Prescription Skill will in anything must come from ad- experience. We have the ex- and are skilled in compound- the physicians' prescriptions. The prescription numbers are now in our hundred thousands. Doesn't that sound like experience? We feel that we merit such a business because we use only the purest ingredi- and all these hundreds of thous- of prescriptions have done the work for which the doctors prescribed them.

A. Higginbotham, DRUGGIST, LINDSAY Nearly Opposite Post Office.

Little Local Lines

Rev. Dr. Bishop, of Cambridge Methodist Church, and Rev. J. Wallace, of St. Andrew's Presbyterian church, exchanged pulpits on Sunday evening last. Rev. Walter Daniels, representative of Western Missions gave a good address on Sunday morning in the Baptist church on "Baptist Mission Work and Progress in the West." The annual convention of the Lindsay District Epworth League will be held in the Methodist church, Bobcaygeon, on Thursday, Dec. 5th, 1907. Rev. Robert Emberson will deliver an address at the evening session on "Missionary Work in Japan." Every society should send one who will fully report the League. The celebrated Crocker horses, ponies, mules, etc., as shown here in the Academy Monday and Tuesday, go without rival in their line. The audience was hardly up to the high standard of the performance. The animals all showed extraordinary intelligence and careful, patient, training and the entertainment was voted by all to be well worth while. On Monday evening of this week a very pleasant social evening was enjoyed by a good gathering of the young people of St. Andrew's church. Amusements of various kinds, an interesting program and the best of refreshments daintily served contributed to the pleasure of the evening. A play by Misses Mattie and McArthur, a reading by Miss Twanley, a whistling solo by Miss Muriel Mark, and solos by Miss Skinner and A. Sutton, were thoroughly enjoyed and appreciated. The H. Wilnot Young Co. played to good houses in the Academy last week. The play presented on Friday evening was well put on and enjoyed by the audience. The specialties were good, particularly the butterfly dance, which showed some very pretty effects in the limelight. De Mator, in his handiwork opening tricks, was also a novelty that took well. "The Danites", a play set in Utah, was interesting and well presented. By an order of the High Court last week the Raven Lake Cement Co. was decided to be insolvent, and the Toronto Guarantee and Trust Co. was appointed liquidators. Liabilities of company about \$180,000, and assets about \$500,000. Mr. John W. Thurston, of Dundas, passed through town on Wednesday last week with four head of thoroughbred cattle which he purchased from Mr. Russell, of Grass Hill. Cavan Long Swamp Drain debentures amounting to \$6,250 have been sold to Dr. Geo. Brereton, of Bethany, at par and to bear four and one half per cent. interest. Interest and principal are to be paid in 20 equal annual instalments.

The boys' race at the roller rink on Saturday last was won by Master Will Parkin, with Master Earl Cotey as a very close second. On account of cattle being sold so cheaply at Fanning's Repository last Saturday it would look like a good opportunity for farmers to take advantage of these sales and profit by them. There will be a large quantity of cattle on the list at the sale a week from Saturday, Nov. 23rd. Remember "The Shadow Behind the Throne" in the Opera House tomorrow night. On Thursday evening last the annual tea and entertainment given by the Ladies' Aid of Cambridge street Methodist church was held. The event was both enjoyable and successful. There was a large attendance at the excellent tea served in the school room and a big, interested audience for the entertainment in the church at 8 o'clock. Rev. J. G. Shorey, of Cobourg, a former pastor, made a very pleasing chairman, and the lecture by Rev. Dr. Speer, of Brampton entitled, "A Night with Irishmen" was a most interesting and pleasing feature. Miss Wilson, of Fenelon Falls, gave several solos that were much appreciated. Some of the young people of Lindsay purpose holding a dance on November 25th. The ball will be under good management and is promised to be a successful event. Invitations will be issued in the course of a few days. Beaverton citizens are desirous of establishing a high school in that town, and Inspector Knight thinks the citizens of Beaverton should very carefully weigh the question of expense before irrevocably committing themselves to the proposition. He jokingly holds up the case of Omamee as a "terrible example" of the horrible way that looked for expenses will mount up. Omamee is at present bothered as to the amount of paper and stationery used at the Entrance examinations. So heavy has the expense been that the county clerk has been communicated with to see if the outlay in this direction cannot be charged up to the Entrance examiners or deducted from their fees. The bill for the stationery used at the Entrance Examination at Omamee would, perhaps, amount to five hundred cents. Of this amount the county pays one-third, the government one-third, and the balance must be met by the school board. It would be well for Beaverton to beware! Mrs. H. Brimmel, Wellington street, entertained her many friends last Friday to a charming tea. The house was tastefully decorated for the occasion. The guest of the evening was Miss Armitage, of Toronto. The ladies who served in the tea room were Misses Stevens, Anderson and Maude, and Mr. R. Cornell. An interesting feature was the music supplied by Mrs. Lillian Jackson, which proved to be of superior quality. Mr. David Milligan, of Millbrook, accidentally shot himself at Otter Lake near Minden on Thursday last. He was untying his hound at the camp where he and nine others were, when his rifle discharged, the ball striking him between the eye and nose, and coming out the top of the head. Death resulted in a few minutes. Deceased was a blacksmith by trade. He leaves a widow and two children. Next Tuesday evening, Nov. 19th, is the annual choir concert of Cambridge street Methodist church. This year the choir have prepared what they consider the best program they have ever rendered. Caleb Simper's beautiful cantata "A Joyful Thanksgiving" will be given with the full choir, and with accompaniment for orchestra. The following Toronto artists will also take part, Mrs. Flora McIvor, soprano of the Sherbourne street Methodist church; Mr. George A. Dixon, tenor of St. Andrew's church, and Mr. Chas. Rigley, basso of Central Presbyterian Church, 46-1. "Uncle Tom's Cabin" will play in the Opera House on Monday, the 18th, when two carloads of scenery, 8 donkeys, and 42 other actors will be in requisition at the production. Mr. S. M. Thompson, who has been in Lindsay for several days this week in the interests of the C.A.S., addressed a mass meeting in the school room of St. Andrew's church Sunday afternoon and spoke of the work, the aims and objects of the Children's Aid Society. J. Sutcliffe & Sons are not only giving special bargains on good goods these days, but the firm is also running a coupon in their advt. in The Watchman-Warder. This coupon is worth ten cents, and all readers should take the opportunity to make a dime easily by clipping out the coupon and using as the advt. directs. New Photographic Camera Mr. Wilfred M. Pepper, photographer, has recently purchased a new and up-to-date studio portrait camera, known as the "Century", made in Rochester, N.Y. This outfit is not only the most expensive in the trade, but is replete with new inventions and ideas which enable the operator to secure perfect negatives with ease and certainty. This addition to his studio will enable Mr. Pepper to produce work of a superior quality.—46-1.

Personal Mr. R. Varden, of Toronto, was a Lindsay visitor last week. Miss Ferris, of Lindsay, is the guest of her sister, Mrs. A. Silverwood, London. Mr. H. T. Burton, of Halifax, N. S., was the guest last week of Mr. and Mrs. Howkins. Miss Eva Richardson returned last week from a visit to relatives and friends in the West. Mr. and Mrs. H. A. Callon and family, of Hazelton, B. C., are visiting friends in Lindsay. Mr. T. R. MacGregor, of the Canadian Bank of Commerce, has been transferred to the Galt branch. Mr. Alex. Horn, of Horn Bros. Woollen Mills, left this week on a business trip to Winnipeg and the West. Miss Florence Chard returned home after spending a few months visiting friends in Lennox and Prince Edward County. Mr. E. Patterson, Gamebridge, was in town on Friday and attended the Eastern Dairymen's Association meeting here. Mr. Bert Hungerford, now of Toronto, but a former Lindsay old boy, and son of Mr. Richard Hungerford, has been appointed one of the Ontario Government factory inspectors. Mr. and Mrs. R. H. Taylor, Durham street, returned recently from a two months' visit to friends in the West, where they spent some time at Grand View, Portage la Prairie and Holland. Fenelon Falls Star: The many Fenelon Falls friends of Mr. H. J. Lytle will regret to hear that he has been forced to retire from the Bank of Montreal at Lindsay owing to ill-health. Bobcaygeon Independent: Mr. H. J. Lytle, for many years the popular banker of Lindsay, is retiring from the Bank of Montreal, owing to ill-health. His retirement is regretted by a host of friends. WATER FILTRATION SAND FILTRATION CLASSIFIED BY AUTHORITIES AS THE BEST! REMOVES 99 PER CENT. OF IMPURITIES. THIS SHOULD BE OF LOCAL INTEREST. In discussing the question of the purity of the Lindsay water supply, passing reference was made at this week's meeting of the Water Commissioners to an editorial in the Toronto News of Saturday last. This editorial dealt with the question of water filtration and put the case very aptly. Of course, the editorial referred to the question of Toronto's water supply, but Mr. J. D. Flavell thought the case could not have been stated more appropriately for Lindsay even if it had been written specially for the local advocates of a filtration system. The editorial in question is given below in full for the information of Watchman-Warder readers who are interested locally in the question of pure water supply. The News says:— The filtration of the water supply is no recent suggestion. It has been recommended to the city for many years, although the recommendations may not have been placed before the citizens as conspicuously as was desirable. One of the most recent testimonials to the importance of filtration came from Dr. Sheard when he told the Board of Control that if it came to a choice between filtration and a trunk sewer his preference would be for the former, but that both schemes are necessary since filtration of the water supply will not cleanse the harbor. Mr. Mansergh, whose report in 1896 on the water supply will be remembered, provided for filtration as a necessary part of drawing the city's water supply from Lake Ontario. On page 20 of his report Mr. Mansergh wrote: "As dealing in a practical way with the whole question, I cannot, however, ignore the fact that occasionally, and for short periods, the bacteriological condition of the water is such as to make it inadvisable to send it into supply in its raw state." He added that from the first he had been inclined to advise that Lake Ontario water should be filtered, and Dr. Franklin, an authority whom he had consulted, was emphatic in support of filtration. In a footnote to the report will be found an explanation that filtration removes 99 per cent. of all impuri-

ties, rendering any water safe for drinking purposes. After recommending the city to adhere to Lake Ontario as the source of its water supply, on page 51 of his report, Mr. Mansergh said: "Filter beds must ultimately be provided for to the extent estimated, but they may be erected by degrees as shall be deemed necessary by the engineer in concert with the Medical Officer and analyst." Before closing his report he made an emphatic statement with regard to the disposal of the city's sewage. "To discharge all the sewage of 175,000 people in its crude state into a tideless and practically stagnant harbor is obviously a very wrong thing to do, and every rational man must condemn it." It may be as well to remind those who have studied Mr. Mansergh's report that he, in common with other British authorities, considered the amount of water used per head in Toronto as extraordinarily extravagant and believed that some check should be applied to the waste. The same opinion will be found in the report on Toronto sewage by Mr. Strachan, obtained by Mr. Rust in 1906. Mr. Strachan holds as well strong views on the necessity of filtering the city's water: "I cannot, however, close this report with comfort, without a digression to the water question. I know that voluntary advice generally meets with short shrift, yet I must express anxiety at the absence of filtration. With its filtration is so much used, even for our upland schemes, that its omission in the circumstances at Toronto has the effect of a shock on one's mind." Dr. Amyot, in his pamphlet, published this year, on Water Conditions in Toronto, shows that the present typhoid death rate of almost twenty-two might be reduced by filtration to between eight and ten, and states that by its adoption we would be sure of a uniformly pure water. He also refers as well to the unanimous opinion of the American waterworks engineers that the natural waters of Canada and the United States are not hygienically safe without filtration. Filtration is regarded as the most effective means of removing impurities from water. It has been in use since 1839, and no other method since suggested has equalled its efficiency. As compared with the varying state of expert opinion on the question of sewage disposal, sand filtration is definitely fixed as the best method of dealing with water which contains impurities. In any case efficient disposal of sewage will not secure positively, and once for all, pure drinking water. Sand filtration will. For these reasons the City Council should resolve to educate public opinion both on filtration and the question of sewage disposal. DEATH OF MRS. DEAN ONE OF THE PIONEER RESIDENTS OF LINDSAY PASSED AWAY LAST WEEK. On Wednesday of last week, Nov. 6th, Mrs. Catharine Deacon, relict of the late Lieut.-Col. James Deacon, passed away to her rest, at the home of her daughter, Mrs. F. K. Wilford, Mill street. At the time of death the late Mrs. Deacon was in her 78th year. Lieut.-Col. Deacon and Mrs. Deacon came to Lindsay in 1866, and were among the earliest residents here. During the whole of their long life here they made friends and kept them, and were among the most popular citizens of the town. On August 11th, Lieut.-Col. Deacon died, after a tedious illness. His death was perhaps hastened by an unfortunate accident which befel him, and no doubt the illness of her husband and his subsequent death, did much to hasten the end for Mrs. Deacon. The late Mrs. Deacon was a woman of the highest character, and secure in the affection of a wide circle of friends who will deeply mourn her death. The funeral took place on Friday last, and despite inclement weather and bad roads, very many came in from the countryside, and a large number from the town were present at the last sad rites. Five children survive, only two resident in Lindsay, Mrs. F. K. Wilford and Miss Rose Deacon. One son, Mr. Charles Deacon, is a resident of Toronto. The other surviving children are Mrs. Colin Rankin, Mattawa, and Mrs. (Rev.) T. Marsh.

Dundas & Havelles Limited ESTABLISHED 1860. INITIAL DISPLAY OF FURS Beautiful Assortment of Coats, Scarfs, Misses Sets on View Now. Every woman and miss will be interested in this announcement. If you miss your train it will not be the fault of the watch you buy from us. We sell the DEPENDABLE watch because in the end it pays—it pays us. We may put your watch in a fine solid gold case or in a modest plain nickel case. Be it high priced or be it low you can depend on the quality at THE GEORGE BEALL JEWELLERY STORE

Eastern Ontario Dairymen's Meeting On Thursday afternoon last a most interesting and profitable meeting was held under the auspices of the Eastern Ontario Dairymen's meeting. Mr. Dan Derbyshire, M.P., was in the chair, and among the speakers were: Messrs. G. G. Pablow, Chief Dairy Instructor for Eastern Ontario; Mr. Barr, official regaler of Montreal; Mr. Cameron, district instructor; Mr. Mitchell, of the Kingston Dairy School; Mr. H. Glendenning, of Manilla; Mr. Gillespie, representative in the E.O.D.A., for Peterborough district; Mr. F. H. Reed, Agricultural teacher, L.C.I., Mr. New-

man, of Lorneville, and others. The addresses given were both pleasing and profitable, and a fuller report will appear in next issue of the W.V. Mr. H. Glendenning, of Manilla, was the excellent choice made to represent this district in the E.O.D.A. Mr. Cameron is the dairy instructor for the district. Band of Hope Formed There was an enthusiastic gathering of boys and girls held in the Y. M.C.A. Friday afternoon at 4.15. This was called by a few ladies for the purpose of forming a Band of Hope or Gospel Temperance League, and the splendid response was so en-
