Daddy's Bedtime Story—The Invisible Lady

"What does 'invisible' mean, daddy?" asked Jack, who had never heard the word until daddy told him and Evelyn the name of this bedtime story.

"It means unseen," answered daddy. "Anything that is invisible cannot be seen. The lady in this story was a rich and good woman who wanted very much to do good to the poor people in the town in which she lived. But she was also very modest, and she did not want it to be known that she did the good. She wanted to go around and talk to the poor people and find out what they needed, but she did not like her friends to know about it. But that was a hard thing to do, for, of course, when the poor folks received food or clothing or money to pay doctors' bills or money to pay the rent they praised the lady and told every one about it.

"So she did not know what to do. It seemed to her that she must give up her good work and let others do it for her. One day she said to herself, 'Oh, if I could only be invisible while I am going around, then I could leave the good things for the poor folks without their knowing who did it.' She said this to herself, but out loud. Nobody heard it, however, but a fairy who happened to be flying past in the air. She was invisible herself, and it was an easy matter for her to make the lady invisible.

"The next day the fairy called on the lady. 'I hear you wish to make yourself invisible,' said she, 'in order to keep on doing good without being seen.'

"Yes," said the lady, 'but I can't imagine how you know it. I am sure I never spoke to any one about it.'

"Well," said the fairy, 'we fairies know everything. If you really want to become invisible I can tell you how. Always carry with you this package of fern seeds. If you have it about you no person will be able to see you. The fairies can do so, but that need not bother you, for they will never interfere with you.'

"The lady thanked the fairy, took the packet of fern seed and put it into her pocket. 'I think I'll try it now,' she said to the fairy. 'Do so,' said she.

"When the lady went out into the street she was astonished to find that no one noticed her. Folks walked right past her as though they did not see her, and, indeed, they really did not see her. She was able to go into and out of houses without any one noticing her, only, of course, she had to be careful not to touch anybody or anything. And so she could visit the poor and relieve their wants and do as much good as she liked without being seen."

The bride, who was given away by her father, wore a dainty gown of pearl grey tulle. Only the immediate friends of the contracting parties were present at the ceremony and the reception which followed. The Rev. Henry Earle, of Christ church, officiated. Amid showers of rice and confetti, Mr. and Mrs. Jamieson left on the 6 p. m. train for a honeymoon trip to Toronto and other points. The bride's travelling costume was a suit of navy striped broadcloth and a large black hat. The young bridesmaids are popular citizens and the esteem of the bride was shown by a beautiful and useful presents she received. Mr. and Mrs. Jamieson will reside on King-st.

Save up Your Pennies In the Old Tobacco Box

St. Paul, Minn., Nov. 27.—That the United States and the world, in fact, are about to harvest the fruits of extravagance, Jas. J. Hill, the railroad magnate, is absolutely positive.

"It is too late to warn," he said, "the hour is at hand."

He declared it would be futile to discuss the untoward things that confront the American people.

"Why," he continued, "when I told President Taft a few days ago that there would be many thousands of men thrown into idleness next year he was almost incredulous of my sincerity. But I am not making a guess, it will be a fact."

Mr. Hill declared that the American people were too complacent. They spend too freely, and are greatly inclined to take a rosy view of things entirely unwarranted by circumstances.

Battleships not only in this country, but also abroad, are illustrations of the extravagance in which the world has been placed for the last two decades. The money for the construction of these has been withdrawn from commercial circles, and almost as good as squandered, so far as there can be any tangible returns observed.

"We have gone to considerable expense to dig the Panama canal. I presume now we will have to fortify it. It's all very well to make appropriations for such purposes—it's easy to contract debts, but the real difficulty arises when we come to get the money with which to make the payments."

"In four years, from 1892 to 1896, our Federal expenditures were \$1,800,000,000. For a similar period, from 1904 to 1908, we spent about \$8,000,000,000. Yet we pay our taxes, and harp upon the high cost of living, and even in doing this we linger on the brilliant prospects which we think the future holds in store for us."

Disclaiming any intention of posing as a calamity prophet, Mr. Hill insisted, however, that it was not a guess but an absolute certainty as to what awaits the country to-morrow or next year, when business activities become dormant. He pointed out that at present there is very little projected, which means a suspension of activities.

WHAT CURES ECZEMA?
We have had so many inquiries lately regarding Eczema and other skin diseases, that we are glad to make our answer public. After careful investigation we have found that a simple wash of Oil of Wintergreen, as compounded in D. D. D., can be relied upon. We would not make this statement to our patrons, friends and neighbors unless we were sure of it—and although there are many so-called Eczema remedies sold, we ourselves unhesitatingly recommend D. D. D. Prescription.

Because—We know it gives instant relief to that torturing itch.

Because—D. D. D. starts the cure at the foundation of the trouble.

Because—It cleanses, soothes and heals the skin.

Because—It enables Nature to repair the ravages of disease.

Because—The records of ten years of complete cures of thousands of the most serious cases show that D. D. D. is to-day recognized as the absolutely reliable Eczema Cure.

Drop into our store to-day, just to talk over your case with us.

"Fruit-a-tives" Keeps Health Perfect

OTTERVILLE, Ont., July 8th 1920.

"I am a seventy-nine year old man, and a great believer in, and user of, 'Fruit-a-tives'. It is the only medicine I take, and I can truly say that 'Fruit-a-tives' and exercise keep me in my present good health.

Stricture of the bowels, was the complaint I suffered from and I found 'Fruit-a-tives' to do me more good than any other remedy. My doctor advised me to stick to 'Fruit-a-tives' and I have done so with the best results.

I have been in business here for a good many years and have been a resident of Otterville for over fifty years, so that if you think this little reference from me will serve to induce some others to try 'Fruit-a-tives' I hereby authorize its publication.

W. M. PARSONS.

Obstinate Constipation, Paralysis of the Bowels and Stricture of the Bowels can never be cured by common purgatives, salts, senna, 'liver pills' and all which nature provides to move the bowels. They merely irritate the membranes lining the intestines. One may as well try to cure a headache by pounding one's head against a stone wall, as to try to cure Constipation with 'Fruit-a-tives'. 'Fruit-a-tives' is the only true liver stimulant. 'Fruit-a-tives' is fruit juices and nerve tonics, and will always restore the liver to its proper condition and cure the most obstinate cases of Constipation. Price per box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.
