SECTION ONE

## District Dairymen's Convention -Interesting Subjects Discussed-

The annual Eastern Ontario District Dairy meeting for the County of Victoria was held in the town hall Wednesday afternoon, Dec. 17th.

On motion of Mr. Milner, seconded by Mr. Allin, Mr. Henry Glendenning was elected a director of the Dairy-men's Association for Eastern Ontario.

Mr. Glendenning thanked his mover and second for the honor conferred upon him, and trusted that he would at all times be able to lend assistance by his counsel or give his opinion on the best methods to promote the dairy business in Ontario.

The attendance was small, only ten persons being present. The speakers were Mr. Singleton, Mr. Glendenning and Mr. A. A. Knight.

**COMPOSITION OF MILK.**

The first speaker, Mr. Singleton, lectured on the composition of milk and the different values which it possessed in regard to making cheese. Milk contains 87 pounds of water to 100 pounds of milk.

The speaker dwelt with much length and in a very clear manner upon the manufacture of cheese and treatment of milk from the time the milking operation took place. Cleanliness in milking and keeping milk at a temperature of 65 degrees were the important points for success and profit. According to a new law all butter must contain not more than 16 per cent. moisture. A penalty is attached if the water in butter exceeds this per centage. This does not apply to the farm-made product, but dairy butter. Pasteurized milk can be kept for an indefinite time.

The speaker treated on the different organisms which fed upon milk and even a straw or head of clover or any other foreign body had a

beneficial effect on the product and would start a decomposition in a short time. Keep the milk cool and observe cleanliness would be the boiling down of the speaker's remarks. This should be the paramount endeavor of all dealers in milk. Well water has a temperature of about 46 degrees, so it is not essential that ice should be kept by the farmer.

In the speaker's experience on a farm and in caring for milk he had never used ice for cooling purposes.

**MILK PRODUCTION.**

Mr. H. Glendenning, the next speaker, gave a splendid address on the milk production and how to provide food for cattle when pastures were bad.

The speaker, in his remarks, considered alfalfa clover as the dairyman's hope when pastures failed. You cannot produce milk without plenty of nutritious food and good water. Peas and oats cut green makes excellent fodder, but it is a trouble cutting and hauling it to the pasture field and there is also waste. Corn silage is good, but it depends upon the pasture whether it is a timothy or clover pasture you have the cattle upon to bring results. Corn was all very good when cattle were on clover pasture fields and fed corn silage.

The subject was well dealt with, and more farmers should attend such meetings.

**COW TESTING.**

Mr. A. A. Knight spoke on the cow and milk testing value which was full of interest and points that every dairyman should know. The cow that is a small producer should be eliminated from the herd.

The value of the meeting cannot be estimated, as it was very instructive all through.

## Mgr. Casey Invested With Purple Robes -Bishop O'Brien's First Official Visit-

The bells of St. Mary's Church never resounded their duty more proudly than they did last Thursday, when they pealed forth their silver notes on the evening air announcing the coming of His Lordship Bishop O'Brien, I.L.D., of Peterboro, to officiate at the investiture of Venerable Archdeacon Casey, Vicar-General of the diocese, with the Monseigneur robes. The Bishop was accompanied by many clergymen from outside points, and people of all denominations filled the edifice to witness the investiture.

The church was beautifully lighted, and the main altar looked a miniature starry firmament, which was beautified with bouquets of flowers of green and white tastefully arranged upon it.

Mr. Jules Brazil, of St. Michael's Cathedral, Toronto, presided at the organ, and rendered the solo, "Tantum Ergo," in fine voice, while Miss Mary Flurey, the church organist, filled the edifice with the volume of her voice and excellent rendering of the hymn, "O, Salutaris."

**WELCOME THE BISHOP.**

At 8 o'clock Monseigneur Casey, led by two candle bearers and an acolyte bearing a crucifix, followed by the altar boys, marched to the main door to receive His Lordship, Bishop O'Brien, who had arrived, and accompanied by about 15 clergymen.

The procession then returned to the sanctuary, where the investiture was to take place. A short time was spent in prayer by the priests, who then took seats around the altar.

**ADDRESS TO BISHOP.**

Mr. L. V. O'Connor and Senator McHugh advanced to the sanctuary, when Mr. L. V. O'Connor read the following address to His Lordship: Right Reverend M. J. O'Brien, D.D., Bishop of Peterboro:

May it please your Lordship:—Ever since your consecration we have anxiously awaited the occasion of your first official visit to Lindsay, and now one and all join, not only in extending to your Lordship a most whole-hearted welcome, but in assuring you of our loyalty, and our readiness to co-operate with you in all that may tend towards the aims and objects of Holy Mother Church, the salvation of immortal souls.

Some ten months ago a gloom was cast over the diocese as it was learned that our saintly Bishop, the Right Reverend R. A. O'Connor, had been called to his reward. He had been amongst us for so many years, and his work throughout the diocese had been productive of so much, that when the call came, a feeling akin to despair was experienced.

To name a successor to a Bishop so gifted with piety and so capable as an administrator, was no easy task. The appointment of your Lordship, however, caused us no surprise. You have ever endeared yourself with the clergy and the laymen; your capacity as an administrator has been proven at every opportunity; your energy and your zeal in all pertaining to the cause of Christ have been unflinching, and your humility and your piety have been most marked. With these considerations before us, the selection of your Lordship to your high dignity and office followed most naturally.

Whilst it is unnecessary to say that each and everyone of us has the deepest affection for our good pastor, and whilst we feel that he is well worthy of every honor that might be bestowed upon him, we desire to express to your Lordship our most profound appreciation of his appointment as domestic prelate, with the dignified title of "Monseigneur."

That Almighty God may spare your Lordship for many years to continue the work of your holy and illustrious predecessors, is the earnest petition of the parishioners of St. Mary's.

Signed on behalf of the parishioners of St. Mary's Church, this 18th day of December, A.D. 1913.

L. V. O'CONNOR,  
GEO. McHUGH.

This is my first official visit to Lindsay, and I assure you it is a most pleasing one. I appreciate your kind words of the late Bishop O'Connor, and I will endeavor to do the work equal, if possible, to him. It gives me unlimited pleasure to think that I brought from Rome to Lindsay what I did, and do what I am doing for your good pastor. He has been a wonderful man, and with the co-operation of his parishioners he has attained excellent results. He has worked for forty-one years successfully, and Rome in its consideration conferred the honorable distinction and dignity upon him. It is a high honor to the parish to have a Domestic Prelate amongst you. The parish of Lindsay is worthy of any distinction I can confer upon it. In this case it is a personal pleasure the conferring of this dignity, as the parents were married by the Monseigneur. May the good spirit which exists between you always continue, and we have the ideal proof of this and of the love and relationship which is forcibly expressed by you.

You have a splendid church, school, grounds, cemetery, presbytery and academy of learning. The people of this parish were the means of this, through their unity and co-operation, which shows the members were of one mind and one heart, and with one object in view. All parishes should do likewise. Everything the priest does is for the good of his people. We will all pass away, but our good works will alone remain. There should be a great love for those who are workers for God, and the sanctification of souls. Alone we cannot do much; we need assistance. No wonder your beloved pastor is honored, as he assumed the responsibility of the diocese on the death of the late Bishop O'Connor, and I hope he may live long to enjoy the honor of Domestic Prelate; and may you be honored by having him with you, and may he be spared to wear the purple robes with peace, success and happiness for many years.

Monseigneur Casey approached the rails of the sanctuary, when Dr. F. Blanchard read the following address, and Mr. F. Costello, of Ops, presented the Monseigneur with a purse:

**THE ADDRESS.**

To the Right Reverend Monseigneur Casey, Parish Priest of St. Mary's, Lindsay:

Reverend Monseigneur,—The good tidings borne to us, your parishioners and children, of your elevation to the distinguished position of Domestic Prelate to His Holiness, Pope Pius X., and the title of Monseigneur, has been appreciated to such an extent that we desire to show our pleasure by the presentation of an address on this, the first visit of His Lordship Bishop O'Brien to our parish.

The honor conferred previously in the Parish of St. Mary's was to one of sainted memory, the Right Reverend Monseigneur Laurent, who has gone to his reward.

The mantle so fittingly worn by our late pastor now falls on the shoulders of one long in the ministry of the church, devoted in parochial duties and honored by loyal parishioners. We honor this occasion, not only in the knowledge that to you personally has this distinguished mark of appreciation been offered, but that the reflection of this investiture this evening adds to the dignity of the parish and the Town of Lindsay. Thrice blessed were the men of Lindsay. Thrice blessed were the men of the diocese honored by the people and clergy of the diocese, invested by His Lordship, who is fully cognizant of your priestly career, and greatest of all, that it should please His Holiness to confer the title of "Monseigneur" for your long and successful ministry in the church.

Long may you live to faithfully minister to your flock and still add laurels to your robes of office by work in the Master's Vineyard. Long may you live in the hearts and affections of your people, who deeply and sincerely feel a gratitude to His Holiness for conferring such distinction.

Whilst words of this address only partially express the good wishes of the people of the parish of St. Mary's towards you, we have seen having a power boat, and until the fit to make this occasion memorable had formed he could not travel.

by some tangible evidence of our esteem.

We now ask you to accept this purse in the spirit in which it is given, not to measure the full extent of our affection but merely indicative of the hearty response of parishioners to a faithful and devoted pastor.

We pray that you may long be spared to wear with distinction the robes of office bestowed to-day, and also for years to continue as our Spiritual Adviser, a distinguished citizen of the Town of Lindsay, an ornament to our parish and a bulwark of the church.

Signed on behalf of the Parish of St. Mary's, Lindsay December 18th, 1913.

F. BLANCHARD,  
F. COSTELLO.

**MONSEIGNEUR CASEY'S REPLY.**

The Monseigneur, after the reading of the address, said: "This day is one of the greatest joy to me, and my heart overflows with gratitude for the dignity conferred upon me. I thank the Lord for the many graces which he has given me during those long years of my priesthood. It was through His Lordship that I got those robes, and I will fulfil my duties and observe obedience to him during my life. I return him my profound thanks for getting this from His Holiness, who would not know me were it not for him. I have known His Lordship since a boy, and he has always shown marked ability from his school days, when he carried away highest honors from the different seminaries. Through the suggestion of the bishop he was sent to Rome to complete his studies and bring back the teachings of St. Peter. He has also performed marked work in Peterboro, where he established the T.A.S. that is a credit to the people, as it is a model society. He was chosen Bishop through the desire of all the clergy, and his ruling is a good and wise one. He was always my friend, and the day he received his appointment from Rome he came to Lindsay to attend our musical recital in the Academy of St. Joseph. I thank my parishioners for what they have done for me, and this has awakened in my heart a greater love for them. I came here to work and remain with them until I am placed in the cemetery. Words fail to express how I thank you, and I hope we may live long together and enjoy a good life till our Lord calls us to receive our reward. I wish you every happiness, and glory to God on high and peace and good will to all men."

This was followed by benediction.

**VISITING CLERGYMEN.**

Some of the visiting clergy were: Dean Kelly, of Trout Creek; Rev. Fathers F. J. O'Brien, rector of the Sacred Heart parish, Peterboro; V. G. McFadden, of Wooler; J. Guiry, of Kinmount; McGuire, of Downsville; G. Whittles, of Campbellford; Rev. Father P. J. Galvin, B.A., Principal of the Continuation School, Peterboro; Cote, of Bowmanville and Newcastle; M. J. McGuire, of Douro; Mgr. E. H. Murray, of Cobourg; F. K. O'Sullivan, of Port Hope; T. F. Scanlon, of Grafton; F. J. O'Sullivan, of Victoria Road; O'Connell, of Burnley, and Roche, Provincial of the Basilican Order, of Toronto.

Rev. Fr. Ferguson took a prominent part throughout the ceremony and course of investiture.

The ushers were: Messrs. E. McKay, L. Rogers, D. Curtin and J. Cain.

## The Municipal Elections

The usual dilatoriness seems to present itself as to conditions for municipal representatives. There are two candidates for the Mayoralty, a couple for the Reeveship, but the present aldermen are saying very little. Some have not even announced themselves, and it is only a week or two till nomination day. As usual there will probably be a large number of candidates nominated, some of them without having been consulted, and naturally quite a proportion of them will refuse to stand.

Is there as much consideration given to the selection of men to represent us in the town council as there ought to be? A week will be all that is given to learn about the merits or demerits of some who will be nominated, for some will, no doubt, be unknown to a large proportion of the ratepayers.

Too, we have still the handicap of the elections being brought on in the holidays, when private business and holidays festivities engross the attention of almost every one. The municipal elections ought to be got out of the holiday season. In

## Conductor Loses Hand

GRASPED SIDE BAR, WHICH PULLED OUT—LOST HAND.

Belleville, Dec. 18.—Mr. Mason Smith, a G.T.R. freight conductor, of this city, had the misfortune to lose his left hand at the wrist by an accident at Napanee this morning. He attempted to board a moving car by seizing the side bar, which pulled out of the wood and his hand fell on the track; before he could move the wheel had run over it.

He was given treatment at Napanee and later brought to Belleville Hospital. The hand had to be amputated.

W. H. Giddy, a Port Hope cattle buyer, was seriously injured by being gored by an enraged bull in the stock yards.

What some people need is more pure food for reflection. It's a wise old saw that possesses wisdom teeth.

## Bad Fight on the Haliburton Train—Police Court Proceedings

A very interesting case was heard in police court before County Magistrate E. D. Moore Thursday morning. The participants in the proceedings were a number of cattlemen in transit from Toronto to Haliburton, on the G.T.R., and in the course of their trip a fight ensued on the train after Fenelon Falls for the north. The damage to the car was estimated at \$2.65.

It was a little Donnybrook while it lasted, from the evidence adduced.

The cattlemen were represented by lawyers T. H. Stinson, G. Jorhan and I. E. Weldon, while the G.T.R. engaged Mr. G. H. Hopkins, K.C., for the prosecution.

The first witness heard was Mr. George Howhey, who on being sworn said to Mr. Hopkins: "I live in Haliburton, and am a conductor on G.T.R. I was running a train on the 30th of October from Lindsay to Haliburton. I left on 2.40 train for Haliburton. The trouble started after I left Fenelon Falls. Someone told me there was a fight in a rear coach—the combination smoker. When I went back the fight was about over, and the men were holding each other apart to keep peace, or suspend hostilities, as it were. Watson had Hutchins down in the seat. The men were all under the influence of liquor. Watson came at me and pushed me with his hands. I said nothing to Watson previous to this. He called me a vile name and said he would throw me off the train. The brakeman came then to assist me. At this time there was one window broken in the smoker. It was smashed after I left Fenelon Falls. I cannot tell the value of the window. The brakeman took Mr.

Perrin into a separate car. There was a seat broken in a coach and a window broken. The value would be \$2.35 for damages.

To Mr. Jordan: "I saw Watson holding Hutchins. I thought Watson was separating the fighters when I went in. Watson or Perrin did not seem hostile or warlike after the fight." Mr. Jorhan—"You do not know who started the fight or who broke the windows."

Mr. Jordan thought the coaches were on since 1822 or 1830. It's a very old coach, and there has been many a fight on them before.

Continuing his evidence the witness said he did not know who started the row. Never saw the men break the windows or seats. Never saw Brohm do any damage. As far as I

## The Boy who Made a Rich Man

A boy, now a man, and rich, started out by depositing half his earnings with a certain well known Loan Company. As his savings grew he turned them into Debentures. These accumulated savings enabled him to have enough money at an opportune moment to secure an interest in a business, and from that start has become wealthy. His own words are: "What started me, was my savings in that Loan Company."

**Deposit Your Savings**

We pay good interest and compound it twice a year. You can send your savings by Post Office Order, Express Order or Registered Letter, no matter in what part of Canada you live. We allow interest from the day the deposit reaches this office. By those who wish privacy with respect to their finances, our plan is much appreciated. Write for full explanation of our system of Banking by Mail.

# GOLD DUST

It only cleans, but sterilizes

Gold Dust does more than wash the surface—it gets deep after germs and hidden particles of dirt and decay. It purifies and makes everything entirely safe. Neither dirt nor germs can live where Gold Dust has made its appearance.

Gold Dust needs little help from you; it does most of the work alone. It is a vegetable-oil in powdered form, which are added to the water. The Gold Dust for all cleaning purposes. It saves time, saves labor, saves backs, and saves money.
