Economy in Feeding Stock

Every stockman of course knows that some animals-just as some men-eat twice as much as others without any corresponding increase in weight or energy. The difference is largely a matter of assimilation. Feed is high this year; see that your horses and cattle digest and assimilate perfectly all they eat. You will save feed and money by it. Old English Condition Powder aids di gestion and tones up all organs.

AN ARDUOUS POST.

The postmen of China have to pass a severe test before they are engaged in the service. Aspirants for position must give evidence of courage, robustness, power of endurance, and ability to traverse great distances over mountains and valleys and through dangerous forests. These journeys must be undertaken alone and accomplished in a fixed time. After this the would-be letter-carrier is sent into uncanny places, which are considered to be the abode of evil spirits. When the Chinaman has satisfied the authorities in regard to these matters he is appointed a regular letter carrier. It is only the bravest who adopt the calling.
