J. STERLING

Care of Bobcaygeon Independent

### South Verulam

The weather man is certainly favoring us with most beautiful weather. It looks as though we are going to get our sun mer now. Old weather prophets predict a long open fall, but prepare for a long severe winter. Most farmers who sowed fancy peas this year are in luck as the crop was good in most cases and the price was guaranteed when the seed was put out. Squier & Son shipped 1800 bushel from Bobcaygeon last week, and there is a considerable quantity to be shipped yet. About \$25.00 was paid out. One man in Emily Township realized \$115.00 from 3 acres. Squier & Flavelle are a good firm to deal with and their well known agent here expects to put out a large amount this coming winter.

The long evenings are with us again and we are beginning to wonder what amusements can be furnished, for the young folks especially. There should be more amusement in rural districts, and we think this is one reason why so many boys and girls get disgusted with rural life. They say it is all work and no play. There is no reason why any community should not be able to accomplish what is desired if they would only get their heads together. You will hear it said of a certain place or locality, "Oh, it's dead, nothing going on, no pleasure or pastime for any one." But remember a community is exactly what the people make it, let it be good or bad, pleasure or no pleasure. Can we not get up a concert? or say what is the matter with building a skating rink. Then we could have it for debates and amusements of one kind or another. There is nothing better for both old and young than debates. It is a great education. Some one please start the ball rolling.
