

# Invest Your Money!

## First Mortgages

### Gilt-Edged Securities

And Recognized by Bankers, Insurance Companies, and all Investors as the Safest Investment for Any Funds.

I have for sale a number of **First Mortgages** on Farm Lands in Western Canada. The amount of each individual mortgage varies from \$1,000.00 to \$5,000.00.

### 6 Per Cent. Interest

All of these mortgages bear interest at the rate of 6 per cent. per annum net to purchaser.

They are chiefly for five-year periods; with some, arrangements can be made for the principal to be repaid by yearly instalments.

I will pay the railway fares of any intending purchasers of \$10,000 or over to Indian Head, Sask., and return, to enable them to thoroughly investigate and inspect the properties.

Farmers and Small investors who are looking for absolutely safe investments yielding 6 per cent. per annum write me and I will either call personally or send you full particulars regarding these

### Farming Notes

Too close fall grazing is very bad for the meadow if you wish to grow grass next spring.

If properly put down, cement floors will last almost forever, and smell sweet all the time. The plank floor soon wears and rots out, and always smells badly.

The C. P. R. Land Commissioner says the demand for land in the West is greater to-day than ever before, and prices are bound to go higher.

The stocks of bacon in Liverpool at the end of September were 19,049 boxes as against 19,133 at the end of September last year. On the other hand the supplies of hams this year were 627, as against 5,791 last year.

J. A. Macdougall, an Edmonton merchant, who has recently been around the world, predicts great things for the Chinese flour trade, and says Edmonton and Calgary are going to control this trade.

Country Gentleman says the final returns will show a small gain in fall wheat seeding in the United States, as compared with last year.

During the past harvest excursion season the railways carried 23,057 harvesters to the Canadian West. The number similarly carried in 1905 was 16,858. The Northwest Farmer estimates that the railways received over \$600,000 for carrying the excursionists.

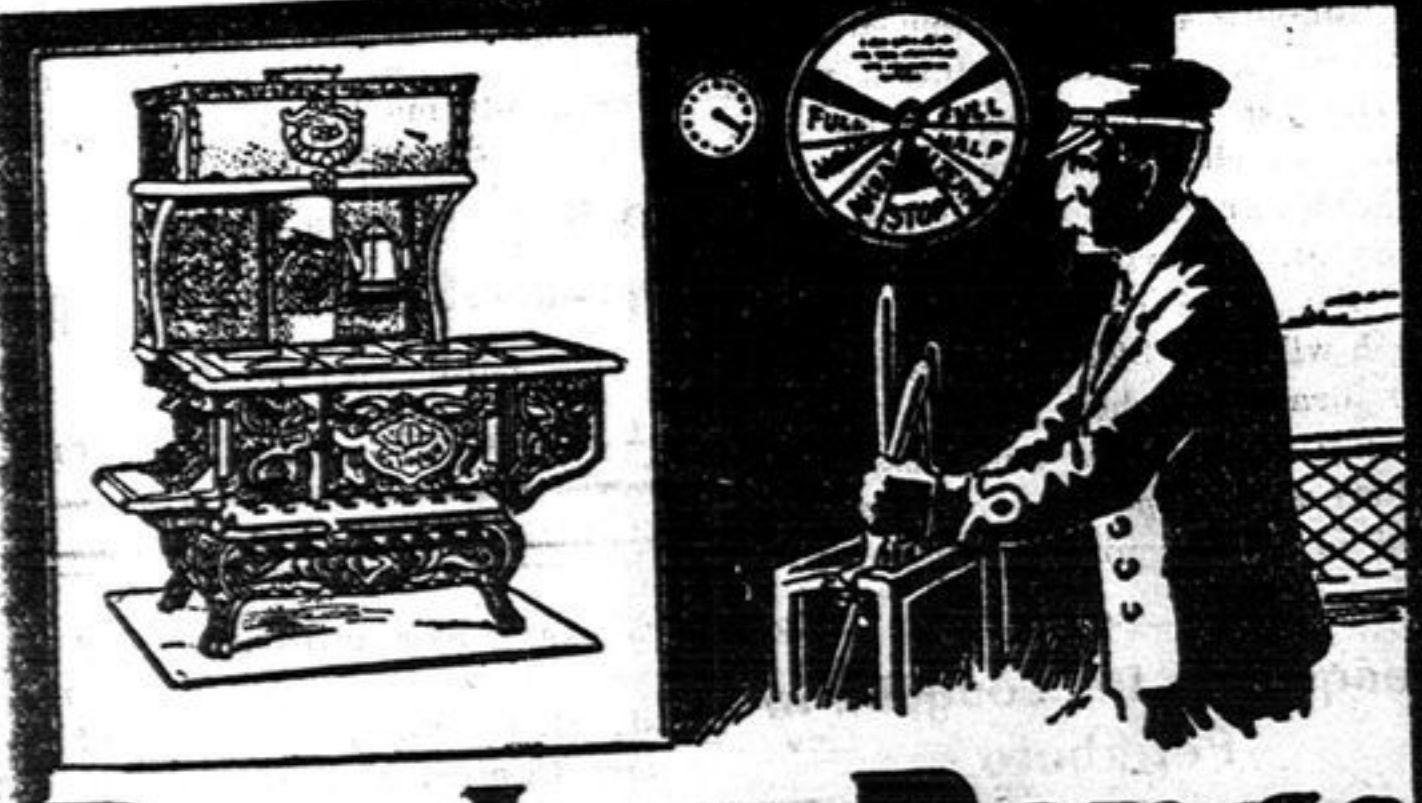

The Canadian Commercial Agent South Africa reports there is a good opportunity there for the sale of Canadian butter. South America has been largely dependent upon our supplies, but that country is not able to meet the demand at present, and Australian dealers are asking 25c per lb. at Australian ports.

The Northwest Farmer says that the Winnipeg district occurred on the night of October 8th. Up to that time sweet peas, dahlias, and other flowers were practically untouched by frost.

Some of the large central creamery plants in the United States have been incorporating from 30 to 35 per cent. of moisture in their butter. The United States Commissioner of Internal Revenue has ruled that, where more than 16 per cent. of moisture is present, it is a case of adulteration, and in the case of one factory, a fine of \$1,620 has been imposed, where this form of adulteration was practiced.

One of the most remarkable developments in connection with the world's trade is reported from British Columbia, where a number of potato growers are combining for the purpose of shipping potatoes to Ireland. Another remarkable development is in the offer of a New Zealand man to take anywhere from 50 to 1,000 tons of British Columbia potatoes, if he can get them at a reasonable price.

**S. S. NO. 9, OPS.**  
Report of the examinations held at S. S. No. 9, Ops. for the month of November: Fourth class, marks possible 200—Clifford Robinson 161, Archie Pogue 156, Huber Burke 132, Fred Corneil 131. Junior fourth, marks possible 100—Rhea Patterson 63. Third class, marks possible 50—Roy Corneil 44, Dolly Sinclair 43, Ernest Corneil 39, Joy Corneil 35, Hazel Brooks 27. Second class, total 100—Hazel Sanderson 37, Lowry Brooks 31.

## Pandora Range

Managed Like an Engine.  
One-third of a housekeeper's life is spent in her kitchen. One-half the labor of housekeeping is at the cook stove. Your range can double or halve the cooking slavery of housekeeping. A poor range adds worry as well as work, and worry multiplies the housekeeper's care. Get a range that reduces the work and eliminates the worry. The Pandora Range is as easily and accurately managed as an engine—it responds to the hand of the engineer. The Pandora Range saves worry, and because worry kills, it prolongs life. Sold by enterprising dealers everywhere. Write for booklet.

### THE COW TESTING ASSOCIATIONS

#### RESULTS OF SEVENTH TEST AT NORTH OXFORD, ONTARIO.

The results of the seventh test at North Oxford, Ont., for the thirty days ending October 21, are most encouraging. Attention is drawn to the record of herd 14, namely an average of 34.7 pounds of fat for 16 cows. The cow that gave 1265 lbs. milk calved in May, two others in this herd calved in March and gave in this test 1180 and 1120 lb. milk. Herd No. 10 contains a cow that gave 1050 lbs. milk testing 4.5 or 47.2 lbs. of fat.

The owner writes: "We are careful to milk the same time daily as near as possible; we feed oat chop all through the season; we divide the pasture so that we have good clover and timothy all the summer; we are generally the last to turn out in the spring, and the first to stable in the fall; we find feed and good care go a long way with cows."

No. of cows tested, 258; average yield of milk, 638; average test, 3.7; average yield of fat, 23.6. Ottawa, October 30, 1906.

#### Two Narrow Escapes From Drowning in Northern L. Waters

The Minden Echo records the following narrow escapes from drowning:

Mr. Bradamer, of Cobocok, employed by the Gull River Lumber Co., had a most exciting experience in Kushog, he was on the company's cadding boat and accidentally fell off into the lake. Not being a swimmer he was almost drowned, in fact had it not been for the perseverance of his companions, who got alongside and pushed the oar down after him when going down for the last, he would have lost his life, he caught hold and was, with difficulty hauled into the boat.

While Mr. John Harrison and Mr. Thos. Harrison were canoeing on St. Norris Lake, they had an experience which will long remember, besides themselves were two dogs in the canoe. When it capsized, one of the dogs made for the shore, but the other stayed along with them, and kept climbing on their backs, thus seriously endangering their lives. They eventually caught hold of the canoe and got the dog under it and for their own personal safety had to sacrifice the life of a very sagacious animal.

#### Trade of Season at Montreal Port Shows an Increase of Tonnage

Montreal, Nov. 8.—The shipping season of 1906, at the Port of Montreal, will in another fifteen days be a matter of record, for by that time the last ocean vessel will have put to sea and the St. Lawrence route declared officially closed.

A close scrutiny of the figures from the opening of navigation to the 1st of November indicates some large gains and also some notable decreases.

The number of ocean-going steamers shows a slight decrease over last year, but on the other hand the tonnage has increased.

The number of ocean vessels entering the port for 1906, up to Nov. 1st, was 751, as against 758 last year. The tonnage for the same period this year was 1,795,090, as against last year's 1,759,839 tons last year, this year of 35,451 tons. The inland waterway trade shows a decided increase, the number of port land craft coming into the port since the opening of navigation to Nov. 1st was 1,179, while for the same period last year the number was 9,939 or an increase this year of 1,140 vessels, with a proportionate increase in the tonnage carried.

#### Britain is Not Buying So Much of Our Wheat

Montreal, Nov. 9.—The C.P.R. report that while the Western wheat crop has been harvested twice as fast as last year the shipments out of Fort William to date have been much smaller than last year. The reason for the big falling off is that the demand for Canadian wheat in the United Kingdom is much smaller than last year owing to the big supply from the Argentine.

#### BETHANY.

(Too late for Last Week.)  
One of the sons of our post master, Mr. Morrison, has been visiting the parental home.

Mrs. Storey, of Toronto, is visiting at the home of Mrs. Blakely and the Graham Bros., of Lindsay.

Miss Elsie Richardson, of Lindsay, has been visiting old friends here, and attended the fowl supper on Monday night.

Mr. Fred Nowles, from the old land, has formed a partnership with our blacksmith, Herbert Falls, and they together are running a carriage factory.

Miss Falls, daughter of Robert Falls, of this village, has been quite ill during the past week or two, but is improving.

Mr. Joe Johnston, our village constable, is unable to be around, not being well.

### Hirst's Pain Exterminator

For Insect Bites, Sprains, Swellings or Pains of any sort, it is unexcelled.

Relieves pain instantly. 25c. a bottle, at all dealers.

Try Hirst's Little Liver Pills. They prevent constipation and relieve all forms of biliousness. Ask your dealer or send us direct 25c. in stamps. A souvenir water color sketch free.

THE F. F. DALLEY CO., Limited  
Hamilton, Ont.

congregations by Dr. Carman, the general superintendent of the Methodist church. On Monday evening there was a great crowd at the fowl supper and concert. Proceeds something over \$150.

A week from Sunday evening the memorial service of the late Joseph Wetherill is to be conducted in the Methodist church by the pastor, the Rev. Dr. Marvin.

#### ACCUSTOMING CHILDREN TO THE COLD.

A Milwaukee physician, Dr. John E. Worden, has adopted strenuous treatment to prepare his two girls, Shirley and Jane, for the rigors of life. So far he has succeeded well, for Good Health says that the children are two of the firmest and healthiest bits of humanity, to whom disease of all kinds is unknown. During the winter these children may be seen bare-footed and bareheaded, clad only in their cotton garments, thoroughly enjoying a romp in the snowdrifts, and "without even a goose bump on their skin." We have brought the children up, says Dr. Worden, "so that they are fearless and dread not the ice cold plunge nor a romp in the snow in their bare feet. The door is always open and they go out when they like and return when they are ready to do so. We do not force the children to go out in the snow."

#### LOSSES IN SHEEP KILLED BY DOGS.

At the last meeting of Esqueping Council, payments aggregating \$105.99 were authorized on account of sheep killed by dogs. The Sun has noted the payments of similar amounts by other councils during the past summer. Some members of the Legislature should move next summer, says that paper, for the return of all payments made on the account stated, by the townships of the Province during 1906. The aggregate would surely startle the more stringent legislation on the dog nuisance.

#### CAUGHT COLD ON THE C.P.R.

A. E. Mumford tells how Psychine cured him after the Doctors gave him up

"It is twelve years since Psychine cured me of galloping consumption." The speaker was Mr. A. E. Mumford, six feet tall, and looking just what he is a healthy farmer. He works his own farm near Magneta, Ont.
