

# HYDRO... Driving force of industry

A busy plant—the hum of machinery—the steady movement of parts toward an assembled whole—finally—the manufactured product which brings profit to the manufacturer, salaries to staffs, payrolls for the workers.

Throughout Ontario this steady hum of industry is increasing—payrolls are being added to—manufacturing costs are steadily rising higher—the cost of the driving force of Ontario industry—Hydro power—moves steadily downward.

Have you ever stopped to consider what would happen if Hydro power was suddenly cut off throughout the Province—the loss in money and inconvenience you would suffer? How vital Hydro is to industry?

You should because Hydro means much to you in personal income. Low-cost power attracts industries, with consequent employment of thousands of workers increasing the individual buying power within the Province, consequently influencing your income regardless of your occupation.

The success of Hydro in the past two years in lowering power costs has been outstanding. Its efforts to increase the prosperity of our Province by lowering power costs still further, and extending the benefits of low-cost electricity to those in cities, and those on farms, to commerce, to industry, to all who may benefit by its use, is something which you, as a partner in this enterprise, may take justifiable pride.

### The SNAPSHOT GUILD SERMON TO VACATIONERS

The photographer, fairly close, took care to focus on the child, not on the distant scene. Exposure 1/100 second at f.8 on a fair day.

THIS year when you go on your vacation, resolve to come back with better snapshots than you did a year ago.

Determine to take more care with your lens focusing. Decide that before you take a picture you will give thought to the light conditions; whether the day is hazy, dull or very dull; whether a midday sun is shining from a clear sky or the less intense early morning or late afternoon sun; whether the light is increased by reflections from expanses of water or sand; whether your subject is in average shade or deep shade; whether under any of these conditions you are photographing nearby objects or a distant scene. Say you will consider adjusting your camera to fit them.

Make up your mind that you will think also about the composition of each picture, that it shall have merit because of its pictorial qualities and that in each scene showing human or other beings there shall be story-telling interest.

Declare that you will bring back from this year's vacation no more out-of-focus pictures nor underexposed or overexposed ones, nor pictures blurred by camera movement; no more of those lifeless pictures of

### FUND TRUSTEE SAID TO HAVE LOST \$150,000

Case Cited to legislation Committee Results in bonding Demand

### REQUEST TO PROVINCE

A well known Toronto business man, who had charge of a 150,000 trust fund, had just gone to provincial Government authorities to confess bankruptcy, Ald. William Croft informed the Civic Legislation Committee Friday.

The Government must protect the citizens of the province, he maintained, and immediately pass legislation that would put a stop to such situations.

The Legislation Committee, acting on the Alderman's plan, unanimously recommended that the City Council requests Queens Park City legislation that would assure the compulsory bonding of barristers and other persons having charge of estates or trust funds.

### Claims of Knows of Cases.

This action was taken after the Ward 9 representative warned the Committee that he was able to prove his previous accusations, made before the city Council, that there were numerous Toronto lawyers who had stolen trust funds from their clients.

"I know lawyers personally," Alderman Croft declared, who have stolen money from dozens of people throughout the Province. I can name them, but I'm not going to.

The Alderman made it clear he was not claiming that all lawyers were dishonest, but he said that he did know that lawyers accepted the responsibility of caring for peoples' cash and that this money had on many occasions, disappeared.

There was no disgrace in being bonded he maintained, and many honest men should be glad to see the Ontario Government pass such bonding legislation as was advocated by the Civic Legislation Committee.

### STORING POTATOES

For best results with stored potatoes, keep the bin temperature between 35 and 40 degrees. During the first eight or ten days of storage, however, allow a fairly high temperature, from 65 to 70 degrees, to hasten the formation of wound cork, which is important in healing bruised and cut potatoes and preventing rot. To reduce shrinkage, keep the bin fairly moist. Store only fully matured and sound potatoes. Be sure there is adequate ventilation. A slatted floor is used for this purpose.

## FARMER FACES ARSON TRIAL

William Hanrahan of Douro Township is Committed For Trial

Peterborough, Nov. 17—William Hanrahan, 50-year old Douro Township farmer charged with arson, was committed for trial this afternoon at the sittings of the County Court following a preliminary hearing before Magistrate O. A. Langley, K. C.

Following a fire on his premises on Oct. 25th, when the barns and house burned, fire inspectors conducted an investigation and later Hanrahan was arrested.

Witnesses heard previously testified as to the extent of the damage and showed that while the house and barn had been destroyed a frame garage standing between the two was still standing. A confession was also produced purportedly signed by the accused stating just how the fire started.

Mrs. Pearl Ford of Lindsay, Secretary of the Farmers' Union Mutual Fire Insurance Co, the first witness today produced two application forms and copies of the two policies issued on the property. Under cross examination by T. J. Carley, defense lawyer, she admitted that she had not seen the document signed and that to her own knowledge there had been no claim made in respect to the fire.

When the Crown called David Sylvester, Provincial Police Officer, Mr. Carley offered strenuous objections to his testimony as he had been left in court while all other witnesses had been excluded. His evidence was taken under protest.

### CORPORATIONS MAY GET VOTE

The Civic Legislation Committee agreed yesterday that all Toronto corporations should be allowed to cast a vote for major Board of Control and Aldermen in future municipal elections.

Under the present law the Corporations were allowed only to appoint nominees to vote on money bylaws and the committee felt that this privilege should be extended to include balloting for municipal candidates.

It was unanimously decided, on motion of Aldermen Frank Johnston, to recommend to the City Council that legislation be sought from the Ontario Government to enable each corporation in the city to appoint a nominee to cast one ballot for the said corporators.

Before reaching this decision, however the committee voted down an amendment advanced by Alderman William Croft, who maintained that all Toronto companies with capitalization of more than 40,000, should be voters.

Aldermen Nathan Philips, committee Chairman, immediately warned his colleagues that, if the amendment were carried and the legislation secured, it would mean that any small company could appoint sixty directors and thus slip sixty votes into the ballot box.

The Committee without further discussion, then unanimously approved the original Johnston motion and sent out to council a recommendation calling for one municipal vote for each corporation.

### JOSEPH KELLY IS ARRESTED

Kingston, Nov. 19 Joseph Kelly of Verona, a former county constable of Frontenac County, believed to have been murdered over a year ago, was arrested this afternoon by the Royal Canadian Mounted Police in Montreal on a warrant issued by the Ontario Provincial Police. Kelly will face charges of desertion when he returns to the city on Saturday.

Kelly who was believed to have been dead, disappeared from his home in July of 1936, leaving a wife and eight children two months previously early in May, his house was dynamited.

Possessing information leading them to believe Kelly was still living Provincial Constable Joseph Nelson of Kingston and T. J. Rigney, Frontenac County Crown Attorney, refused to believe he was dead. The Mounted

Police who were notified succeeded in locating the missing constable this afternoon in Montreal.

The dynamiting of the Kelly home which wrecked the veranda and front of the house causing no personal injury to any member of the Kelly family, it was learned Challes of Belrock a neighbouring village was charged with the offence, but was acquitted of the charge by a jury in June of 1936.

A month later Constable Kelly disappeared. A body which was plowed up in a field several miles south of Entersprise last June, and thought to be the body of Kelly, had been buried for more than fifty years the Coroner learned.

### DELAYS FINDING IN SCHOOL ROW

Windsor, Nov. 19—Court of Revision reserved judgment late today in Windsor Board of Education appeal against the division of \$1,000,000 in school assessments of the Ford Motor Company of Canada Limited, Windsor. Late today the court heard argument by Norman L. Spencer, Board of Education counsel, and John Alesworth counsel for the motor company. Spencer contended 1,000,000 assessment credited to the separate schools should go to the public schools.

Board of Education's contention is that the Ford Motor Company should not be exempted from support of public schools to the extent of the 1,000,000 assessment which is credited to Separate schools which represents 18 per cent of the total Ford assessment.

Previous to the Ford appeal, counsel for Board of Education and the separate School Board announced twenty-two appeals, involving another 1,000,000 in school assessments. Had been settled by the settlement separate school board agreed to the transfer of approximately \$45,000 in assessment to the public schools, retaining approximately \$550,000.

### JAPAN'S SPIES ARE IN CANADA

Archdeacon Scott Says Naval Officers Disguised In British Columbia Toronto, Nov. 17—Archdeacon F. G. Scott, Canadian wartime padre, said in an interview he was "informed on good authority" that Japanese naval officers in disguise are in so-called Japanese fishing villages in British Columbia.

Archdeacon Scott said he favoured immigration of people from the United States with democratic ideals "in order to protect the North America bloc."

grandizement of Japan threaten Canada and the United States on their western shores," he said. "There now are 40,000 Japanese in Vancouver alone and Japan knows every inch of our western coast, besides owing enormous timber limits in those regions.

"Japan also has large vessels engaged in the salmon industry there. They may belong to the class of mystery ships which England used in the war."

The noted Quebec soldier-preacher said Canada is actually defenceless. "The politicians are throwing dust in our eyes by declaring that before Canada enters another war a special parliament will be summoned and the people will decide whether this country will remain neutral," he asserted.

Every British nation would be a target for the enemy should England become involved in war "and Germany wouldn't wait for Mr. Jones from Halifax and Mr. Smith from Vancouver to arrive at Ottawa for a session of parliament before sending over bombing airplanes."

He added "Such airplanes, flying the route north of Labrador where there are no anti-air defences, could swoop down on Canadian cities and harbours in four days."

### Tell Your Friends

that we have the very newest and best instruments and office for Eye Examination and that we guarantee complete satisfaction in comfort, style and price. They will thank you. We thank you.

### Experience Counts

For your benefit and protection we offer you years of experience in guarding Human Sight and a real eye examination of the nerves and muscles.

We offer you the newest lenses and in tinted Soft-Lite shade to reduce glare, fitted in the best mountings made.

Prices are very moderate and may be paid in installments if desired.
