## WOULD SOLICIT AID FROM TORONTO

Visitors to Sturgeon Point Sunday hear many people expressing their views regarding the recent drowning of a Toronto man, near the shore of Sturgeon Point. Although police officers were given credit for their effort in searching for the body of the drowned man, yet it was thought that a more determined effort should have been made and that aid should have been sought from the Harbor Commission in Toronto. To secure the assistance of the life guards and dragging apparatus from Toronto however, would entail considerable expenditure.

These searching for the body are handicapped by lack of proper apparatus and also because of the fact they do not know where to make the search.

## TAKE SOME OF THE CHANCE OUT OF LIVING

Do you ever buy a sweepstake ticket? You don't always expect to lose, do you? But you know you might. Do you ever take an occasional chance in traffic, either walking or driving? You NEVER expect to lose, do you? But you MIGHT, for you are ELEVEN TIMES as likely to be killed or injured in an automobile accident this year as the holder of a sweepstake ticket is to win even a small prize. You are THIRTY-TWO TIMES as likely to lose your life as a holder of a sweepstake ticket is to win a

## 20 LUNGE IN SIX DAYS NOT BAD RECORD—ORTON 100

BEST FISHING SINCE THEY STARTED COMING HERE—PRESENTERS INDEPENDENT WITH LARGE MUSKIE.

It has been a great fishing season so far this year, and anyone who disagrees with that statement, has just to ask one of the Orton boys, who have been coming here for years and who are famed acrobats, famous for their aerial stunts in Europe as well as in America.

"We are having the best luck this year, that we have had since we started coming down here" said Norman, elder brother of the four Ortons, "we have been out six days and have returned with our limit five times, and believe me that's not a average. That means the boys have been out six days and caught 20 lunge.

The boys don't stay out all day either, they leave in the morning and return to their camp for lunch and do not go out again until evening. It's much to hot to fish on the lake during the afternoon.

We congratulate the boys on their skill and we realize the thrill they receive, when the muskie strikes and the sing of the reel, as he swims away out—farther out he goes, until the lunge is almost spent, then the reeling in, with the fish jumping and swirling in the water.

It's a grand thing and we realize why the boys call Bobcaygeon "home" the grandest place on earth.

## CANOE CAPSIZES IN PIGEON LAKE

BOBCAYGEON SUMMER RESIDENTS HAVE NARROW ESCAPE IN PIGEON LAKE

A tragedy was narrowly averted during the week-end on Pigeon Lake at Bobcaygeon, when a canoe upset, throwing its two occupants into the deep water almost two miles from either shore.

The two young people, a man and woman, were paddling downstream when suddenly the canoe lurched and capsized, throwing the couple clear of the boat. After recovering from their surprise, they regained their paddles and with considerable effort, managed to right the canoe and empty considerable water from it, meanwhile managing to keep afloat for about one hour and a half, when fortunately a power boat came along and rescued the pair and brought them back to the village, towing the canoe behind. Fortunately both are very strong swimmers. Both are popular young folks in the community, being coming to Bobcaygeon for a number of years.
