

**MAGIC!** a few dollars a month transforms your home

From 6 months to 5 years to pay under the **HOME IMPROVEMENT PLAN**

Here is magic that is open to any home owner: magic that brings comfort and convenience; magic that protects property and adds to its life and value; magic that creates jobs for men who need them. You, too, can put it to work as thousands of other home owners have done. Re-facing and painting; new roof insulation; a modern heating system; a planned kitchen; a fire-place, new plumbing or wiring; an extra room in basement or attic or a heated garage—will fit into your budget with surprising ease. Any contractor, supply firm or architect can help you arrange a Home Improvement Plan loan, or you can apply direct to your banker.

**INSECT DAMAGE**

With a few important exceptions insects have been somewhat less injurious during August than usual. colling moth has been the most destructive pest this year so far and increased greatly during August as a result of the continued warm weather which led to a large second brood. The European corn borer survey which is now under way indicates that the borers are going to be more numerous this year than any time during the last four or five years, the season having been favourable to them in most countries. Cabbage worms have increased greatly in number and

where no spraying or dusting has been carried out they have played havoc with the foliage and heads of cabbage and also cauliflower.

"Ontario on the whole is enjoying an excellent year.
