Persian Lamb throws and ties	

### A WORD TO THE MEN

Our stock of COON COATS are of exceptional values this year, they are made of large, dark, full furred pelts.

## O'Loughlin & McIntyre

### C.P.R. CONTRACTORS BUSY

The office of contractors Stewart and Perry, in Shier's block is being fitted up with counter, desk, table, etc., ready for work, but as the C. P.R. engineer has not reported definitely where the road will be built, no active work can be done by the contractors until next week. The company have the contract from the thirty-second mile of the road, which is the other side of the Cambray road, to a point four miles east of the town. It will be necessary to use a steam shovel on both sides of the river, and they will probably use two of them.

Mr. Carroll, the foreman of the construction gang, has been in town for the past few days making some necessary arrangements, and will leave for his home, east of Brockville, to-night. The contractor believes the line will enter the town below the second light house on the river.

### SHOT DEAD

North Bay, Nov. 9.—The little village of Monetteville, a centre for a thriving community of French-Canadian farmers, is in the throes of excitement over a tragedy which took place on Monday night, resulting in the death of Joseph Larveque. Monetteville is situated at the extreme west end of Lake Nipissing, and is served by a tri-weekly steamer service from Sturgeon Falls. In the absence of telegraph and telephone service, news of the tragedy did not reach the front until to-day.

The facts as gathered are that Joseph Larveque, a farmer living near Monetteville, was drinking with a companion on Monday evening, and about 11 o'clock went to the residence of Isaac Larveque with a bottle of whiskey. The latter, who is 60 years old, a widower, living with his grown-up family, was in bed when the men came. He got up and drank with his visitors, but a quarrel started, and the old man ordered Joe Larveque out. The latter refused to go, although his companion tried to take him out. Isaac Larveque repeated his order to go or he would shoot him, and at the same time took down his rifle. Joseph, who was standing in the doorway at the time, said, "Shoot me, then." The old man pressed the trigger and shot Joe Larveque through the heart. He fell across the doorstep outside the house, and at latest accounts to-day the body was still lying where he fell on Monday night, as no coroner was available and no one seemed disposed to make a move in the matter.

## Money Expended on Making Good Roads

The following schedule shows the cash expenditure in townships for the period of 19 years, 1889 and 1908, inclusive. This does not include the expenditure by councils of counties, towns, villages and cities. The statistics are compiled from reports of township clerks and treasurers of the bureau of engineers and the engineer of highways.

HALIBURTON.		NORTHUMBERLAND & DURHAM.	
Township	Total 19 years	Township	Total 19 years
Anson and Hindon	1795	Cartwright	21637
Cardiff	3026	Cavan	51985
Dysart, etc.	26252	Manvers	38884
Glamorgan	4823	ONTARIO.	
Lutterworth	8845	Brock	59667
Minden	9173	Scugog	5113
Moamouth	1104	Thorah	41084
Sherborne, McClintock, Livingstone	3874	PETERBORO.	
Snowdon	5373	Ennismore	6803
Stanhope	3868	Harvey	7075
		Galway	1502

## Have You Noticed These Boys?—\$10 Offered For Their Return to Mimico

Chief of Police R. C. Vincent has received the following letter from the superintendent of the Victoria Industrial School, Mimico:

Dear Sir,—The following boys are wanted at the Victoria Industrial School:

Noah Adams, 16 years of age, an Indian. A large, stout, well built boy, dressed in green sweater, peak cap, and short grey pants. Home in Sarnia.

Russell McLennan, 16 years of age, has only one hand, the other is cut off at the wrist. Dressed much the same as Adams. Home in Parry Sound.

Newton Hill, 14 years of age, small for his age, very fair complexion. Has blue eyes and light hair, and a bright, handsome boy.

Chas. Rottier, 12 years of age and

much the same build as Hill. He has black hair, brown eyes and fair freckled face. Hill and Rottier live in Toronto.

The above four boys escaped from their cottages Saturday night.

Albert Tyler, aged 15 years, and small for his age, has brown hair, blue eyes and fair complexion. A tidy, well-built little boy, home in Toronto.

George McDermott, aged 16 years, about five feet high, has brown hair, blue eyes, fair freckled face. Home in Ottawa.

These two escaped on Nov. 8. A reward of \$10 will be paid for each if you will assist in securing the return of any of these boys to the school.

## Large Fortune Left to North Verulam Farmer?—Visited by a Detective

Bobcaygeon Nov. 10.—News came into the village Saturday last that Mr. Thos. Devitt, sr., of North Verulam, who is hale and hearty at 86, had been left a large fortune of some \$700,000 by relatives lately died in Australia. It is reported that a gentleman representing himself as a detective from Scotland Yard, London, called on Mr. Devitt last week, and imparted the above information, also that the same gentleman made a stay of three or four days at a neighbor of Mr. Devitt's on other business.

We hope this is no confidence game, and that the news may be true, and that Mr. Devitt may be able to use a portion of the fortune before he is called away. Mr. Devitt, we might say, is one of those warm hearted Irish gentlemen, we see so seldom nowadays, and we know that \$700,000 would not turn his head—only broaden the smile and make his greeting all the more cordial.

### CARD OF THANKS

I desire to express my thanks to friends for their many kindnesses during the illness of my husband, Josiah M. Ball. I also wish to thank the members of the Canadian Order of Foresters for the promptness with which the insurance was paid. MRS. ELIZABETH BALL.

Bobcaygeon Nov. 9.—The C.P.R. have made an advance of ten minutes in their time table for morning train, so that the train now leaves at 7.05 instead of at 7.15 a.m. The change went into effect Monday, and as a result some were left in Bobcaygeon who had intended being in Lindsay. Also the C.P.R. were out a few fares and the telephone company in by a few phones.

### WOUNDED DEER FOUGHT

TWO HUNTERS INJURED, AND ONE MAY LOSE EYESIGHT. Cornwall, Ont., Nov. 9.—James Dudley and Henry Packard shot a fine big buck in the South Meadows district, on the south side of the St. Lawrence, and when the former attempted to cut the animal's throat, it kicked out and Dudley got a blow in the eye, which may blind him for life. Packard rushed in with his knife, as the deer struggled to his feet, but received a kick which broke his kneecap and tore his trousers. The deer escaped.

### SHOT LARGE BUCK

Word was received in town today that Mr. F. B. Moore, K. C. county police magistrate, who is hunting deer in Haliburton, was successful in bringing down a large buck. It tipped the scales at 225 pounds, and was a magnificent specimen of venison.

## Two Sad Deaths Reported at 'Caygeon

Bobcaygeon, Nov. 9, 1910. — The village was greatly shocked on Sunday when it became known that Mrs. Wm. Wright, who had been taken to the Ross hospital, Lindsay, a week before, had died the previous Saturday evening from typhoid. Mrs. Wright was a daughter of Mrs. Jas. Reid, who died a couple of months ago. It will be remembered that he came home ill during the summer, and was nursed by her all through his sickness till his death. Then there were others took sick, so that she became completely exhausted and fell an easy prey to that deadly disease. It was understood she was doing as well as could be expected, but her weakened constitution proved to be too frail, and she passed quietly away, having offered herself as a sacrifice for the good of those whom she served. Mrs. Wright was of a kindly and gentle disposition, a member of the Church of England, and leaves to mourn her loss her husband, one son and two daughters, the youngest about one year old. The funeral was largely attended on Tuesday afternoon from the home of Mrs. James Wright. Rev. Mr. Barker and Rev. Mr. Foley each took part in the service.

Mr. Mossom Boyd received the sad news on Monday from Mr. William Gidley, of Duncans, B.C., that Mr. Robinson Ventress, who kept drug store for many years in the premises now occupied by Mr. Woodard, and who moved west to British Columbia ten years ago last September, had died the day before after a short illness. He had been in the hospital for a couple of months. He was 60 years of age and leaves behind his wife, a daughter of Mr. Gidley, and three children. Mr. W. D. Ventress, of Nogy's Creek, is a brother. The joint committee of Victoria and Peterboro Counties having charge of the rebuilding of Little Bob bridge, met here Tuesday for the final disposition of and formally taking it over as a county bridge. We understand the work has been quite satisfactory and within the estimate of the engineer. With the committee also were Mr. Chambers, who took a few photographs of the bridge for those interested, and Mr. Wm. Flavell, who, we understand, came to purchase the timber of the old bridge. The members of the committee also were the Warden, Emerson Tiers, County Clerk and Treasurer J. R. McNeillie, Chas. Cornell, of Emily, Geo. C. Byng, of Bobcaygeon, Geo. Cohen of Galway, County Engineer George Smith, and Foreman Thos. Kelly.

Bobcaygeon, Nov. 9.—The C.P.R. have made an advance of ten minutes in their time table for morning train, so that the train now leaves at 7.05 instead of at 7.15 a.m. The change went into effect Monday, and as a result some were left in Bobcaygeon who had intended being in Lindsay. Also the C.P.R. were out a few fares and the telephone company in by a few phones.

### MORAL IS PLAIN.

The day a merchant does not advertise his store is the day a valuable patron looks for his ad. It takes two to make a bargain, and you can find the other man through a Warder want ad.

### POACHERS FINED

Bellefleur, Ont., Nov. 9.—Game and Fish Inspector Capt. Hunter, of this city, imposed a fine of \$10 and costs on Gordon Ross, for hunting ducks with a motor boat and acting as a guide without a license. John Pinkerton and Lewis Brown were fined \$10 each for illegal fishing in Devil Lake, and Clarence Randolph, Mahan Ripley, and Henry Lashley were fined \$25 each and costs for illegal fishing in the same lake.

## Guy Fawkes Had a Merry Ride

Bobcaygeon, Nov. 9.—Saturday night, the 5th inst., was Guy Fawkes night here, and was duly celebrated. The boys have been making a regular business of it, each year adding a few improvements. This year they started from the south side of the village, had Mr. F. W. Read's truck borrowed for the occasion, their effigy duly mounted. If there's anything in the line of sport that a boy's fertile imagination cannot think of, why then we'll give it up. The procession duly wended its way down the main thoroughfare and across the river, till it reached the market square. There the effigy was removed from the wagon, and Rev. Mr. Barber addressed the assemblage on the history of the event and of the attempt of Guy Fawkes to blow up the British parliament by gunpowder, saying the boys of England would be celebrating there, only about twice as zealously. After Mr. Barber's address the band present for the occasion played. The crowd backed up towards the sidewalks, the torch was lit, and the real fun of the evening was on. When it was all over, the band again played "God save the King," and everybody went home, quite happy, especially those engaged in bringing the thing to a successful conclusion.

### WHO CAN BEAT THIS?

REMARKABLE SHOOTING BY A FORMER COBOCOONK CITIZEN. On the 7th and 8th of November in a shooting tournament held at Niagara Falls, N.Y., Mr. Alex. F. McKay, formerly of Cobocoonk, but now of Toronto, swept everything in sight, winning first with the shot gun, breaking fifty glass balls from a hidden trap not giving the first chance. Also with the rifle, making 14 bulls out of 15 shots at 100 yards, two in bull. Shooters were present from Buffalo, Detroit, Rochester, Hamilton and Toronto. The shot gun used was a No. 10 hammerless Greener, and the rifle a .30 Winchester. Mr. McKay returned home to Toronto with both cash prizes.

### POULTRY POINTERS FOR NOVEMBER

The following poultry pointers should be read and inwardly digested by the many poultry fanciers in Lindsay and the county:

If breeders would learn to Oull, closer, success would come much quicker.

No flock of fowls, regardless of breed, will bring profit to their owners unless they are properly cared for.

Clover is a tonic for the fowls and promotes digestion, and largely assists the elements for egg production.

Grit is necessary. Keep a box of grit before your fowls now, and do not neglect it. It is their teeth.

Most hens prefer the trap nest to lay in; as a rule they are semi-dark and this just suits biddy.

It is not the expensive poultry-houses and high-priced birds that ing for.

Always make the money with poultry, the feeding of sprouted oats, as cut clover, should begin if the green food supply is cut.

If you do not take your birds to the show, do not blame the public for patronizing the breeder who does and wins.

There is a way to realize a profit from your poultry during the winter months, but it is not the way of the average farmer.

Eggs are now higher in price and you can well afford to spare a little extra time with the poultry in feeding and care.

Galvanized iron feed troughs are better than wood, as they are much easier to clean and are more sanitary than wood ones.

Cracked oyster shell and grit is more necessary at this time of the year. See that the fowls have a good supply on hand.

Birds that are in the moult and desired for show, can be hurried along with a little meal in the mash.

Healthy, strong and vigorous breeding stock is necessary for quick growing, profitable birds.

Poultry that is sold upon the market should be fat when sold. It is better flavored, sells more readily, and at a higher price.

Clover hay cut in half-inch lengths, cooked and mixed with bran and a little meal makes a good morning feed.

The trap nest equipment for the breeding pens is a good resolution to consider. Every breeder who possibly can, should instal trap nests.

The trap nest picks out the layers, sorts out the drones, and is a system for better breeding for higher egg-laying strains.

The breeder who has a flock of pullets that are now in prime and just beginning to lay, has a bright prospect before him, and if given proper care will continue to lay throughout the winter months, and be very profitable.

For laying hens the nest boxes should be arranged to be plentiful and in a semi-dark place in the poultry house.

Poultry houses should contain light enough so the hens may find grain in the litter on cloudy days. Too much glass is needless, and is an extra cost.

Have all the roosts on the same level, and so arrange that they may be readily removed for cleaning. Do not fill the houses full of roosts, but just enough to accommodate the fowls, and let these be on one side of the house.

The old saying is "The male is half the flock"; then how foolish to breed with a poor male bird! Now is a good time to purchase a new male bird, if you will need one for your next mating, or as many as you may need.

The drinking fountain that will keep water from freezing, and at the proper temperature during severely cold weather, is essential. If you have not got them, it would be a good time to order them for the severe cold weather will soon be here.

If you will begin hatching in January, it is none too early to begin to sort out and get the birds together and look over and consider your matings, that you may have the proper matings made up for the results, or high aim you are breeding for.

## A Growing Bank Account

has a real and tangible value over and above the amount of actual money deposited. It creates greater prestige in the community for the depositor. This time of plenty is your opportunity. You can start an account with us with one dollar or more. Our service is yours to command.
