WEATHER -The weather has acted very erratic this fall and winter so far. A few days ago the roads were frozen as hard as a bone, and we were waiting anxiously for a few inches of snow, all that was wanted to make good sleighing, but instead of snow we have got several inches of mud and the roads are almost as bad as they were in the fall.

Elections.-Municipal elections are attracting more than ordinary interest owing to the change in the make up of our county councillors; the law doing away with reeves as county councillors is far from being favorably received. In this section of country we would much prefer paying the extra members and have each municipality represented at the county council board. Exposure to Disease

Does not necessarily mean the contraction of disease provided the system is in a vigorous condition, with the blood pure and all the organs in a healthy action. When in such a condition contagion is readily resisted and the disease germs can find no lodgment. Hood's Sarsaparilla is the best medicine to build up the system because it makes pure, rich blood, and pure blood is the basis of good health. In cold weather it is especially necessary to keep up the health tone because the body is subject to greater exposure and more liable to disease. Hood's Sarsaparilla is the safeguard of health.

OF THE BOYS.

Men can take care of themselves The boy is the father of the man, and has a good deal more of the man in him than most people give him credit for. Almost any boy can be made vicious by telling him he is the worst boy in town. Put the ordinary boy in a stylish, well made suit of clothes and make him think he amounts to something and he'll rise to the occasion and show the man in him. Put him in a shoddy suit that will rip and ravel and he'll be just about the style of chap to go well

Y. P. S C. E. Notes -What about the work of the scolety for 1897. Shall it not be a greater success for 1897 than it was in 1896? How shall this be accomplished?

-The Christmastide is over, and after the season of holiday it is time to resume the routine of work again. There are the regular duties of life to take up once more, and we as Endeavorers should perform them for the highest parpose—the pur-pose of benefitting the world about us. This is Christ's ideal of service to God. See the last verses of Matthew, 25th

Many of our readers can truthfully confess that the year just gone by was to them a period of pain, suffering, anxiety, disappointment and wretchedness. Some were laid on beds of sickness, weak and helpless; others, ailing and almost broken down, were just able to move about to imperfectly attend to daily duty and work-The sick and ailing ones met with many fallures and disappointments in their mismanagement and neglect were not well founded. Mr. Warren, the postmaster, was too ill to attend or to give evidence at his bouse in his own behalf.
