BASEBALL.
Victoria Warder, Friday, Sept. 3, 1886.—Thursday was as fine a day for beating Whitty as could be desired, but it wasn't done. Little pitched for Lindsay, Bates caught and McAdams played first base.

The agent, Mr. Dover, discovered the door to be open and the safe to have been carried off when he reached the office early in the morning. The safe was found in an empty box car shortly after. Nothing of value was in it. The burglars were afterwards caught, thanks to Mr. R. Matchett, local agent, and Chief Bell. They were given two months at hard labor.

Are There Blind Pigs in Omemee?

For some time it has been suspected that a sprinkling of "blind pigs" were in operation in the local option village of Omemee. The hotel there has a good reputation, but rumors that whisky was being retailed in various parts of the village reached the ears of the License Department and Provincial Inspector Ayeart and License Inspector Thornbury visited that village Friday and conducted an inspection. It was ascertained this morning that developments will follow, but nothing definite is known as yet concerning the probability of charges being laid.

FARMERS' SONS

If you are a farmer and you want your son to be a farmer after you, teach him from his earliest boyhood to respect his father's calling. Instill into his mind the fact that the great men of all ages were sons of farmers. Teach him never to be ashamed of the senseless and threadbare jokes of would-be humorists over Old Haysseed and his lumbering old market wagon and his quaintness of speech when he visits the city and stares round at the sights, and does not make half so much a fool of himself as the average city man when he comes to the country. Do not fill his life entirely with work. Recreation is as necessary to happiness and to healthful development of the spiritual and healthful faculties as is pure air, and there is untold wisdom in the old saw, "All work and no play makes Jack a dull boy."

Encourage him when he tries to do well, even if he fails. Failures which teach us how to avoid future disasters are successes. Make him feel that you rest upon his faithfulness and truth in whatever you entrust to him.

Do not blame him when he is not at fault, even if things do not turn out as you expected. Never disparage his efforts. Continual disparagement breaks the boy's spirit, and there is nothing more inspiring, nothing more refreshing in this world than the broad, courageous, undimmed hopefulness of a manly boy.

Take him into your confidence early. Let him know what you are going to plant in the ten-acre field, and how you propose to make the upland fields pay.

Don't snub him. The man who snubs a boy is unworthy to be the father of a son. Let him have the money he earns. You would have to pay the hired man for taking care of the calves and the cotts; why not remunerate your boy?

Do not disgust him with farming in the beginning by telling him that he does not need anything but his board and clothes now, because he will have "it all" when you are gone. Twenty-five dollars when a boy is ten years old is more to him than five thousand will be when you are dead and gone and he has the farm.

Do not starve your family for the sake of taking the best of everything to the market. A broad and generous soul cannot develop in a starved body. Live in just as good a house as you can own, free from mortgage. Have a pleasant, sunny living room with books and papers and music.

Encourage your boy to invite his friends there, and yourself greet them cordially when they come. The lack of social privileges at home is one fertile cause of the temptation exerted by city life on the country young man.—New Zealand Dairyman.

Make Each Animal Worth 25% Over Its Cost

On 2/3 of a Cent a Day

Nobody ever heard of "stock food" curing the bots or colic, making hens lay in winter, increasing the yield of milk five pounds per cow a day, or restoring run-down animals to plumpness and vigor.

When you feed "stock food" to your cow, horse, swine or poultry, you are merely feeding them what you are growing on your own farm. Your animals do need more feed, but something to help their bodies get all the good out of the feed you give them so they can get fat and stay fat all year round; also to prevent disease, cure disease and keep them up to the best possible condition. No "stock food" can do all these things. ROYAL PURPLE STOCK SPECIFIC can and does. It is Not a "Stock Food" But a "Conditioner!"

Largest Winner of any race on Grand Circuit, '08

ROYAL PURPLE STOCK SPECIFIC contains no grain, nor farm products. It increases yield of milk from three to five pounds per day before the Specific has been used two weeks. It makes the milk richer and adds flesh faster than any other preparation known. Young calves fed with ROYAL PURPLE are as large at six weeks old as they would be when fed with ordinary materials at ten weeks.

ROYAL PURPLE STOCK SPECIFIC builds up run-down animals and restores them to plumpness almost magically. Cures bots, colic, worms, skin diseases and debility permanently.

Dan McEwan, the horseman, says: "I have used ROYAL PURPLE STOCK SPECIFIC persistently in the feeding of 'The Bel,' 2024, largest winner of any pacer on Grand Circuit in 1908, and Henry Winters, 2004, brother of 'Allen Winters,' winner of \$20,000 in trotting stakes in 1908. These horses have never been off their feed since I commenced using Royal Purple Specific almost a year ago, and I will always have it in my stables."

Royal Purple STOCK AND POULTRY SPECIFICS

One 50c. package of ROYAL PURPLE STOCK SPECIFIC will last one animal seventy days, which is a little over two-thirds of a cent a day. Most stock foods in fifty cent packages last but fifty days and are given three times a day. ROYAL PURPLE STOCK SPECIFIC is given but once a day, and lasts half again as long. A \$1.50 roll contains four times the amount of the fifty cent package will last 280 days. ROYAL PURPLE will increase the value of your stock 25%. It is an astonishingly quick fattener, stimulating the appetite and the relish for food, assisting nature to digest and turn feed into flesh. As a hog fattener it is unequalled. It will save many times its cost in veterinary bills. ROYAL PURPLE POLTRY SPECIFIC is our other Specific for poultry, not for stock. One 50 cent package will last twenty-five hens 70 days, or a pair costing \$1.50 will last twenty-five hens 280 days, which is four times more material for only three times the cost. It makes a "laying machine" out of your hens summer and winter, prevents food loss, keeps at moulting time, and cures respiratory diseases. Every package of ROYAL PURPLE STOCK SPECIFIC or POULTRY SPECIFIC is guaranteed.

ROYAL PURPLE is one of your animals and any other preparation on another animal in the same condition; after comparing results you will say ROYAL PURPLE has them all beat to death, or else back comes your money. FREE—Ask your merchant or write us for your valuable 32-page booklet on cattle and poultry diseases, containing also good recipes and full particulars about ROYAL PURPLE STOCK and POULTRY SPECIFICS.

If you cannot get Royal Purple Specifics from merchants or agents we will supply you direct, express prepaid, on receipt of \$1.50 a pair for either Poultry or Stock Specifics.

Write home, asking our agent in your town for our price list.

For sale by all up-to-date merchants.
