### OLD LANDMARK REMOVED.

Port Perry Star: An old landmark has been removed from the vicinity of the station. Years ago an engine used to remain in Port Perry over night and a roundhouse was built for it. Then the railway

authorities removed the engine to Lindsay and the building was used as a pump house until a contract was made with the town to do the pumping, and the building became useless. Recently it was removed by Mr. Martin, a farmer living south of Prince Albert.

### RAILWAY FOR HEAD LAKE

TO BE COMPLETED BY NEXT JUNE.  
 (Too late for last week)

Head Lake, Dec. 13.—The natives of this locality are these days rejoicing in their minds over the fact that a railroad is going to be built through here in the near future. Our oldest seers say it is sure to be ready for use by next June. It is going to strike Uphill, pass across through Mr. Jas. McFadden's and from there to Head Lake. It is expected that it will be a double track, so that when one track is blocked with snow, the trains may run on the other. Let us all hope for the best and get our shovels ready for digging.  
 Mr. and Mrs. Frank McFadden, of Lindsay, arrived in this country last Tuesday. Frank intends putting in the winter in the woods, and expects to get a lot of timber out to the mill.  
 Mr. Bert McFadden has started taking out timber with Mr. Dan McDonald, of Uphill.  
 Miss Martha Bailey spent a few

days last week visiting friends in this section.

Mr. Thomas Southern has been offered the handsome sum of \$150 for his two-year-old colt. He has not accepted the offer, as he thinks he has a rare good colt.
