ond Sunday at

. Verglam. Sunday in the A busy plant—the hum of machinery—the steady movement of parts toward an assembled whole-finally-the manufactured product which brings profit to the manufacturer, salaries to staffs,

payrolls for the workers.

Throughout Ontario this steady hum of industry is increasingpayrolls are being added to—manufacturing costs are steadily rising higher—yet the cost of the driving force of Ontario industry—Hydro power-moves steadily downward.

Have you ever stopped to consider what would happen if Hydro power was suddenly cut off throughout the Province—the loss in money and inconvenience you would suffer? How vital Hydro is to industry?

You should, because Hydro means much to you in personal income. Lowcost power attracts industries, with consequent employment of thousands of workers increasing the individual buying power within the Province, consequently influencing your income regardless of your occupation.

The success of Hydro in the past two years in lowering power costs has been outstanding. Its efforts to increase the prosperity of our Province by lowering power costs still further, and extending the benefits of low-cost electricity to those in cities, and those on farms, to commerce, to industry, to all who may benefit by its use, is something which you, as a partner in this enterprise, may take justifiable pride.

ahead. At least you can try. You can call in a contractor and find out how much the job would cost. You can see your banker and acertain if he will lend the money. Probably you will find him very willing to do so. At least, it won't hurt to try.

And it will help. It will help you, and it will help your community and country to have this necessary work done. You can't make your home safe from fire without also giving your nearby neighbour some protection, Remember, when a fire once starts, nobody can tell you where it will stop.

PARIS FEARS ITALIAN COUP IN MOROCA

Would Checkmate Duce by Widening Nyon Patrol Plan .. London, Oct 14-Great Britain and France tonight discussed a proposal to extend the Nyon 'anti-piracy' patrol in an effort to prevent Italian mil itary forces from occupying the Span-

ish Balearic Island of Minorca. Premier Mussclini who at first rejused to join the hunt for 'pirate' submarines alleged to be from his own navy, will be asked to participate in a joint naval occupation of the fortified loyalist island, it was stated.

It was disclosed to night that Mussolini has not yet actually turned over any of his warships to the anti-piracy patrol, the full responsibility for which still rests with the British and French fleets ..
