### A Problem of National Importance

Dear Friend :-A bright young lawyer at the Muskoka Sanatorium for Consumptives some weeks ago, speaking of the burden placed upon him by having consumption, said: "One has to lead a life of concealment. If I go away from this place

people are afraid of me.' This is the sad lot of those who suffer from this dread disease. On behalf of the thousands who are sick and will not be received by other hospitals, I make this appeal for the Muskoka Free Hospital for

Nearly 10,000 people from every part of Canada aided in this good work last year, sending us \$26,000.

The Trustees have faith that a still larger number will help. The Physician's offices, throat rooms, etc., up to the present have occupied rooms in the hospital that rightly belong to patients. To make better provision for the work, and furnish more accommo-

dation, a new administration building is now under way. A cottage for the Physician and his young wife had also to be built. To provide for this outlay, and to care for patients for the coming

year, we must secure at least \$50,000. The Muskoka Free Hospital for Consumptives never refused a patient because of his or her inability to pay. It cares for those whom other hospitals refuse. It cares for those whom other people are

"I was sick and ye visited me," was Christ's commendation. Should not a richer benediction be yours if from a loving heart your dollar makes a golden visit to this hospital, bringing health and joy to those whom other people fear, and whom, in many cases, nobody wants. Will you have the luxury of giving?

Toronto, 1907.

**PEER\*** IS GOOD FOR MOST FOLKS (HARDLY ANOTHER BEVERAGE FEEDS SO WELL)

EER really excels milk as a food-drink for most grown people. And many, many people cannot digest milk easily, because it is so lacking in solid food-contents.

Moreover, milk is so liable to contagion that it is seldom pure when we get it in the cities. But Ontariobrewed beer is really pure,-brewed in cleanliness, of sound materials, in a sanitary way, and brought to the user in the same fit-to-drink state.

### Beer Is No Stimulant

Drink beer with meals and at bedtime, as an item of diet that will help the stomach do its work better, and will feed the body besides. Don't choose beer as a stimulant, though,-it does not contain enough alcohol for that. Use it as a food-drink that induces lazy stomachs to do their work well, and so helps them get more good out of all food.

## Beer Makes Better Nerves

Ontario beer is not only deliciously appetising and refreshing, because brewed of pure malt and hops only; but, besides, all the power that hops possess to repair nerve wastes is kept in these brews. That is what makes beer so particularly good for women to drink regularly. Ask your own doctor what he thinks of beer for your household.

\* BEER is a term which covers lager, ales, porter and stout; and, in the practise brewers, implies beverages made under most bygienic conditions from Ontario barley the world) malt, hope and pure water.
