Why do not some of our young men get together and make an open air skating rink, on the ice just north of the church? By spending a few dollars those who would take hold of the project would realize a profit and would give those who would patronize the rink a good winter's sport. Get to work, boys, and give the people a good time. There is good money in it to any person who would run it in a business-like manner.

CANDY! CANDY! CANDY!

Is a necessary at Christmas as Santa Claus or the Christmas Tree

OUR CANDY is made right here on the premises by skilled candy makers; and by putting unusual effort and expenditure into candy making we have developed here a grade of candy at 40c lb. we believe without a rival in the country.

For example—the chocolate coatings are made from the Maracibo Cocoa Beans. These are the highest priced, and only a limited quantity comes to Canada.

They make a coating of peculiarly smooth and delicious character. So far as we know no other candy in this part of the country is coated with MARACOIBO CHOCOLATE and none thus coated is sold anywhere in Canada for as little as 40c a pound.

Candy in Fancy Boxes

We have some beautiful boxes of fresh wholesome chocolates—Lowney's and Patterson's (private stock) brands noted for their delicious flavor and purity.

Surely at this season of the year you prefer handsome boxes and no prettier line can be found in any town or city.
