OBITUARY.
WILLIAM OSBORNE REHILL
Mr. William Osborne Rehill, a young married man 27 years of age, was suddenly called to his home above last Friday after being ill for some time, suffering from lung trouble. Three weeks ago the deceased was brought from his home near Omeme to the Ross Memorial Hospital for treatment, but nothing could be done to prolong his life and he gradually sank lower and lower until the end.

The late Mr. Rehill was a son of Mr. and Mrs. W. J. Rehill, Emily township, and resided with his wife and child on a farm adjoining that occupied by his parents. He was a bright young man and highly esteemed by the entire community. In religion he was a Methodist.

Besides leaving his father and mother, his wife and child, to mourn his loss, there are two brothers, Messrs. Ira and Bruce at the homestead. The deceased was also a son-in-law of Mr. and Mrs. Balfour, Lindsay.

The remains were conveyed to Omeme, and interment took place on Sunday afternoon at 2.30 o'clock in Family cemetery.

The greatest chain of stores in the world is conceded to be that of the and he will make you look like you Woolworth Co. They buy in such great quantities that they can get them supposedly cheaper and sell them cheaper than others. This may be so, but we hardly think that they have anything on Miss Weir and her five, ten and fifteen cent store, for a visit there will convince you of the bargain they offered.

The new Children's Shelter at Brockville, was opened by Sir John Gibson.

Farms To Rent
Possession on the 1st March, 1913, first-class 200 acre farm, west half of lot 2, con. 13, and east half of lot 2, con. 10, North Monaghan. Good buildings. Also 100 acre farm in the Township of Smith, with good buildings and in first-class shape. Can plough this fall. Apply

D. J. LUNDY
5 Hunter-st. West Peterboro

A WINTER COAT
not only keeps cold out, but conserves body-warmth; body-fat serves the same purpose, it enables us to resist unsettled elements and serves as the great source of our body-heat. Greater body-warmth means richer blood, more fat, not obesity but fat which the body consumes for warmth, vitality, resistance-power—as a furnace consumes coal for heat—**Scott's Emulsion does this.**
A teaspoonful after each meal makes body-warmth—healthy, active blood—sharpens the appetite and makes all good food do good.
It drives out and keeps out colds by raising endurance-power and creating strength.
Reject substitutes for SCOTT'S.
Scott & Bowne, Toronto, Ontario 12-61

OBITUARY
JAMES BRYANS.
Mr. Jas. E. McGahey, of town, received the sad information by wire uncle, Mr. Jas. Bryans, a gentleman who was well and favorably known in the township of Ops and Lindsay, previous to his removal to his present home in Saskatchewan. The deceased passed away at his home in Maidstone, Sask., on Nov. 7, surrounded by his wife and many of his children, the cause of death being cancer of the stomach, from which disease he has been a constant sufferer for about one year. Mr. Bryans was a prominent Orangeman and held the office of worshipful master in the Reaboro Orange lodge when a Friday announcing the death of his resident of Ops. His wife was a daughter to the late Mr. Matthew Wilson, of Emily. In religion the deceased was a staunch supporter of the Methodist church. Mr. Bryans was a Conservative in politics, served in the Ops council as reeve, deputy and councillor for over fifteen years. He is survived by a loving wife, five married daughters and three sons: Messrs. Robert (druggist) John and James (farmers) in Saskatchewan. He has one sister alive, Mrs. Jas. McGahey, of Emily. Mr. Ed. Bryans, Lindsay, and Mr. Robert Bryans, of Edmonton, are cousins of the deceased. Mr. Bryans was in his 69th year at the time of his demise.

W. I. MEETING
FIRST MEETING OF OPS BRANCH—FINE PROGRAM.
Despite the unfavorable weather conditions, the West Ops branch of the Women's Institute held their first meeting at the home of Mrs. Denis Murphy on Nov. 6th, with twenty ladies present. The president, Mrs. T. Wilson, opened the meeting in the usual way. It was carried by the majority that the branch help support the rest room for this year. Miss Anna Murphy gave an instrumental solo. Mrs. Walter Curtis took up the topic for the day, "The preparation, cooking and carving of poultry," and she also explained a few ways of cooking the different kind of fish. Miss E. Hopkins gave a reading, after which the hostess served a dainty lunch, and a social half hour was spent.

The next meeting will be held at the home of Mrs. T. Arnold on Dec. 4th, and all the ladies of West Ops wishing to become members are cordially invited.

A COLD However Slight MAY TURN INTO BRONCHITIS.
You should never neglect a cold, however slight. If you do not treat it in time it will, in all possibility, develop into bronchitis, pneumonia, asthma, or some other serious throat or lung trouble.
On the first sign of a cold or cough it is advisable to cure it at once, and not let it run on for an indefinite period.
For this purpose there is nothing to equal Dr. Wood's Norway Pine Syrup, a remedy that has been universally used for the past twenty-five years.
You do not experiment when you get it. Mrs. Louis Lalonde, Penetanguishene, Ont., writes:—"When my little boy was two years old he caught a cold which turned into bronchitis. I tried everything to cure him, even to doctor's medicine, but it did him no good. One day I was advised to give Dr. Wood's Norway Pine Syrup a trial, and before he had had a bottle used, he was cured. I would advise all mothers to try it, as good results will follow. My home is never without it."
See that you get "Dr. Wood's," as there are numerous imitations. It is put up in a yellow wrapper, 3 pine trees the trade mark; the price, 25 and 50 cents. Manufactured only by The T. Milburn Co., Limited, Toronto, Ont.

OLD NIAGARA
Father Dailion Visited It as Missionary In 1626.
It is believed that the first white man who visited Fort Niagara was Father Dailion in 1626, who performed Mass there. Then in 1678, a Frenchman came with sixteen Frenchmen, among them the not very famous historian Father Hennepin; then in January, 1679, came La Salle, whose vessel was lost. There is much dispute as to where the first stockade was erected, here at Lewiston, but in 1688 a fortress was built by Denonville on the site of Fort Niagara to resist the Senecas, and then occurred the first tragedy, as of the hundred men left to defend it only twelve were found living in the spring by friendly Indians, and then relieved by a French force, having yielded their lives from bad food, scurvy, starvation and the attacks of fever, typhoid, and cholera. Here, next a hospital, then a chancellery. Here was erected on Good Friday of that year, 1688, a large wooden cross, 12 feet in height, with the inscription: "R.E.G.N., V.I.N.C., I.M.P., C.H.R.S. Christ reigns, conquer, governs."
Charlevoix writes in 1727 of Madame de Maintenon a description of the scenery. Imagine the Court of France listening to these enthusiastic words: "Magnificent forests, purest air, beautiful and fruitful fields. In 1729 the fort was rebuilt by stratagem, the Indians who were opposed to this being engaged in a hunting expedition, only returning to find the walls were high enough to defend. In 1759 the fort was again having ravines, ditches, counterscarp, drawbridge, chapel with ancient dial, the whole covering a space of eight acres. During the seven years' war, 1756-1763, the fort was vigorously attacked by the British under Pringle and Johnson, and as vigorously defended by Ponchoit, who summoned to his assistance French and Indians from the west, the river at Navy Island being black with boats. Pringle, meanwhile was killed, and Sir William Johnson carried off in a siege successfully, and Ponchoit's force marched out, laying down their arms July 25, 1759. The stores found in the fort were immense. Pringle and Col. Johnson were buried in the chapel with great form, according to the diary of Sir William, who was the chief mourner. Much discussion has arisen as to whether their bodies were left there when the chapel was taken down or removed to the military graveyard. At all events something should be done to commemorate the names of two officers who gave their lives for Britain's glory. It is remarkable that, while so much is said of the conquest of Quebec by Wolfe, so little is made of the capture of Fort Niagara two months before—a fort which it had been said was the key to the continent and for the possession of which statesmen had disputed and soldiers had fought.
Gen. Lee on August 9, 1759, gives a glowing description: "The situation of this place is certainly magnificent. Had I a thousand tongues I might attempt to describe it, but without them it certainly beggars all description. For an immense space around it is filled with deer, bears, turkeys, raccoons—in short, all game. The lake affords salmon and other excellent fish. But I am afraid you will think I am growing romantic, therefore I shall only say that it is a paradise. Here were brought stores of food, articles for exchange with Indians in the west, sent afterwards by portage around the same way. And the next picture is that of the tragedy of Bloody Run, when soldiers of Fort Niagara, in 1763, hearing the firing when a ambush of Indians had killed and scalped an escort of twenty-five men, two only escaping, went to the rescue and shared the same fate, the Senecas bearing away eight scalps, and when the rest of the garrison marched from the fort to the scene of slaughter they found an immense number of men, horses, oxen, wagons at the base of the cliff, giving to the rivulet the name of Bloody Run.—Janet Carnochan in Toronto Globe.

Some Frog!
The largest frog ever caught in the vicinity of Galt was captured on the east bank of the river below the town limits, by John Lee, a young man on the River road. The frog measured exactly 13 inches from the mouth to the hind leg, and 12-1/2 inches in girth, and weights 4-1/2 pounds. When it croaks it makes a noise resembling a loud auto horn. Mr. Lee has the frog in a cage at his home.

The Perfect Man.
Speaking to the Cadets at the Dominion Rifle Association meeting, the Hon. W. T. White lauded rifle shooting as a manly sport. A man must have a good physique to be thoroughly developed. "I say that because the other side, the intellectual side, has been too much emphasized in certain educational institutions."

OBITUARY.
MRS. R. A. HOWSON.
Toronto Saturday Night: Many Toronto friends regret the death of Mrs. R. A. Howson, which occurred in Calgary recently at the residence of her son-in-law, Dr. A. Melville Scott, Mrs. Howson was well known in musical circles in Toronto, having taught for many years at Toronto College of Music. She had devoted much of her time to organ study, having been organist in old Richmond-st. Methodist church, Toronto; Brant-ave. Methodist church, Brantford; Broadway Tabernacle, Toronto, and Cambridge-st. Methodist church, Lindsay. For the last two years, Mrs. Howson had been head of the vocal department in Columbian College, New Westminster, British Columbia. She was the widow of the late Joseph Howson, M.D., of Toronto, and a daughter of the late Rev. Thomas Jeffers.

Good advice is so blooming plentiful that it threatens to be a bad thing. The women's suffrage movement succeeded in carrying four States in the presidential elections. Chief Marshall of the Orangeville police force was dismissed by the town council and R. J. Savage appointed.

London is suffering from an all-time freshet, the Thames having risen six feet in one night. The Turkish Grand in Constantinople urged the Grand Vizier to continue the war.

SCALES, DANDRUFF AND ITCHING
Head so Itchy Could Hardly Stand It. Dandruff Showed on Coat Collar. Cuticura Soap and Ointment Cured in One Month.
223 Elizabeth St., Montreal, Que.—"Cuticura Soap and Ointment cured me permanently from dandruff and scalp itch that I was suffering with since over a year. I had an inflammation of the lungs and a very strong fever. When I recovered, my head was covered with scales and dandruff, and it was so itchy I could hardly stand it. The dandruff showed on my coat collar. I used various medicines without relief. I heard of Cuticura Soap and Ointment and decided to try them, and I am very glad of it, because I am perfectly cured. I used two boxes of Cuticura Ointment with the Cuticura Soap. It took one month to cure me. I take pleasure in recommending Cuticura Soap and Ointment to anyone who is suffering with scalp or skin diseases." (Signed) Hector Ferras, Dec. 30, 1911.

TO REMOVE DANDRUFF
Prevent falling hair, remove crusts and scales, and allay itching and irritation of the scalp, frequent shampooing with Cuticura Soap, assisted by occasional dressings with Cuticura Ointment, afford the speediest and most economical treatment. They assist in promoting the growth and beauty of the hair by removing those conditions which tend to dry the scalp, and, therefore, often leading to premature grayness and loss of hair. Cuticura Soap and Cuticura Ointment are sold by druggists and dealers throughout the world. Liberal sample of each mailed free, with 32-page Skin Book. Address post card Potter Drug & Chem. Corp., Dept. 46D, Boston, U. S. A.

Milady's Mirror
For Malodorous Perspiration.
Certain parts of the body perspire more than others, and often there is a very offensive odor. Absolute cleanliness is the best safeguard against such a nuisance, not only for the body itself, but for the clothing. A silk bodice saturated over and over again with perspiration becomes too offensive to be worn, as those who have to sit in street cars and crowd into shops very well know. The better way is to wear only washable goods in hot weather and use fresh shields every day, even if one must stay up half an hour to wash them and take an extra few moments to insert them.
Many times such a condition comes about from the lack of thorough rinsing after using soap. Any remaining particles soon decompose; hence the odor.
After the bath, and it may be needed two or three times a day, a good cologne should be applied to the underclothing, while the wet wash cloth should have a little toilet ammonia poured on it and the parts wiped well. Sallow soap may be used to wash the shields. A cake costs but a dime or maybe two at the drug store. Have an ounce of boracic acid and the same of salicylic acid in powder and dust with this before putting on the garments. When the shields are to be replaced drench them with cologne. There is a great deal of rectified spirits in cologne that helps in such cases.
Where the head perspires too much the usual remedy is to shampoo too often, so the roots of the hair rot, just as the roots of a plant that is watered too much. The very best and surely the easiest method is to let the hair hang and dry out the perspiration. A dry shampoo must of necessity be used where a woman has to spend her days in an office. She can fill the head with a mixture of very finely sifted cornmeal and powdered orris root at night, equal parts, let it stay until morning and then give the thorough brushing that will require an extra half hour. On holidays, Sundays and at night when possible the hair should be aired and a regular shampoo only once in a couple of weeks given.
There is brushing and brushing, and the right way is to hold the hair out from the head and pass the brush through each tress from the scalp to the ends with long, steady strokes. The brushing should be felt only pleasantly on the scalp, not a sort of "hanging," but just enough to stimulate the glands to secrete the oil instead of its running through the long hair. After a shampoo use a little cologne with massage on the scalp and always loosen and brush the hair at bedtime.

To Have Clear Skin.
A French physician says the woman who would have a beautiful complexion must live plainly, avoiding rich meats, greasy soups, too much game, heavy wines and highly seasoned food. Wealthy people who live highly and dress improperly often have fine features which are marred by a miserable complexion. Women in the middle class of life, who live more simply and eat plain, simpler and more wholesome food, often have much finer complexions and do not seem to grow sallow and faded so soon. Their habit of going to bed early and getting up early and getting the health giving morning air also makes a fresher, clearer complexion.
One cannot eat and dress as one pleases, regardless of rules of health, and have a pretty complexion. One must live as nature says is best if one wishes to be beautiful and healthy.
It is said that carrots are very good for the complexion, and if properly cooked they are very good to eat.

London is suffering from an all-time freshet, the Thames having risen six feet in one night. The Turkish Grand in Constantinople urged the Grand Vizier to continue the war.

Orillia's Power Plant
A few days ago The Watchman published an editorial from the Barrie Advance concerning Orillia's power plant, and in the latest issue of the Orillia Packet, Editor Hale comes out strongly in defence of the power plant. The Watchman takes pleasure in printing a few short extracts from the Packet's editorial:
"The revenue from the plant has more than covered the whole cost of production in every year but one of two, when there were heavy losses through accidents."
"Orillia's flat rate for light is lower than that of any of the other towns from which the council secured information before striking the new schedule last spring."
"The long and short of the matter is that, despite misfortunes, the Orillia power plant is still a paying proposition and a valuable asset; and, despite mistakes, the management of the plant has, on the whole, been capable and businesslike. The proof of these statements is written large in the fact that Orillia is still able to compete with rivals who have come into the field under much more favorable conditions. It is not by chance that Orillia has developed her power and light business until she uses almost as much electrical energy as all the other towns in Simcoe put together, and takes a place alongside the smaller cities of the Province. And it is largely due to her power plant, and the advantages it has given her, that Orillia has passed from third to first place in population among the towns of the county."

Conductor Perry Improving--Bad Injuries
Railroad employees and citizens in general will be pleased to hear that Conductor Harry Perry, of Lindsay, who was injured in the yards at Waubausene, near Midland, on Saturday last, is reported to be getting along nicely. Mr. Perry lives in Lindsay at present, although his home is in Peterboro, where his mother resides.
It appears that Conductor Perry was assisting his trainmen, and had uncoupled his train, but while the engine remained still, the slack moved back, pinning the unfortunate young man tight. He was rushed to the hospital at Midland, where his wounds were dressed. Conductor Perry suffered great pain, and late Saturday night was still in an unconscious condition. However, today his condition was reported as very much improved.
At the present time Conductor Perry's mother is confined to the Peterboro hospital through illness.

Lindsay Auxiliary Called Out--Cause Unknown.
The G.T.R. Lindsay auxiliary, foreman and crew, were called out hurriedly Sunday afternoon and made a quick run to Campbellford, where in some unaccountable manner 8 freight cars, loaded with grain, were derailed, and were quickly placed on the track again and despatched on their way. No person was hurt.

Bourassa is Not a Candidate
Montreal, Nov. 11.—Henri Bourassa will not run in Hochelaga. Le Devoir announced to-day.
If the naval policy of the Government is announced, Arthur Ecrement will oppose Hon. Louis Coderre, the new secretary of state, as an Independent Liberal.
If there is no pronouncement, the advice of Sir Wilfrid Laurier will be followed and the fight made in parliament.
Mr. Ecrement denied to-day he had been chosen by the Liberals.

October show increases of imports and exports.
It was reported that Adrianople had surrendered, and that Tchatalja had been captured by the Bulgarians.
The Marconi Company concluded an agreement with the Dominion Government regarding wireless stations on the great lakes.
The first and second-class passengers were taken off the Royal George; the steerage passengers and crew are still aboard the vessel.
One hundred and seventy new post-offices were opened during the past three months.

Valuable Horse Saved By "Nerviline"
WAS TOO SORE AND LAME TO WORK QUICKLY, CURED BY NERVILINE.
"I have had a long experience in training horses, and I can safely say that I know of no liniment for strains, sprains, and swelling that is so useful around the stable as Nerviline." Thus writes Mr. J. E. Murchison, from his home, Cross's Hill P.O. "I had a fine young mare that wrenched her right foreleg, and from the shoulder down she was stiff, sore and swollen. I applied Nerviline, and it worked like a charm; in fact, that mare was in shape to work a day after I used Nerviline."
"We have used Nerviline on our farm for twenty-five years, and never found it wanting. For man or beast it is a wonderful liniment."
Five thousand letters recommend Nerviline as a general household liniment, as an all-round cure for aches and pains. Try it yourself.
Large size bottle, 50c., or sample size 25c., sold by all dealers, or The Catarrhose Co., Kingston, Ont.

SUFFERED AGONY FROM DYSPEPSIA
"Fruit-a-lives" Makes Wonderful Cure
N. C. STIRLING, Esq.
GLENCOE, ONT., Aug. 15th, 1911.
"So much has been said and written about 'Fruit-a-lives' that it might seem unnecessary for me to add my experience. But 'Fruit-a-lives' were so beneficial to me when I suffered with dyspepsia, that I feel called upon to inform you of the remarkable and satisfactory results I have had from using them.
Dyspepsia and indigestion as everyone knows, can give you more uncomfortable hours and days than most common complaints.
"I am glad to be able to say to you that although in the past I suffered excruciating agony with dyspepsia, I am now in perfect health.
"Fruit-a-lives" accomplished the desired result and I have to thank them for my very favorable and satisfactory state of health." N. C. STIRLING.
Why don't you try "Fruit-a-lives"? 50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-lives Limited, Ottawa.

DEATHS.
HUNTER.—In Lindsay, on Sunday, Nov. 10th, Thos. Hunter, aged 36 years.
A man whose eye is out of focus seldom makes things doubtful. It is not much talking, but effective talking, that takes the cake in the gabfest.

IT IS SIMPLY INVALUABLE
That is Mr. Stewart's Opinion of Douglas' Egyptian Liniment
Has given Douglas' Egyptian Liniment a very thorough test, and this is what he says about it:
"After using and making some remarkable and speedy cures with Douglas' Egyptian Liniment, I must say that I believe it to be the most wonderful remedy for man and beast I have ever used. We had a horse badly injured in the pasture field and before we were aware of it the wound was in a very bad condition, but Egyptian Liniment soon disinfected everything nasty and a rapid cure was made. In the house it is simply invaluable in all cases of rheumatism, sciatica, neuralgia, burns, sprains or bruises. It is a boon to humanity."
You owe it to your family, and your stock to keep a bottle of Douglas' Egyptian Liniment always on hand, ready for instant use.
It stops bleeding at once. It heals cuts and wounds without inflammation or proud flesh. It quickly takes the pain and swelling out of sprains and bruises of all kinds. In fact it is simply splendid for every trouble of man or beast which a liniment can cure.
25c at all dealers. Free sample on request. Douglas & Co., Naperville, Ill.

SCIENCE SCORES AGAIN.
Photographer—"I have been taking some moving pictures of life on your farm."
Farmer—"Did you catch my laborer in motion?"
Photographer—"I think so."
Farmer—"Ah, well, science is a wonderful thing."

A GOOD SHOT.
A dignified Senator declined to follow the prevailing Washington fashion and learn golf. It was a distressing time for the caddy. Striking too low with his iron, the great man made the dirt fly.
"What, have I hit?" With infinite scorn the boy replied, "The District of Columbia."

EMBEDDED TOO FREELY.
Constables Short and Thornbury arrested a local man on Saturday night who has an established record for imbibing too freely. The prisoner was acting disorderly when taken, and gave the officers no small amount of trouble in bringing him to the cells. He gave a check for \$21 to Chief Chilton as security for his appearance in court, and was permitted his liberty, to appear when called for.
