ONTARIO'S HONEY CROP.

(To the Editor of The Daily Warbler)

Dear Mr. Editor—Do you know that the annual honey crop in Ontario is worth one and a half million dollars, and that ten thousand persons from Point Pelee to the Colthart regions, and further north, are engaged in the business of producing it, keeping three hundred thousand hives of bees for the purpose? Even then I venture to say, not one quarter of the nectar secreted by Ontario flowers is ever utilized. And at present, though honey prices are advancing every year, not one tenth of the honey is consumed in Ontario homes that our people are capable of eating.

PRESENTED WITH WATCH

WARDEN T. A. KELLY RECOMMENDED BY COUNCILLORS.

Mr. T. A. Kelly, Warden of the United Counties of Northumberland and Durham, was last week presented with a beautiful solid gold watch by the members of the council at their closing session. Mr. Joseph Hickson, the popular reeve of Manvers, made the presentation on behalf of the members of the council. The watch is beautifully engraved, with an inscription on the inner case and his monogram on the outside. Mr. Kelly was a worthy official, and this token of respect is a slight recognition of his worth and esteem.

CURED OF CONSUMPTION.

Toronto Man Gives Credit to Copeland's Consumption Cure.

As a proof of what Copeland's Cure for Consumption will do for those afflicted with the White Plague, the proprietors take pleasure in publishing the following remarkable letter:

Mr. W. R. Copeland, 511 Pape-ave., Toronto. Dear Sir—After taking ten bottles of your wonderful discovery, Copeland's Cure for Consumption, I believe I am completely cured, and feel better and stronger than I have for years, and am a living witness of what this wonderful medicine can do for the lungs.

My doctor and a consumption specialist of Toronto, Ont., said I had the worst kind of consumption, and that it was impossible for me to recover, saying that I could not live longer than eight or ten days. They gave me up to die, saying there was no use in treating me, as they had done everything they could do. After giving up all hopes of recovery I commenced taking your wonderful discovery, and found it stopped that weakening perspiration almost immediately, and that ten bottles of medicine I could keep nothing on my stomach, and when I had taken two bottles of the medicine I could say heartily: I was up in a few days' time from the day the specialist said I might die any hour. Finding the medicine was helping me, I commenced taking a deservetopical every three hours, and in four weeks' time I was at work.

I honestly believe I would have been in my grave to-day if I had not taken it, and can heartily recommend it to everyone suffering from any kind of lung trouble. I cannot say too much in favor of this medicine, knowing what it has done for me. Wishing you every success, I remain, sincerely yours, (Signed) David Warkock.

A Street Car Conductor, Toronto.

I am receiving testimonials daily from people who after being given up by doctors, and who claim have tried all other medicines, after taking this cure are recovering, and many who claim to be cured. As a cure for consumption, weak lungs, bleeding of the lungs, weak throat, laryngitis, severe or lingering coughs and bronchitis, this remedy is infallible and can be given without fear of disturbing the most sensitive stomach. Our continued experiments with the most advanced cases of consumption have proven without a doubt the marvelous qualities of this preparation. Together with the strong germ destroying properties, its actions are that of a stimulating tonic.

Kindly mention nearest express office when ordering. Price \$1 per bottle, six bottles for \$5.

Sold only by William R. Copeland, 511 Pape-ave., Toronto, Canada.

Boy Scouts Held Concert -Doings at Bobcaygeon

Bobcaygeon, Dec. 15.—The scout concert in aid of the local Boy Scout Association last Friday evening drew a good house in the town hall. The program was carried out entirely by local talent, which as usual received good attention, every one of the actors doing their part to the King's taste. The boy minstrels from Alabama were quite pleasing, and Miss Nichols' Scotch dance received well earned applause. The poetical proposal was quite amusing, and the scout drill showing that they have been taught to march to the bugle was a feature. The concert was pronounced a success, and netted over \$60. On Monday evening Mr. H. G. Hammond, of Toronto, Secretary of the Scouts' Association of Ontario, visited the local association on his tour of inspection. The scouts met the inspector on the evening train and conducted him to the parish hall, where inspection was made. It is reported that he was particularly well pleased with the scouts, and said that while they were the smallest in number, they were the best trained in drill they had yet inspected. He addressed the boys and gave them good encouragement to be truly loyal scouts, and said that at the coronation last summer Canadian scouts held the position of honor. It might be mentioned incidentally that Mr. Scarrett, master of the local organization, received special recognition from his majesty, being presented with a cane as a mark of esteem in having the best trained scouts at the coronation, so that the scouts are evidently in good hands, and more will be heard from them in the future.

The annual oyster supper of the Verulam agricultural society officers and directors and their wives was held at the home of Mr. and Mrs. V. E. Thurston last week, when a very enjoyable evening was spent. These social evenings are altogether the proper thing, and do their share in promoting harmony and united efforts towards the completion of events. The society will be the better for their meeting together, and their efforts for next year's labors met with better success than if they had not met.

CHRISTMAS PLUM PUDDING.

We are indebted to the Ottawa Journal for some information in regard to the plum pudding of old England, especially the plum pudding that is yearly set before the King, that may be of interest to those who are going to make that delectable dainty for part of the family feast on Christmas day. Never having tasted any pudding made from the recipe which, the Journal says, is used in the King's household, we shall not hold ourselves responsible if it turns out a failure. We simply give it without endorsement, trusting that the loyal citizens of Lindsay will accord it a fair trial without visiting upon the Warbler the results. Here is the recipe:

"1 lb. suet, (finely shredded), 1 lb. Demerara sugar, 1 lb. small raisins, 1 lb. plums, (stoned and cut in half), 4 oz. citron (cut into thin slices), teaspoonful of mixed spice, half a grated nutmeg, two teaspoonfuls salt, 1 lb. bread crumbs, 4 lb. sifted flour, 1 lb. of eggs (weighed in their shells), wineglass of brandy. Beat the eggs to a froth and then add to them half a pint of new milk and mix the various ingredients. Let the mixture stand for
