The Big Storm.

All day last Friday snow fell without any intermission, and the snowfalls were again badly blocked. The Cobocook train did not reach the end of the line until 3 a.m., but made the down trip in good time, and the Hamilton train was but a half-hour late. On the main line the service was in bad shape. The freight traffic has been almost at a standstill for some days owing to the fact that the engines and crews are needed for the snowplows. The country roads are in a frightful state. The stage to Boboyegon missed one trip each way this week—the first time since a thing has happened for many years. To-day the driver said he hoped to be able to push through, but expected the trip would take about eight hours instead of three. A party of commercial travellers, including Mr. T. H. Hamilton, of Peterboro, attempted to drive over to Boboyegon from Fenelon Falls, a distance of twelve miles. After getting over one-fourth of the distance, shelter had to be applied for at a farm house, where the party remained until morning, when they drove back into Fenelon. Boboyegon was isolated for several days, and could not be reached either from Fenelon Falls or Lindsay.

Miss Diggle rendered a piano solo, and Master E. Brown a clarinet solo, which were very highly appreciated. The attendance was fair considering the cold weather.

—The strains of the past week rendered necessary the postponement of the annual effort for the removal of the debt on the Victoria Road church. Rev. J. W. Totten was to have conducted the service on Sabbath and assist on Monday. Instead, Rev. J. W. Shire preaching as was expected. Rev. J. —The modistes has her domain but Priestley's black dress fabrics have made the modiste's work a pleasure. They drape so gracefully, fit so easily, they wear so well. All the modistes of Lindsay are using Priestley's record. This is the newest black dress fabric about which the ladies are full of praise. It comes in black only, and it is decorated with a delicate floral glow, a greater width and weight than the Henriettes. The "Eudora" is now the fashion favorite. "Washed" and "dressed" and the name, Priestley, on every five yards.

—The many handsome caps worn by Lindsay curriers in foreign matches are now a very popular article. The caps are made and sold by Messrs. D. S. & F. Flavelle Bros. new store, and make a brave showing. There can be seen the Montreal cup, won in 1883; the Lindsay cup, won in 1884; the Ontario cup, won in 1885; the Kingston cup, won in 1886; the Peterboro cup, won in 1887; the Cobocook cup, won in 1888; the Kingston cup, won in 1889; the Peterboro cup, won in 1890; the Cobocook cup, won in 1891; the Kingston cup, won in 1892; the Peterboro cup, won in 1893; the Cobocook cup, won in 1894; the Kingston cup, won in 1895; the Peterboro cup, won in 1896; the Cobocook cup, won in 1897; the Kingston cup, won in 1898; the Peterboro cup, won in 1899; the Cobocook cup, won in 1900.

—The bachelors of Peterboro gave a ball last Thursday night to which a number of Lindsay people were invited, but owing to the storm they were unable to attend. It was a very successful evening, and the arrangements were perfect. The supper, which was most recherche, was supplied by Mr. Harry Webb, of Toronto. It was served at a table in the dining room, and consisted of oyster patties, turkey aspic, galantine of boned turkey, champagne, port wine and macaroni of equal delicacy. The refreshments were lobster salads, charlotte russe, fancy mixed oakes, claret cup and lemonade. Ice cream and lemonade were served at a refreshment table during the evening. The tables in the dining room were arranged for groups of four, six and eight, and were prettily decorated with flowering plants and smilies.

—The most interesting newspaper we have seen since we handled a copy of the Pekin (China) Gazette, is the Prospector, published at Peterboro, Ontario, by the river, Yale Co., B.C. The centre of a rich gold mining district. While possessing many curious features, the Fort Steele mine, which is the subject of the article, is a road with ease, as the articles and advice are typewritten, no enterprising newspaper man having yet struck the diggings of a hand of gold. The Prospector is a sheet of the unique publication is taken up with a map showing the location of the various mining claims on Finlay and Wild Horn creeks. The former was discovered in 1883 by a half-breed prospector who gave the creek his name; he took out \$1,000 in a short time. Next spring when he returned to the district, he discovered the mine, and he took out \$1,000 in a short time. —Mr. Harold Richardson, of the Dominion bank staff, promised some days ago to referee the hockey match between the Kingston and Peterboro teams. The match was to have taken place on Tuesday night, but the Kingston train became stalled in a drift, and the Limestone City players did not reach Peterboro till a late hour yesterday morning. About noon Mr. Richardson was notified to be on hand at 8 p.m., and as there was no certainty that the train would leave here on time he decided to cover the 30 miles between here and Peterboro with a team and light outfit. He took a man from the Limestone City to help him tunnel the snowdrifts. They found the roads in a frightful state, and at times it seemed impossible to proceed further, but they were helped by the assistance of men and horses being brought up to help them. Mr. Richardson returned by train this morning, leaving the team at Sibley's house to await the opening of the roads. It is a curious coincidence that a team from the latter city is also a driver in Lindsay waiting a chance to travel to Peterboro. Mr. Richardson has been brought here by Mr. Ted Cavanagh.

One bottle cured my daughter within four days, and I take much pleasure in giving my recommendation. Sold by A. Highbottom."

—Some time ago the wife of Mr. John Reid, of Galway, lost her reason, and about a week ago she was taken to the Peterboro asylum, the necessary papers being made out by Magistrate E. Train. Kinmount, in the absence of Reeve Mansfield, who is on a visit to Peterboro, should have been taken to Peterboro, Galway being a portion of that county. Mr. Reid was in town last Saturday and was informed of the death of his wife. He was enough to look the view that he was not to blame.

—At the meeting of the provincial board of health Dr. Cassidy presented a report on the constitution of the Ontario Board of Health, and suggested that physicians prescribing the drug known as "Eucalyptol" should use a peculiarly shaped bottle, which are manufactured for the purpose, and can be readily obtained. The custom among druggists of using a common bottle for limited quantities to any persons who apply for it was strongly denounced, and in view of the dangerous nature of the drug, it was recommended that the Ontario Board of Health should pass a law to prevent the indiscriminate disposal of it.

—The Peterboro Examiner, in its comments on the recent Peterboro-Kingston hockey match, says that the referee, Mr. R. F. Ross, was most impartial, although there were times when the visitors should have been held down even more closely to the rules than they were. The conclusion of the match, when the visitors took exception to some of the rulings on offense play, Mr. Richardson made the referee's decision, which was in favor of the visitors, late in the evening. Mr. Richardson was late in arriving, and his debut on the ice was rather amusing. He was greeted with a cheer, but almost immediately he was down on the ice, and sat down amidst shouts of laughter.

—The Kingston News makes at least a dozen accusations of unfairness in consequence of the recent defeat of the Victoria hockey team by the Peterboro team. It says the game was played on a small box of a rink, and the match was like trying to play hockey on a billiard table. The referee, Mr. R. F. Ross, was also severely criticized, and accused of throwing up his hat whenever Peterboro made a decent shot—under the circumstances, it is not surprising that the referee was late in arriving, and his debut on the ice was rather amusing. He was greeted with a cheer, but almost immediately he was down on the ice, and sat down amidst shouts of laughter.
