THE WATCHMAN-WARDER

Published Every Thursday CIRCULATION,

MERRY CHRISTMAS

A gentle spirit rules the Christmas time. Then mankind is at its best. By this festival of the nativity of its Founder does christianity bring the race most nearly back to Eden. No other season assauges so many griefs, buries so many enmities, prompts so many smiles, bears so many joyous greetings, and so makes the flowers of loving deeds break into bloom around the world.

The chief joy of thoughtless childhood, it is the day that most can kindle up the fires of gladness on the ashy alters of old age. At its approach men turn awhile from life's keen conflict, to heed the tender memories that come trooping back from bygone years.

After the stress and trial, the bitterness, and loss, of another year, amid the holly and home-coming and good cheer, in this gladest, brightest festal time, care's holiday, season of good will that makes us nearest what we ought to be, Merry Chrismas, Merry Christmas!

MANILLA

The I.O.O. F. held a basket social on Tuesday evening of last week in their hall. Mr. A. Edwards acted as president and Mr. G. Robinson gave a good address on Oddfellowship. as far as it went, but was too short. The baskets sold well and all enjoyed themselves, especially the boys who went to the extreme much to the annoyance of the audience.

Mrs. McQueen met with a bad accident last Sunday. While walking on the street she fell and broke her ankle bone.

Miss V. Coone is able to assume her church work again. During her absence Mr. G. Smith presided at the

Our doctor is kept busy at present. Among his patients in the village are Messrs Pearce, Dixon King and others.

The choir of the Methodist church gave appropriate music last Sunday evening and Mrs. W. L. Coone favored the audience with a solo in her usualpleasant style.

The Methodist and Baptist Sunday schools here are holding entertainments in the near future. The former is to be on the 2nd of January and the latter on New Year's Eve. During the absence of Rev. G. Robinson next Sunday evening. Mr. C. Bott will supply.

Brain Strain. A French investigator has come to the conclusion that the brains of military men give out most quickly. He states that out of every 100,000 men of the army or naval profession 199 are lars. hopeless lunatics. Of the liberal professions artists are the first to succumb to the brain strain, next the law-London Express.

Coughs are warnings of something amiss in throat or lungs. Don't mind the cough, mind the cause. Use a remedy that will go to the source of trouble aad cure that. Such a rem edy is our WHITE PINE BALSAM. I cures promptly and thoroughly because it cures in the right manner: Relieves irritation heals inflamed surfaces loosens the cough and soothes and strenghens while it cures. A splendid remedy for children because it is so good to cure and so

The induction of the Rev. J. C. yers, followed at some distance by doc- Ferguson, B. A., will take place in tors, clergy, literary men and civil the Presbyterian church here on servants. Striking an average of this Tuesday, Dec. 30th, at 2 p.m. In group, 177 go mad to each 100,000 - the evening from 4.30 to 7.39 tea will be served in Thornbury's hall, followed by an interesting program n the church, addresses by the leading clergymen and selections by the Cambray male quartette. See posters.

PALESTINE

On Friday night last a number of he friends of Miss Aggie Jamieson, organist of the Presbyterian church, met at her home and presented her with a handsome music rack. The occasion took the form of a surprise party and a very pleasant evening was spent.

VICTORIA ROAD Dr. Bowerman, dentist, will not

visit Victoria Road on the first Thursday in January as it happens to be New Year's day ; but will be at Chirpaw's on the Thursday following, Jan 8th, 1903.

What Botznists Do Not Know. How water, commonly called sap, necessary to the life of a tree, passes from the roots to the topmost leaf and evaporates is a problem not yet solved by botanists. It is known that the ascent is made chiefly in cavities in the sapwood only, the heart and bark serving other purposes. That is the extent of our knowledge of the marter. Beyond is mere conjecture, and every theory yet advanced has failed to stand the test of experiment.

The Cast Was Made.

"Do you cast things here?" inquired a smart youth the other day as he sauntered into a foundry and addressed the proprietor. "Yes, we do."

"You cast all kinds of things in "Certainly. Don't you see that is our

WEATHER PROPHETS.

Blow out a candle, and if the wick continues long to smolder look for bad weather. If it goes out quickly, the weather will be fair.

The twelve days after Christmas indicate the weather for the following year. Each day in order shows the weather for one month.

When it begins to snow, notice the size of the flakes. If they are very fine, the storm will be a long one; if large, the storm will soon be over.

If the chickens come out while it rains, it is a sign that the storm is to be a long one. If they stand around under the shed, the storm will be short. When the cattle lie down as soon as they are turned out to pasture in the morning, it is because they feel a rheumatic weariness in their bones, and you can look for rain soon.

When a night passes and no dew falls, it is a sign it is going to rain. This omen loses much of its mystery when one remembers that dew has not fallen because the night was clouded. When you see the sun drawing water at night, know that it will rain on the

ing water when its rays can be seen shining through rifts in distant clouds. The last few hours before a funeral the clock in the house strikes with a tone never noticed before and never apparent again, except on similar oc-

easions.

LATE ARCHBISHOP OF CANTER-

The Bishop of Winchester is con-Mr. S. Corbett has taken the ska- sidered likely to be his successor.

Sketch of His Life. Frederick Temple was the son of the late Major Temple, Lieutenant-Governor of Sierra Leone, and was born on Nov. 30, 1821. He was educated at Blundell's School, Tiverton, and the "Eton of the West" has never sent forth a more distinguished dignitary of the church. From Blundell's he went up with a scholarship to Balliol, Oxford. There he took a double first, and attained the still higher distinction of a fellowship. His time at Oxford has, not unfairly, been described as the golden age of faith, for the acutest intellects in the university then found their highest powers developed within the region of Christianity. Prof. Schairp commemorates in graceful verse the Balliol scholars of his generation, and Frederick Temple has not been found undeserving of the eulogy pronounced upon him. He graduated in 1842, and was ordain- another teacher standing by laughed. ed by Bishop Wilberforce in 1846. -The union Sunday school service Two years later he was appointed to the Principalship of the Gov-

which raised a storm because of its -Rev. G. W. Henderson preached alleged rationalism. There was strenuous opposition when he was appointed Bishop of Exeter by Mr. Gladstone. But his ability soon discredited criticism, and in 1885 was called to be Bishop of London One characteristic of him has been that he has been eminently fair to all classes of churchmen among his clergy.

Blind Men as Shampooers.

"I do pity these blind men so," said a stranger in the city who had been approached by so many "blind" men in walking down the avenue that he wondered how these beggars picked him out so readily.

"And yet," said his host, "there are many lines of work which they could do instead of begging. For example, most of the shampooers in Japan are blind men. Some are so well to do that they own their own houses, and their patrons go to them for treatment. Others who have not succeeded so well go from house to house, and the rest of the people from sympathy guide them from place to place. Some of them walk alone, blowing on bamboo whistles. There was a time when some of them were doctors as well as sham-

Mortar Tossers.

There is no hod carrying in Japan. The native builders have a method of transferring mortar which makes it seem more like play than work to the onlooker. The mortar is mixed up in a pile in the street. One man makes this up into balls of about six pounds weight, which he tosses to a man who stands on a ladder midway between the roof and the ball. This man deftly catches the ball and tosses it up to a man who stands on the roof. This plan would scarcely work for skyscrap-

RUGGIST -Kent-st- LindsayGluck In a Frenzy.

When Gluck composed his immortal works, a bottle of champagne was always placed on either side of the plane, and its effervescence helped to inspire the great arias of "Iphigenia," "Armida" and "Alceste." When the final rehearsals were held of the "Iphigenia," Gluck had not yet written the melody to the "Dance of the Scythians." Naverre, the ballet master, becoming uneasy over the delay, went to him one morning to urge him to hurry it up. As he entered the composer's antercom he heard unusual and terrific noises emanating from Gluck's library. He approached stealthily and through # crack in the door saw Gluck in shirt sleeves, his face as red as fire and distorted by horrible grimaces, singing, gesticulating and jumping about like # madman. Naverre, frightened by the extraordinary spectacle, pushed the door open. "Ah, there you are," erclaimed Gluck. "I am just finishing your dance and will let you have it right away." It was then that Gluck had composed that grand orgy of the savages which created such a profound sensation on the stage.

SENATOR PRIMROSE DEAD.

Another of the Small Conservative Ma-Jority in the Senate Gone.

Halifax, N. S. Dec. 24.-Senator Primrose died at Pictou Monday night.

The late Senator was 72 years of age and was appointed to the Senate in 1892. He was a Conservative in politics. He had been for years s prominent man in public and business affaire in Nova Scotia. This leaves five vacancies in the Sanata-
