The Ladies Hospital Committee

The last meeting of the ladies who for two and a half years have been a committee in connection with the Ross Memorial Hospital was held on Friday afternoon of last week in the COUNTY COR council chamber.

This committee of forty was first in hand. The town was divided into districts and was thoroughly canvassed by the ladies, a very large sum promised for the endowment fund be-

In the fall of 1900 a Woman's Edition of the Watchman-Warder was edited and published by this committee, the sum of \$119.36 being thereby added to the endowment fund. The handsome clock which stands on the stair of the hospital was the gift of the ladies of this committee. A large number of articles for use in the hospital were embroidered with the initials R. M. H. connection with the preparations for the opening ceremonies.

The committee being only a provisional one and the hospital now being regularly organized for work the committee disbanded.

The Theory That Courier's Gun Shot a Hole in His Canoe, Disproved

Millbrook Reporter : All our readers are familiar with the details of the drowning of Samuel Courier in Rice Lake a few weeks ago. At the time it was asserted that his gun had been accidentally dischaged causng a hole in the boat. Now this gun has been found and it proves conclusively that it did not cause the accident, as both barrels were loaded when the gun was found. Mr. Talbot, who was with the deceased at the time of the accident says he really believed that it was not his gun, but Mr. Courier's which met prepared to furnish the people of with the accidental explosion which Lindsay and surrounding country led to the accident; but if the with monuments and headstones both statement is true that Mr. Courier's gun was loaded when found was load-Estimates promptly given on all ed he admits that he was mistaken and that in the excitement attend-Marble Table Tops, Wash Tops, ing and following the accident, his recollection of details might easily Being a practical workman, all have been at fault to that extent.
