WHERE THE PUBLIC GIVES ITS OPINION

Mr. Day Answers Mr. Sam. Suddaby

Editor of the Watchman-Warder.

Dear Sir,-In reading your last week's issue I am convinced that the object of my letter will be realized. The House of Refuge question has been dangling before the county council for the last ten years and what has been done? Why the said council has sent two committees composed of some nine or ten men to investigate and report. Now it's very treatment. Let us make a fair comnice to have a trip of that kind, but these committees cost some money, but I don't know as it's safe to men- medicine. Take for instance a tion cost or economy after receiving church congregation of 1,000 memsuch a mess of hash as I received bers with their families and friends, from that learned writer, Mr. Sam Suddaby, from that far-famed town- of at least one funeral per week, ship of Somerville. I must say think the committee did their work well and gave a very satisfactory report of their trip. I need not go sive observation I verily believe that into details as a report was sent to they have not had one funeral per each ratepayer. I ask my readers to read it carefully and I think they will all agree with me the council did the vast majority of believers in wisely in not taking action on the Christian Science are of that class rate two years ago as the result was so complicated.

Now the object of my letter was to covery or to try something else, usuget the people thinking the subject up, talking it over, discussing it, having their minds made up, so that on the 7th of January they will give such a sweeping majority for or anywhere. against, that we may have a House of Refuge built or declare it a dead issue and not have it occupying the county council's time for the next 10 fairly determine its actual merits, or

In reply to Mr. Sam Suddaby: You would naturally think by his letter I judged by or unfamiliar to the listenwas responsible for the amount levied and had full control of dispensing taught to depend upon material systhe same. I will inform him that I of William Street from Kent Street to Peel have had nothing to do with either levying the rate or dispensing it for 2. A Granolithic Walk on the West side a good many years past, but I think quest affords, to gain an intelligent it has been dealt with by just as generous men as Mr. Suddaby. In his township. Somerville, has a poor 4. A Sanitary Sewer and Cellar Drain rate at all. It's a wonder that with so generous a man as he helping to guide the affairs of said town- and this is clear evidence that Chris-William Street, and that such By-laws were ship, it could not boast of a poor tian Science is not mere theory, but Further on he says: "My idea of

a House of Refuge is that some kind of employment would be provided by support." Bright idea Mr. Suddaby. We will in equipping the House of Refuge see there is a buck saw provided and also a saw horse and a pile of four-foot maple wood. One of the inmates being an old man but able to do some work, the caretaker would introduce him to a half-cord, with saw and horse provided, pat \$11,957 45 for the purpose of paying for him on the back and say "My good fellow when you saw this pile come in and we will give you an extra bowl of soup." He would say in his own mind: Grand institution What independence! I can run this saw as fast as I like! A dish of pea soup waiting! A grand idea Mr Suddaby-25 cents earned! Further down he says : "There is one part of Mr. Dav's letter I cannot agree with he says every municipality should take care of its own poor. By what law of humanity or christianity has he authority to say that?" Surely Mr. Editor Mr. Suddaby is not so will be confined to the county boun-

ignorant as to think that if the coun-Refuge as he proposes it will he open it to the whole world. It certainly daries. Does even the generous Mr. Suddaby advocate opening the proposed county House of Refuge to all outsiders? If not, his idea differs from mine only in this: He believes 6. For a Granolithic Walk on the East in dispensing charity by counties, the poor what we can afford. And that such By-laws were registered in they are able and willing to work, the Registry Office for the County of Vic. scattered throughout the different toris on the Eighteenth day of December, townships of the county, they car A.D. 1900. Any motion to quash or set find employment better than the aside any of the above or any part or parts county can with so many located in thereof must be made within one month one place. If they are unable to from the date of registration, and cannot be work, we should do the best we can for the poor unfortunates under

N. DAY. Powles' Corners, Dec. 24, 1900.

Christian Science

Toronto, Dec. 24, 1900

Dear Sir,-Having noticed in your

their opinion that the practice of Christian Science is a danger to the community, permit me to say to your readers, that such opinions are not based upon a proper understanding of what Christian Science is, and what it is doing in the healing and prevention of disease, and the moral elevation of character to be obtained through obedience to its rules and precepts. Let me ask whether or no it is an indication of common candor, charitableness, and intelligent comprehension of the situation, to denounce as a dangerous element, and to pronounce an insane delusion, a system of healing which inculcates a confident reliance upon God as Father of all, and as willing and able to save from sickness as from sin.

It is a fact that at the present time

thousands upon thousands are daily

proving the truth of Christian Science, and the proof is to them as absolute as are the deductions and computations of the mathematician. The occasional loss of a case under the care of a Christian Scientist proves no more than would the failure of a child to solve a problem in arithmetic, viz., an insufficient understanding of its rules and principles. Such failures on the part of Christian Scientists, are however in a very small minority compared with the number who are healed under their parison of results under Christian Science treatment with those under the care of prevailing systems of say 2,500 in all. Would they not in that number experience an average I especially if it were considered a sickly season? Now take a congregation of the same number of Christian Scientists, and from extenmonth among that number, and one season is not more unhealthy than another to them. Also, mark this, who are unable to obtain relief under medical treatment and were compelled either to abandon hope of really having little faith in any method of treatment whatever. But now what a change! If you attend a Christian Science church, you will not find a more healthful looking people

It is not surpring however. that sufficient understanding of Christian Science cannot be gained at an inquest, to enable coroner or jury to even to accord fair play to its tepresentatives; especially if Christian Science be to a certain extent preers, who, as a rule, have always been tems of medicine, even though experimental and unsatisfactory. Tt would be impracticable, by such brief opportunities of inquiry as an ininsight into such studies as music or astronomy, which no one is prejudiced against. These subjects require epistle he has not told us that his practice and the patient application of their principles; so does Christian Science: though as a rule children receive the benefits of its healing power more readily than the educated adult that its beauty and essence resides in

> its practica, ity. Yours respectfully WESLEY SPAULDING.

VICTORIA ROAD

Dr. Bowerman, dentist, visits Victoria Road (Chirpaw's hotel) every Thursday regularly.

LONG POINT-FENELON

What has happened the Balsam Lake correspondent to The Watchman-Warder? Quite probably he was snowed under the last snow storm and is now sleeping his Mrs. Geo. Haygarth will spend the holi-

days at her home in Peterboro Mr. Will. Hoyle is expected home from Ottawa to spend the holidays. Miss Bertha Newell is visiting at Mr. A.

Miss Ethel Staples is away on a trip to Rev. W. B. Cunningham of Niagara, North Dakota, is home visiting his

mother, who is very poorly. His many friends are pleased to meet him once more after an absence of eighteen years. The ≥est seems to agree with him. He occupied the pulpit last Sabbath very accept-Mr. J. Bell of the lake met with a ser-

ious loss Saturday week. While returning from Lindsay one of the horses he was driving took sick, and he was unable to reach home. It died Sunday afternoon. There will be a vacancy for at least two more school teachers after the 26 h of this

Mr. Clark Staples of this place, and formerly of Staples & Magwood, Lorneville has taken charge of the hard ware business at Kirkfield formerly carried on by Spence side of Cambridge Street 131 feet North by townships. I believe in giving Bros. We wish him success in his undertaking.

It is quite probable that our new Methodist church will be opened on Sunday and Monday, Jan. 20 and 21, 1901 Mr. Morrow has the job about completed, with the exception of seating, which will be finished in about a week. Bills will be out as soon as possible.

A number of our young men are feeling sad and lonesome these days on account of one familiar face having disappeared from our midst, in the person of Miss E. Smith of Lindsay, our school teacher of the past three years. She has left us to a'tend the Ottawa Normal School. On the eve of her departure she was presented with a beautiful album as a token of the respect in which she is held by her many friends of Balsam Lake She made many friends while at the Point and all were sorry to see her leave. She will be greatly missed in the League, of which she was an active member, being always ready to take part when called upon. Po-sibly she may visit the Point at some future date,

Editor of the Watchman-Warder. Lindsay, Ont.

paper some weeks ago an account of a coroner's inquest at Peterboro, in and we can assure her there will always THE RIVAL HERB CO., Montreal which the coroner and jury expressed be a hearty welcome awaiting her.
