AFFAIRS IN PARIS.

Unfortunate Paris is in a fearful state and grave fears are entertained that the madness which appears to have seized upon its inhabitants may spread to other parts of France. The Communists, for some time past have held the capital in defiance of the authorities, and terrible scenes have been enacted in the streets of what really seems to be the "doomed city". fighting, with great loss of life, being of almost daily occurrence between the in- over sixty million acres of land to any surgents and the supporters of the Government.
