LINDSAY, FRIDAY, JAN. 31, 1896

THE ESTIMATES DOW.

Appropriations Amounting to Over \$41,000,000

FOR PUBLIC WORKS AND BUILDINGS

Toronto, Collingwood, Owen Sound and Other Places Will Have Shares-Prof. Robertson Sells P. E. Island Cheese-Proceedings in the Monke of Commons.

Ottawa, Jan. 27.-The estimates for the next fiscal year were presented to Parliament to-night. The total amount to be appropriated is \$11,400,923. The chief increases are in militia, \$372,715, and postoffice, \$240,780. The aggregate increases on account of consolidated fund total \$1,316,584, but they are offset by decreases of \$1,617,006 in redemption of debt. The net decrease for the Year is \$1.0,241.

The appropriations for Ontario publie works are as follows: River Kaministiqua \$10,000. Dominion Reformatory \$30.060.

Dominion public buildings-renewals, improvements, repairs, etc., \$15,000. Picton postoffice, custom house, etc., Collingwood, repairs to breakwater,

\$2850; general repairs and improvements to harbor, river and bridge Kingston harbor, Lake Ontario,

Lake Simcoe and Couchiching, regulation of waters, \$5500. Owen Sound harbor, dredging, etc.,

Toronto harbor, works at eastern entrance, etc., \$50,000. The militia are to be drilled the usual 12 days, the estimate including increase of \$366,500 for this purpose, and \$34,666 for clothing and necessaries. The appropriation says all the city

corps, and all the rural corps are to be Mounted police appropriation is increased \$30,000. The city of Toronto gets \$10,000 in aid of the meeting of the British Sci-

ence Association in Toronto next year. The postoffice estimates are increased by \$240,780, of which \$211,000 is for mail service, presumably the increase which the Canadian Pacific is asking for. The total vote for immigration is \$120,000, the same as this year. Pension to Judge Fourner, late judge of the Supreme Court, \$1666. Twenty-five hundred dollors is to be

voted for experimental fruit stations \$1500 for Dominion crop reports; \$1500 for experiments on fall wheat growing. Twenty thousand dollars is to be spent in construction of lighthouses. It is said a little difficulty has arisen in the Cabinet as to the scope of the Remedial bill. According to rumor, some ministers do not want those Catholic schools that have come under the public school law of 1890 restored to separate school privileges, thus restricting remedial legislation to Winnipeg, St. Boniface and three or four other districts. The French members do not agree to this, but the difference will be left in abeyance till the return of Sir Charles Tupper. This may furnish an excuse for getting rid of remedial measures this session.

On Saturday Dairy Commissioner Robertson disposed of last season's output of cheese made in Prince Edward Island. The purchasers were Hedgson Bros. of Montreal, the total quantity being 23,000 boxes. The prices realized were good and it is expected that the result will be to give the farmers of Prince Edward Island a profit of \$20,000 on their season's work. In disposing of the cheese, Prof. Robertson stipulated that half the profit obtained in the English market shall

go to the P.E:I. farmers. HOUSE OF COMMONS.

Reciprocity in Agricultural Implements

Inder Lively Discussion. In the House of Commons, Mr. Mc-Mullen introduced a bill to amend the Customs Tariff Bill, providing for the free admission of corn, whether for human or animal food. Mr. Costigan informed Mr. Lange-

lier that the Arctic exploring steamer Alert had been sold to J. B. Lantenum for \$4155. The proceeds from the same had been transmitted to the Admiralty, from which body the vessel originally came.

Mr. Costigan, answering Mr. Flint, said the Government of Newfoundland had settled the claim for the refund of license moneys collected from Canadian fishermen in 1890-92. The amount, \$3970, would be paid over to the claimants as soon as certain legal questions were settled.

Dr. Montague informed Mr. Grieve that in 1890 the quantity of cheese exported from Canada was 114,981,584 pounds, an increase of 51,000,000 pounds in ten years. Of butter the product in 1890 amounted to 116,145,165 pounds, an

increase or 5,000,000 pounds. Mr. Grieve asked if the Government intended to lay on the table copies of correspondence, etc., that had passed between Sir Mackenzie Bowell and the seven dissident Ministers respecting their resignations from the Cabinet. Mr. Foster replied that the Government will bring down such correspon-

Mr. Foster, replying to Mr. Davis said the Controller of Inland Revenue is a member of the Cabinet. His position is the same as any other Privy Councillor who is a member of the Cabinet.

dence as is usual on such occasions.

Mr. Casey moved for papers which had passed between the Government and Sir Charles Tupper, Bart., concerning his present visit to Canada. He said the country was curious to know for what object Sir Charles had visited the Dominion the last month. It was well known, of course, that when he arrived here, he joined the mutineers. (Laughter.) Mr. Martin moved for papers relat-

ing to the Territorial Exhibition at Regina last summer, and all papers showing the connection of Lt.-Governor Mackintosh therewith. He read a number of extracts from Territorial newspapers to show the alleged unpopularity of the Lieut.-Governor and condemned the manner in which he had mismanaged the affairs of the exhibition.

Dr. Montague said the Government assumed no responsibility whatever for the exhibition. All that they had done was to vote \$25,000 towards assisting the enterprise There was no objection whatever in placing before the House whatever vouchers had been received for the expenditure of the Dominion grant.

Sir James Grant eulogized the exhibition as calculated to show the werid the spiendin researces of the Northwest, and commended Governor Mackintosh's management of it. After observations from Mr. Mills (Bothwell), and Mr. Martin, Mr. Davin

said the exhibition was an undoubted

success and a fine advertisement for the Territories, but that it.-Governor

Mackintosh had exhibited foolish care-

lessness in connection with it. The motion for papers passed Mr. McMillan (Huron) moved a resolution that Canada should take advantage of the United States' ofin plows, fer of reciprocity harrows, threshers, mowers and other agricultural implements. said there would be little loss of revenue if such change was made in the tariff because Canada imported but few of the implements on the list, and that, if the Government claim was true, that Canada could manufacture implements as cheaply as any other country in the world, there could be.

Mr. Wallace pointed out that the proposed rectarocity would be of no benefit to Canadian manufacturers, or even to Canadian farmres, except in the Northwest. Canadian manufacturers could not compete in the United States, because the Americans would protect themselves by getting injunctions, etc., on a claim of infringement of the patent laws. As a matter of fact, in Ontario and the older Canad'an provinces agricultural machinery was cheaper than in the United States. If American manufacturers got the Canadian market they would reduce prices very much for one season, and thus kill Canadian manufacturers. Then, having the market to themselves, they would raise prices higher than ever before. He said the wholesale price of a binder in the United States was \$100. The Canadian raw material, having \$13 protection. Mr. McMullen said McCormick Bros., of Chicago, offered binders at

The ex-Controller said that might be the price of a binder when sold for home consumption in the United States

Mr. McMullen said if the American manufacturer slaughtered machinery in Canada, the Canadian manufacturer could save himself by buying up machines at these reduced prices and re-exporting them. Mr. Ives: What would become of Canadian factories and employes while

manufacturers were thus engaged in dealing in foreign machinery? Dr. Sproule said tht farmers in his section made a great deal by furnishing wood for the manufacture of Canadian machines, which trade would

be lost if reciprocity were brought about and Canadian factories thus crushed out of existence. After observations from Mr. Mc-

Millan (Huron), Mr. Daly pointed out that the Northwest farmer, by reciprocity, would be placed at the mercy of American manufacturers. The N.P. kept them out; but if Canadian competitors were killed. American combines would fix prices to suit themselves. He quoted figures to show that the farmer in the Northwest got agricultural implements as cheaply as the farmer in Dakota. The debate was continued after re-

cess by Mr. Stairs, who contended that the power of production of both the United States and Canada exceeded the demand. Estimating this at 10 per cent., the United States would have a surplus greater than the whole consumption in Canada, and in this way would wipe out Canadian manufacturers. Reciprocity would at least mean the removal of Canadian manufacturers to the United States. They ge most of their raw material there, and if they intended competing in the United States they would have to pay freight on raw material and then freight on the finished article back to the United States. If the Canadian market were to be as free to them. if located in the United States as in Canda, naturally they would manufacture where they would not have to pay double freight rates. He contended that the N.P. should, however, stand or fall as a complete policy. No single class should be picked out to suffer reductions. The object of the N.P. was to protect all. If the farmer was not protected enough he should be given more protection on the lines of the N.P., not at the expense of any

The resolution was lost on a division. Mr. Casey moved for a return of all papers concerning the appointment of the High Commissioiner. He attacked the Government for continuing Sir Charles Tupper. Bart., in the office of High Commissioner at London while Secretary of State. He said it was ridiculous to have Sir Charles Tupper, Commissioner, reporting to Sir Charles Tupper, Secretary of State. During the debate Mr. Lister referred to the Cape Breton campaign, and also gloried over the Charlevoix elec-

Sir A.Caron declared that Charlevoix was only carried by the Liberal candidate pledging himself to vote against Mr. Laurier's proposed commission re the school question, and to support the Government's policy in that re-

Mr. Tarte declared this was not so, and chaffed the Government re the "pastoral circular" that was wired on Saturday by the Bishop of Chicoutimi. The people of Charleviox were asked, he said, to support something they had not seen, and he was proud that they refused to do so. He said the Opposition had to fight against the same ill-advised influence in Vercheres, but won. Surely, he said, the Government should have been able to carry on the election without the interference of the Bishop of Chicoutimi. He asked the leader of the House if it was true that the Government had submitted the proposed Remedial Bill to the Bishops of Quebec:

Mr. Foster shook his head. Mr .Tarte reiterated that the Liberal candidate had not pledged himself to the Government's policy, and Sir Adolphe Caron repeated the charge. Mr. Tarte asked Sir Adolphe to produce the telegrams, which he said had been sent declaring the Liberal candipolicy, and Sir Adolphe Caron, in turn challenged Mr. Tarte to produce any communication between him and the bishops. Neither did so, and the resolution was finally carried.

A LIGHT KEEPER'S STORY.

BIS WIFE WAS A FEARFUL SUFFERER FROM RHEU-MATISM.

Her Joints Were Swollen and Distorted Her Nights Almost Sleepless and Her Appetite Gore-Suffered for Several Years Before Relief was Found. From the Kingston News,

Mr. Hugh McLaren, lighthouse keeper on Wolfe Island, is one of the best known men in this section, and to his viligance in the performance of his duties is due the safety of the many craft sailing in that part of the St. Lawrence. Mrs. McLaren, his wife, has been an invalid for a number of years, and in conversation with a reporter recently Mr. Mc-Laren stated that she was rapidly regaining her old-time health under the treatment of that most marvellous of modern medicines-Dr. Williams' Pink Pills. Asked if he had any objections to giving the particulars, Mr. McLaren replied that emphatically he had not if such publication was likely to benefit any other sufferer. He said : "A number of years ago my wife contracted rheumatism, and

for a considerable time was a helpless invalid. Her joints were swollen and distorted; her nights were sleepless and her appetite poor and very fickle. During those years she experienced excruciating tortures, the pain never ceasing day or no harm done to Canadian manufacnight. She had the benefit of skilled medical advice but the treatment afforded no relief, and we began to fear that her trouble had gone beyond human aid. On a number of occasions I had read in the papers of cases of rheumatism being cured by the use of Dr. Williams' Pink Pills, and this at last determined us to give them a trial. She had used some three boxes before any improvement was noticed: and then we began to note that she slept better and that her appetite was improved. Then the pains gradually began to subside, and after using about a dezen boxes she was able to get up and walk about. She continued the use of the manufacturer paid about \$7 duty on pills for a while longer, and although occasionally she feels twinges of the trouble in changeable weather, she now enjoys better health than she has done for years, and she can sleep as soundly export to Canada, but the price for as ever she did in her life, while her appetite never was better. I look upon

Dr. Williams' Pink Pills as a wonderful medicine, for I know they have done wonders in my wife's case, and I feel certain that if any who are afflicted as she was will give them a good trial, equally happy results will follow, and I therefore give this testimony freely, hoping that it will benefit some other sufferer."

Mr. McLaren's strong testimony proves the claim made that Dr. Williams' Pink Pills cure when other medicines fail, and that they deserve to rank as the greatest discovery of modern medical science. The public should always be on their guard against imitations and substitutes, which some unscrupulous dealers for the sake of extra profit, urge upon purchasers. There is no other remedy "just the same as" or "just as good" as Dr-Williams' Pink Pills and the genuine always have the full trade mark, "Dr. Williams' Pink Pills for Pale People" on the wrapper of every box.

Sollleguy. To advertise or not to advertise-That is the question, Whether 'tis nobler in a business man to

The loss and slowness of unbought bar-Or, by advertising, sell them. There's the nightmare of neglected opportunity-

Of space unoccupied in the daily press-That might enrich the merchant's pocket By emptying his plethoric shelves— All these, and other things to prize, Should lead the wise to advertise.

Fakirs and Farmers.

A paragraph is going the rounds of the

daily press, published in every paper as

being original, advising farmers who are giving promiseory notes to parties whom they suspect of being swindlers, to make the note payable to the party who gets it, and to no other person. There is to be no bearer or order about it. What nonsense Is any man fool enough to give his note to party whom he suspects of swindling?

t so, so he ought to be made pay it twice over. If local editors had any sense they recommend people to nothing to do with strangers, wheather they suspect them or not. Almost every time a farmer gives his note to a stranger he gets swindled, and such notes are usually given for something a farmer does not want any more than he wants a fur coat for July weather. Nobody should be talked into dealing with slick-tongued people who drop in for no other purpose than to do them up. Then there will be no swindling notes to pay. THE Post has taken a great deal of trouble for the past ten years to expose all fakes that come along, but it serves very little purpose, for when people see with their own eyes that a man is a fakir they still feel unable to resist his talk, thinking they

can do the sharper at his own game.

They Lack All Good and Essential Qualities.

Ladies, beware of the many crude imitations of Diamond Dyes that are sold in some places. These imitation dyes lack all the essential qualities that are required to produce good and parmanent colors. If you would dye with ease, pleasure and satisfaction, use only the old reliable date would support the Government's Diamond Dyes, noted for strength, brightness and never-fading qualities. Diamond Dyes will cost you just the same price as the common dyes; every package is fully warranted to do the work promised.

CHARLEVOIX ALSO Turns Round and Elects a Liberal by a substantiat Majority-The Returns.

Bale St. Paul, Que., Jan. 27.-The bye-election for Charlevoix to-day resulted in the return of Mr. Angers, the Liberal candidate, by a majority of 151 over Mr. Cimon, Conservative. The vacancy was due to the death of Mr. Simard, Conservative, who carried Bood election by 357 majority. The returns giving the majority at the different sub-divisions are:

Angers.Cimon. Petit Riviere, St. Francols.... Baie St. Paul.. St. Joseph St. Urbain St. Hilarion Eboulements.. St. Irene.... Pcint Au Pic.... Cap a L'Aigle.. Murray Bay St. Simeon... Isle Aux Coudres

Totals.... 314 Majority for Angers 151, with one ph ce (St. Agnes, where there is no telegraph office,) to hear from, which will not change the result.

THE BISHOP'S LETTER.

No Boubt the Intention Was Good, But the Effort Failed.

Ottawa, Jan. 27.-The Charlevoix election to-day was in one respect the most important of any of the bye-elections, because the Roman Catholic Bishop undertook, with the aid of his priests, to dragoon the electors into voting, not on political lines, but for the candidate who would pledge himself to vote for a bill to be first submitted to the hierarchy and approved by them. The letter which His Lordship Bishop Labrequé sent by wire to all the priests was as follows: "Chicoutimi, Jan. 24, 1896 .- You will read to-morrow to your parishioners, but without making any comment, the following communication: Dear Brethren,-We do not wish to interfere in politics, and we do not side with one party or the other, but there is a very important religious question to be settled, viz., the Manitoba school question. We hold that it is a serious matter of conscience for the electors to give their votes to a candidate who will not pledge himself in the most positive manner to vote during the present sesion for a remedial bill, which would be acceptable to the eclesiastical authority. Please note, I again repeat it, that this is a serious matter of conscience for the electors. (Signed) M. F. L. Bishop of Chicou-

RUSSO-TURKISH ALLIANCE.

Rome Correspondent Reaffirms the

Former Reports. London, Jan. 27 .- The correspondent of The Pall Mall Gazette in Rome reaffirms the stence of an offensive and defensive alliance between Russia and Turkey. The correspondent further says that the Government's sudden summoning to Rome, a few days ago, of Count Nigra, Italian Ambassador to Austria, was for the purpose of consulting with him in regard to the serious effect which such an alliance must have upon the Triple Alliance.

WEST WELLINGTON.

Mr. James Tucker, the Patron Candidate. Captures the Seat From Which Mr.

George Tucker Was Ousted. Guelph, Jan. 25 .- The bye-election in West Wellington for the Ontario Legislature, made necessary by the unseating of Mr. George Tucker, Patron, took place yesterday and resulted in the election of Mr. James Tucker, the Patron candidate, over Mr. Patterson, Liberal. The result is a surprise to the Liberals, who carried on a vigorous campaign and had the assistance of Hon. G. W. Ross, and other Ontario Government leaders. There is one subdivision yet to hear from in Maryborough and one in Peel, which cannot overcome the majority of 226 reperted for Mr. Tucker up to the pre-

sent. The majorities so far reported Patterson, Tucker. Arthur 35 Clifford 45 Palmerston Drayton Harriston 61 Minto Maryborough Péel

The majority for Mr. George Tucker in the election of June 26, 1894, was 272. Action was taken in the courts to unseat him for briebry and intimidation, Mr. Tucker in the meantime occupying the seat for last session. Finally the decision went against him. The Patron convention then put Mr. James Tucker up, and, the Conservatives being withdrawn their candidate, the battle between Liberal and Patron was fought over again.

THE HYAMS TWINS.

Harry Placed in the Box as a Witness in the Conspiracy Charge. Toronto, Jan. 28.

The four forgery charges against H. P. and D. T. Hyams were adjourned for a week, when the twins appeared in the Police Court dock yesterday morning.

The conspiracy to murder charge

against Dallas Hyams was continued and Harry was again put into the witness box. The witness was very reluctant to give evidence, and very little of importance was gleaned from his testimony. He deposed that in July. 1894, he was resident in Montreal, but could not say just when he went there. He would not swear that he had seen his brother at all during 1894, and had communication with him only with regard to commissions. They had no communication about insurance. The witness seemed to have a very bad memory regarding insurance pollcles and applications, so Mr. Curry suspended his examination until Mrs.

Martha Wells Hyams' evidence could be taken. "I want to examine Mrs. Hyams at 151 Close-avenue after the court adjourns," said Mr. Curry, and the court assented. The object of examining Mrs. Hyams is in connection with the Montreal tele-

grams, the admission of which Mr. Johnston objected to. At 12 o'clock Magistrate Denison, Dallas Hyams, in charge of Detective Cuddy; Crown Attorney Curry, Messrs. Johnston and Horn, counsel for the prisoners, and Stenographer Perry went to 151 Close-avenue, the residence of Brother-in-law E. W. H. Ayles-worth, where Mrs. Harry Hyams is

At the door of the house the party were met by Mr. Aylesworth's sister, who said Mrs. Hyams was ill in bed, and could not be seen without a doctor's certificate. The party then left the

MANGLED BY MACHINERY.

A Young Man at Iroquels Has an Arm and | All Sorts and Conditions Leg Broken. Iroquois Que...Jan. 25 .- This evening Russell L. Beach, a young man of 18, son of M.F. Beach, was in the basement of his father's mill, when his clothes were caught by a revolving shaft. He was carried round until every shred he had on but a pair of pants were torn off. This relieved him and he was still able to get to the first floor of the mill and call for help. One leg and one arm were broken, and he was otherwise severely injured.

Hood's Sarsaparilla

The Only

The Atlantic Weekly Assails Sir Charles Tupper.

AN ABLEIBUT UNSCRUPULOUS MAI

Canada's Need for Honest Men in Political Life-Allegations of Corruption and Utter Lack of Sound Principles Aminst the Secretary

of State. Halifax, N.S., Jan. 27 .- The Atlantic Weekly, a Conservative newspaper, published in Dartmouth, the home of Mr. Stairs, M.P., has a lengthy article on the political situation. It says that during the past six years we have had some of the most revolting political atrocities which ever blackened the fair fame of any country, and that, too, in a country where there is no excuse for impure politics. There never has been a time when honest men were more needed than now. The Tory party has again brought to the front one of the ablest men Canada ever produced. Sir Charles Tupper, Bart., is a man of indomitable will, able and unscrupulous. He can without doubt do much to carry the Tory banner onward to victory ; but is he worthy of it ? No man in public life in Canada has so often been called upon to defend himself from the attacks of his enemies or to answer to his friends. To-day the attack against him is entirely on the lines of his corruptness and utter lack of sound principles. Is the Conservative party so lacking in honest men or men of ability that it cannot present a Cabinet of upright men, worthy of the honor and confidence of a great people ? We think not. The series of disreputable and blackgfluardly squabbles which have disgrace dihis country during the past few days ought to bring the blush of shame to the face of every honest elector. It is full time the Carons, Haggarts, Montagues and men of such ilk were relegated to obscurity. They should never have been in a Cabinet, and, having once resigned, they should never have been taken back. To place Sir Charles Tupper at the head of the Canadian Parliament with such men supporting him would be

believe the Canadian people will ever commit it. From one end of the land to the other there is a protest loud and deep. Even party papers, usually so quick to applaud party leaders, seem to falter. They do well to falter, for if the party goes forward so led they go to certain failure. It is well known that Sir Mackenzie Bowell has teen most shamefully and dishonestly treated; that he has been made the victim of a foul plot, and the men who tried to ruin him are now endeavoring to climb to power over his head. The fight between the factions is bitter, and unless some new combination is formed, leaving out men whose names are a reproach, Conservatives cannot hope for success in the

just after the return of Dr. Weldon M.P., and that the editor of the paper is a close friend of Dr. Weldon's, adds additional interest to it.

Japan Proposes to Reach Out. St. Petersburg, Jan. 27.-A despatch to The Novoe Vremya from Vladivostock, says the Japanese Government wishes to assert its hegemony over the western half of the Pacific Ocean, and also that it has decided to retain Corea within the sphere of its influ-

coming fight, and do not deserve it."
