, George Potts, E. Demark, F. E. Gaudin, William Garahan, Major W. J. Dossie, James Irwin.

Joseph Templeton, the secretary of the Hastings County branch, came up from Belleville and addressed the meeting, giving some valuable information. The usual vote of thanks to the speakers was very warmly passed.

### Enthusiastic Mothers

When mothers become enthusiastic over a medicine for little ones, it is safe to say that it has high merit. Every mother who has used Baby's Own Tablets speaks strongly in praise of them, and tells every other mother how much good they have done her children. Mrs. Alfred Marson, St. Charles, Que., strongly advises every mother to keep Baby's Own Tablets in the house always. I have used them for teething troubles, colic and other ills of childhood and found them the most satisfactory medicine I ever tried. These Tablets are guaranteed to contain no poisonous opiate and no harmful drug. They are equally good for the new born baby or the well grown child, and are a sure cure for all their minor ailments. Sold by medicine dealers or by mail at 25 cents a box by writing The Dr. Williams' Medicine Co., Brockville, Ont.

# COAL

## A Second Crow's Nest

Coal is actually to-day the greatest commodity of the world. With coal we run our mills and factories and our great railroads; with coal we propel our ships, provide our navies, and warm our homes; with coal we generate and produce electricity, with a few exceptions, where water power is available, but there are not very many Niagara Falls, however, with coal we produce iron, copper, lead, silver, gold, and all other metals that we need, and must have, because all of these metals are to be found mixed in with the rock and in the ore.

Without coal we could not make coke, and coke made from a certain kind of high-class bituminous coal is the only fuel yet known to man that produces a heat intense enough to melt ore and hard rock into a liquid, by which process we are enabled to extract the metals we need.

England would not be the great world power she is to-day if it were not for her inexhaustible supply of coal.

Coal is the basis of all industrial and commercial wealth. Coal-mining in British Columbia has always been a great success. It is a great deal like diamond mining in South Africa—a bonanza of the first magnitude.

The great mountain barrier of the Rockies shuts out the eastern coal, leaving the great Pacific coast to be supplied by the British Columbia fields, excepting a small tonnage from the State of Washington of a very inferior quality; in fact, so poor that the United States navy of the Pacific division get all of their supply from the Dunsuir Coal Mines on Vancouver Island, and pay the duty on it, but neither the Washington nor the Vancouver Island coal is of any use for furnace and smelters coke, because the coal from both of these places contains a great deal of sulphur, and does not make good smelters coke.

Nevertheless Dunsuir made millions after millions every year from mining coal, and died a few years ago the richest man in Canada. He made it all from coal, and his mines will be productive for generations to come, and are worth more to-day than thirty-five years ago, when first opened up.

### OPPORTUNITY

To see it, and grasp it in time, makes a man the master of his destiny. DO YOU WANT TO MAKE MONEY HONESTLY, AND LOTS OF IT? Would you like to become interested in a coal proposition in British Columbia, and make \$10,000 in three or four years from now on an investment of \$250.00? We offer you the opportunity to do this.

You have \$250.00 or \$1000.00, do you realize the case may be, in banking \$2 per cent. interest yearly. Does this satisfy you, when you can many times double your money in one year in an investment like this we offer you?

PUT YOUR SAVINGS IN COAL. It is safe, and as good as Government bonds. There are no "ifs" about coal-mining. There never was a failure in coal in British Columbia, if quantity and quality and shipping facilities were assured, and the business was managed right and honestly.

There is no field of investment more absolutely safe and profitable than coal-mining.

We now offer to the public 100,000 shares of the British Columbia Amalgamated Coal Company's treasury stock at the low rate of

### Twenty-five Cents Per Share

The par value of this stock is one dollar, and is fully paid and non-assessable, and shareholders are exempt from personal liability. Once paid and secured it is settled forever.

This Amalgamated Coal Company controls 17,500 ACRES OF COAL LAND in Nicola Valley, B.C., and according to coal experts reports this great area is underlaid with inexhaustible quantities of high-class bituminous coal, the best for steam, blacksmithing and cooking purposes, estimated to contain approximately 1,400,000,000 TONS OF COAL.

are now building into the Nicola Valley, the Canadian Pacific and the V. V. and E. (Great Northern), and the C.P.R. has already constructed and completed a line from Spence's Bridge, on Thompson River, to Nicola Lake, a distance of about fifty miles, whereas the V. V. and E. are rushing the work as fast as money and labor can do it, and it is expected to reach Nicola by Christmas.

This is certainly a rare opportunity for the small investor. For \$250.00 you can now buy 1,000 shares of the Amalgamated Coal Stock, which in a few years will pay you a yearly revenue or income of \$100.00, figuring the dividend at \$10.00 a share (the Crow's Nest Coal Co. paid a dividend last year of \$10.60 a share). This is an illustration to show what a few hundred dollars invested in coal stock means to investors. The Crow's Nest stock was offered to the people in the year 1896 at ten cents a share, and is to-day worth over \$300.00 or \$300,000 for 1,000 shares. You can get 1,000 shares of our stock to-day for \$250.00, which may be worth as much as the Crow's Nest is to-day if you hold it for 10 years. Do you realize this means that you will reach the \$100.00 mark in from six to seven years from now in the belief of those who have seen and examined the properties and are familiar with the local condition in that country. Get in on the ground floor. Act quickly, and do it now. Do not ask your neighbor for his advice. Use and act on your own judgment. It will soon be taken. Call early or write, and we will give you any further information that you may desire.

### Better Than Life Insurance

A source of income that will last as long as you live. An asset that you can leave behind you for your friends and relatives. Have you a wife? A dear child, a sister, brother, or friend, whose welfare you have at heart? If so, why not invest \$50, \$100 or \$200, or any sum, you can afford, in this coal stock, and get a certificate issued in their names; that will give them an income for life.

### Two Years From Now

the stock should begin to pay handsome dividends, and in another year or two may have a cash valuation on the market from the dividends it then will pay off at least \$100 per share. This calculation is based on sound and conservative business judgment, and on well-tried laws of natural growth. It is quite safe to say that when the Amalgamated Coal Company shall have fully equipped its four properties on Cold Water River, in Nicola Valley, B.C., and has built up a market for its product, and can produce coal and coke on a large scale, which may require six or seven years to accomplish (taking the Crow's Nest Coal Co. as an example), this stock should then be worth on its own merit, from the dividend it then will pay, \$100.00 per share.

Fathers, mothers and guardians, who have the welfare of your children at heart, and want to provide for their future needs, write us for information, and investigate our proposition carefully. You will thank us later for the advice given. Ask or write for printed prospectus and reports, etc. We will show you samples of the coal and of the coke, and the assays of the coal from Government officials and other authorities.

Remember, for \$250.00 you will get one thousand shares of Amalgamated Coal, which will secure for you and your family a source of income, and may make you independently rich. Remember, 1,000 shares of Crow's Nest Coal is to-day worth \$285,000, and brings a yearly revenue of over \$10,000.00. THIS STOCK WILL BE ADVANCED TO 40 CENTS A SHARE ON NOVEMBER 15th.

### Protection to Small Shareholders is Secured by the Laws of British Columbia

Under British Columbia laws, every Coal Company mining for coal and oil in that country must file with the Minister of Finance, a certified copy of their articles of incorporation, if a foreign company, and also of the by-laws in other words, the company has to register under the laws of British Columbia, before they can transact business within the borders of the Province and produce coal, and their books are subject to inspection every three months by the Government agent, to whom the Government is entitled every year to a tax of five cents per ton paid to the Government, as everyone interested, whether he may be the owner of 10,000 shares or only 100 shares, has as the right to know at all times just what the company is doing, and there is no possible way of the Company adopting, with any success, a "freeze-out" game. The Government being an interested party, much greater protection is afforded the small investor than in any other country.

We cordially invite you to our office, Nos. 61-62 Confederation Life Building, Toronto, if you cannot call, please write us, and we will mail you prospectus, report & maps, etc., that will give you all information you may desire.

### OWEN J. B. YEARSLEY, Banker and Broker

61 Confederation Life Building, Main 3290 TORONTO

Who is your Tailor?

The fact that we have been in business in Lindsay for 25 years should mean much to you, and we are ordering your Fall Suits or Winter Overcoats.

### ROYAL HOUSEHOLD FLOUR

Improved machinery will not, of itself, produce good flour. You may be an excellent cook, but you cannot produce light, wholesome baking unless the flour you use be the kind that permits such results. So in the milling, machinery alone cannot produce out of the wrong kind of wheat any more than you can make the right kind of bread or pastry out of the wrong kind of flour. Ogilvie's Royal Household Flour is made from hard spring wheat—a wheat that is rich in nutriment, that grinds fine and white, and produces bread and pastry that are wholesome and nourishing as well as light and crisp—it's a flour that begins to be good in the wheat fields, not in the mills. Your grocer prefers to sell you Ogilvie's Royal Household Flour because he knows the value of a pleased customer. Ogilvie Flour Mills Co., Ltd. Montreal. "Ogilvie's Book for a Cook," contains 100 pages of excellent recipes, some never published before. Your grocer can tell you how to get it FREE.
