Christmas Trade Slow in West

Money is still tight in the West, although in Lindsay the merchants are not complaining of business on the whole, except that they might do more if the weather was colder. Winter goods would then be in brisk demand, but as it is winter coming late, the old faded overcoat is made to do another season. No doubt there are many families in Lindsay, as elsewhere, who are in cases of the charitable institutions of the town, the churches, etc., should take a hand. Every poor family should be remembered on Christmas Day, and one way is to subscribe to the Warder's Santa Claus Stocking Fund, a fund raised for the purpose of spreading good cheer on Christmas Day in the poor homes of Lindsay. At the present time it is being demonstrated in the Canadian West that good crops do not always mean a prosperous community. The crops help, but apparently the real estate question is playing a very important part in the growth of the West. Everybody to-day is "loaded" with property, the cry of property poor is heard from merchant, farmer and student, a cry which is seldom heard in this part of the country. At the same time, it is well to note that in Toronto and other large Canadian cities there does not appear to be the same amount of Christmas buying, and the waste of spending money.

Absurd and Untruthful Tales About People of Trent Valley

Belleville, Dec. 8.—At this morning's session of Hastings County Council the following resolution was unanimously adopted: "The County Council of Hastings having had its attention drawn to a report purporting to have originated from Dr. Fernow, professor of forestry, Toronto, that extreme poverty and a state of physical and mental degeneracy quite unique is general over a large district in the County of Hastings and other counties and districts, hereby beg to formally express its regret that such absurd and untruthful rumors have received general circulation in the provincial press.

While there are isolated instances in Hastings and in all the counties of the province of poverty and mental weakness, this County Council begs most emphatically to deny that the number of such cases is at all alarming in Hastings County. There are, of course, some deserted farms in a few districts in Hastings County which should never have been opened for settlement, but the great body of the settlers in even the most remote districts of Hastings are in a thrifty and comfortable condition, and quite the equal in mental strength and character to settlers anywhere. Knowing the situation thoroughly, this Council has no hesitation in expressing its faith in the future of the parts of the county dealt with in the article with which we have felt called upon to deal.

Where Rural Mail Is Very Popular

Lindsay drummers who happen to have business connections in Newtonville, have been much interested while driving through Clark township to notice all the rural mail routes. At one spot in particular the rural mail boxes were very much in evidence, namely at a place called Crooked Corners, 2 1/2 miles from Newtonville, where there are no less than 14 boxes lined up like a row of rattling guns along the roadside. The farmers seem to be well pleased with the manner in which the Dominion

Government is handling His Majesty's mails.

LONGBOAT INJURED. London, Dec. 4.—Tom Longboat, the great Indian long distance marathon runner, may never race again. He fell yesterday while in the bush and broke one of the bones in his right leg. Every attention is being given to the injury at his home on the Caledonia Reserve, but the doctors fear the Indian may never come back to form.

it exploded and burnt his face and especially his lips in a terrible manner. Even his throat and tongue were torn and he will be fortunate if he recovers. He went to Toronto Hospital on Saturday morning and at time of writing no word has since been received from him.

The girl who persists in doing more than her share of the courting is apt to break into the spinster class.
