**FARMERS' CLUB.**  
Mr. D. A. MacKenzie was at Woodville on Thursday and a farmers' club was organized. Officers were elected as follows: President—W. Thomas; vice-pres., D. C. Ross; sec.-treas., W. E. Whetter. The next meeting will be held on Jan. 4, and the subject under discussion will be "How Can We Increase the Production of Our Farms." Messrs. Andrew McKay and Thos. Upton will lead the discussion. The meeting last night was held in the Oddfellow's Hall.

**MUST NOT BE SUPPLIED.**  
An Omegee young man got himself and two others into trouble by purchasing liquor in Lindsay and bringing a quantity to his home village. There he supplied another boy under age and reports state that a hilarious time was raised down in Omegee. Last week a young Lindsay man who obliged this fellow by getting him a bottle of whiskey was fined ten dollars and costs. Friday morning the bar tender who supplied him with liquor was fined \$15 and costs, \$20.87 in all. Then he pleaded guilty himself, and was fined \$20.70, including costs. Magistrate Jackson heard the charge against the bartender Friday morning, Mr. G. A. Jordan defended and G. H. Hopkins, K.C., prosecuted. Mr. Jordan put in a plea of guilty for his client and appealed to the magistrate for leniency, pointing out that the bartender was not entirely to blame. "There are two classes of people that hotelmen must not supply liquor to and these are the "Indians" and the "infants," declared Mr. Hopkins, with emphasis on the "must not."

"If there are more cases of this nature," went on Mr. Hopkins "I am going to 'butt in' to the extent of asking your Worship to give the offenders a little jail." The penalty for supplying liquor to minors is from a fine of \$10 to \$50 or three months in jail. Mr. Hopkins continued—"I understand liquor was brought to Omegee, and one thing I will insist on is that the law must be observed, is not whether local option is beneficial to a community or not, but that Omegee carried local option and this young man had no right to take whiskey down there to pollute the boys of the community."

Magistrate Jackson imposed the fine stating that when a bartender has any doubt about the age of a young man, no liquor should be sold him.

County Police Magistrate Moore presided at the case against the Omegee youth, who was charged with supplying minors. He pleaded guilty after a few minutes hesitancy and was fined \$20.70 in all, or 21 days in jail. The fine was gathered up around town and paid. License Inspector Thornbury is keeping a watchful eye on Omegee and told a Warde reporter this morning that he would see that the law was observed to the letter in that village. He is acting under special instructions from the department, Omegee not being within his district.

It happens every time you treat a corn with "Putnam's"—corn dies—never returns. Nothing so certain and painless as Putnam's Corn Extractor—try it. Fifty years' success guarantees its merit.

**RACE HORSES OUT.**  
Racerhorses are being worked daily at the half-mile track, in preparation for the winter races. W. Sheran worked Dan Finister, the Fenelon Falls horse, a mile in 2.24 yesterday and Dan wasn't pushed hard at that. Red Dan, the horse owned by McMahon, of Reaboro, was worked an easy mile in 2.31. Orain, a young grey stallion, owned and driven by Sheran, was sent an easy mile in 2.35. This stallion will be entered in the 2.35 stake race at Ottawa this winter. Dan Finister will enter the 2.20 races.

**ABOUT XMAS TURKEY.**  
According to reports from dealers in poultry everywhere. It is said that the supplies of the British reared birds, owing to the weather conditions in the early part of the season, will fall far short of the demand, and the people at home are now making inquiries as to what Canada can do for them.

If one may judge from the short supply of the prices paid in Toronto for Thanksgiving Day, Ontario will have very few or none to spare for other markets than her own. In eastern Ontario turkey raising is still carried on successfully, and the farmers there derive a good revenue from their birds, but in Western Ontario the great majority of farmers have given up the turkey as a business proposition. For this several reasons are given, none of which seem to be practically convincing, though some are rather amusing. For instance, one man gave it up because, he says, after he had raised a nice flock they wandered off, and "he guesses his neighbors ate them," a bad reflection that, on the neighbors. In the majority of cases the story is, "they never have any luck now with them." In these cases the real fact is that they are too well off to take the little trouble necessary to carry the young birds through the first stage of their existence. Luck is not a factor in handling any kind of live stock. Knowledge of the requirements of an animal and the ability to apply that knowledge are the requirements for its successful production.

Turkeys, under farm conditions, are really but little more trouble to raise than any other class of poultry, and after they have passed the critical stage of chickenhood are harder than most. Not only so but given the run of the orchard, they will just keep themselves on the insects to be obtained there.

### Grand Jury Visited County Buildings

The presentation of the grand jury, made to His Honor Judge Harding Wednesday afternoon, was a brief one. It is given in full below. After it had been read His Honor dismissed the jury and they dispersed to their homes. The presentation:

May it please Your Honor: The grand jurors of our Sovereign Lord the king assembled at the court of general sessions of the peace, beg to make their presentation as follows:

They have visited and inspected the jail. There are eight persons confined in the prison. Seven are men and there is one woman. Three of the men are vagrants, one is undergoing sentence for theft, one is awaiting trial for the same offence and two are held for being drunk and disorderly. The woman is under sentence for keeping a disorderly house. The bedding was found to be in good condition with the exception of some of the pillows in the cells, which were not found to be as clean as seems to be desirable. In all other respects the premises are in good order.

The court house is in excellent condition in every respect. The heating system recently installed is working satisfactorily.

The Ross Memorial Hospital was visited with much gratification. The treatment of the patients is carried on with the efficiency and care which are characteristic of the institution. There are at present fifteen patients in the hospital.

The House of Refuge was found to be warm and clean, and the whole premises and buildings are in good condition. There are fifty-seven inmates, 33 of the number being men and 24 women.

All of which is humbly submitted.

**PECULIAR ACCIDENT.**  
Blackwater Jct., Dec. 17.—A rather peculiar, serious and fatal accident occurred here about one o'clock in the Grand Trunk stock yards. Three men were standing in the stock yards looking over a number of cattle in the same yard when a supposedly "spent" bullet came whizzing past them which instantly killed one of the cows. One of the men had a narrow escape, as he was almost in the direct line of the bullet, and standing close to the cow that was killed. It is supposed that some person shooting in a nearby bush wasted a bullet in this direction while shooting at some object.
