HE WAS PAINFULLY INJURED. Cut His Foot While Overseeing the Storing of Ice

Mr. Tom Hartley, manager of Dundas & Flavelle Bros.' cold storage warehouse, met with a very painful mishap recently During the past two weeks the men have been busy storing some 900 tons of ice in the freezing chamber, and while Mr. Hartley was of the layers of blocks the tool struck a shovel in the hands of another workman and descended upon Mr. Hartley's right foot, cutting a deep gash about 2 1-2 inches long in the instep. The wound was dressed by Dr. White, and required three or four stitches. Mr. Hartley is now realizing the truth of the old adage that misfortune never comes singly, as since the accident he has contracted la grippe, and he looks forward to spending a couple of very unpleasant weeks.

Teachers-Three Pair Stones Match-Scores for the MacGachen Trophies. Mr. James Keith, the old reliable skip

of the Club, had a picnic last Friday and his vice-skip, Mr. Boxall, was never more proud of his curling judgment than at present. He is out with challenge to any other rink in the Club to get an eight end on Mr. D. McGribben. In four ends he scored 8, 5, 4, 4, or 21 points, but of course the feat was in getting an eight end. There have been several seven ends scored in the new rink, but this is the first time any rink with only four men have scorusing an adze to smooth off the tops | ed an eight end. Our readers will remember that last year, in the final game with Dundas, McLennan scored a seven end and was within a few inches of making eight. It goes without saying that Mr. Keith's rink won ; score, J. Keith 26, D. McGribben 8. Other games last night-M. W. Kennedy 17, T. McConnell 7; Dr. Simpson 15, J. G. Edwards 8; T. McConnell 7, J. McAdams 15.

These are busy days at the rink the four sheets are occupied every evening and nearly every afternoon, and large numbers of curlers are on hand to watch the games. On Friday there was an unusually large crowd on hand, as fully one-half of the Collegiate students came down to see the game between the Students and the Teachers. The Students made the rink ring with the Collegiate yell, L. C. I., L. C. I. Lindsay L. C. I., L. C. I., L-I-N-D-S-A-Y Lindsay-Rah! Rah! Rah! On 10count of the late arrival of three of the Staff rink, the number of ends was fixed at ten instead of fourteen. The playing on both sides was good; what little luck there was, went against the boys, and the score scarcely fairly represents the play. The boys are ing the balance of the season these against each other. Score:

THE PANGS OF SCIATICA

Mrs. Palmer, of Fenelon Falls. Confined to Her Bed for Weeks-Her Limb Became so Numb That a Red Hot Iron Could be Placed Upon it With out Her Knowledge.

Only those who have felt the agonizing pains of sciatica can form any conception of the torture which the victim undergoes. The case of Mrs. Job Palmer, of Fenelon Falls, was one of unusual obstinacy and severity, and she makes the following affidavit in reference to her cure, for the good of humanity. "I am 29 years of age and I had always enjoyed the best of

health until November, 1897, when took a stinging pain in my right hip which seemed to be in my very marrow, as it affected every muscle and joint. I kept up for several weeks, although suffering the most intense pain, freely using liniments and many other in-R ternal and external preparations that sympathizing friends would suggest. I was then compelled to stay in bed; as I got so weak and run down that I could sit up no longer. I received several courses of medical treatment, such as electric batteries, poulticing etc., but got no ease from the excruciating pains which would shoot down through my leg into my very heel where it caused a bursting feeling. The limb at last became so numb that a hot iron could be placed upon it without my having any knowledge of it. The closing or opening of a door or anyone entering or moving about in my room, seemed to increase the pain. my room, seemed to increase the pain. For weeks I could not move any part of my body and had to lie in one posi-Lion all the time. My brother was cured of rheumatism after other remedies had failed, by taking Dr. Williams' Pink Pills, so I thought as a last resort I would try them. As the directions said that in severe cases dose, I took this number three times a day for about a week when I began to get the relief I had prayed for. Them I kept on taking the pills two at a dose. In another week I was able to get out of bed and dress myself and a few weeks later when I had gained strength enough, I was able to attend to all my household duties and I have ever since enjoyed the best of health. Friends and neighbors who were conversant with my case can also tell you of my terrible suffering and the remarkable cure
