A good name is more potent than thrones and kingdoms. In business a good name is vital. The name of Priestley is a synonym for what is delicate, durable and beautiful in Black Dress Goods. In England it is a house-

hold word. Priestley's dress fabrics are worn by the well dressed women of Great Britain, while on this side, they have attained to general favor. Ladies should buy no other black dress goods till they have seen Priestley's. They add to an unequalled durability, a beautiful draping quality. Women of taste understand what that means in the success of a costume.
