TAKE TRIP TO

Magnificant Volume to be Presented to Readers

Get ready to take a trip to the reat Panama Canal. This does not that you should pack your get a new white serge. The clothes you are wearing will be sufficient, and just leave your linens where they are now. You won't need to make any preparations further than to see that The Warder is delivered to you

The trip in question is in the shape of a great big beautiful book, filled with word paintings as well as wate other for predominence, and yet paradoxically harmonize at every The new illustrated book called " Panama and the Canal Picture and Prose," and each section of this title is fully covered. First, it tells you all about Panama, that crooked little neck of land which has been divided so that the entire world may be more closely united; then fully explains all that is of interest relating to the great canal itsell finally, it portrays rare views of the country and the people in photographic reproductions and artistic color plates, describing them in beautiful word pictures that hold the attention of the reader to the very

The knowledge to be gained by a close reading of this volume will forever after be a valuable asset to every man, woman and child, for this great waterway is destined to become an important factor in times of peace as well as in war. It will nations of the world; it will bring about changes in the trade and commerce of all the earth; it will open up new avenues of trade and establish new relationships between the various countries of the globe.

The Warder realizes the unusual educational advantages offered in this volume, and has arranged for a great distribution to its readers. While parents will want the book for sight of the fact that the school Busy Week For child of to-day is the one that will face the problems presented by the changed conditions of the future when the canal shall have become Ottawa, Nov. 24.-Col. the Hon. a working factor among the nations Sam.
