UNDER OATH. The following testimony of Mrs. Margaret Patterson, given under oath before W. F. Walker, Notary Public, makes the medicinal cure in the history of such medicine.

"For six or seven years I was afflicted with rheumatism and severe neuralgia in the head. As times I suffered much pain from violent headaches, and in order to stop same, and upon the advice of a physician, I had a number of my teeth extracted, without deriving any advantage.

"In May, 1894, I had a paralytic stroke in the left side of my body; this was followed by the total loss of sight of the left eye, heaving of both ears, violent headaches, severe fits, and great weakness. I became almost totally unable to do any work about the house, and was not able to get about on account of my distressing and general weakness.

"I consulted four different physicians, who attended me, and they told me that they would do what they could, but that I would never become well again.

"About two months ago I began using the medicine being put up by Mr. S. S. Hycokman, M.P., of this city, and now know the worth of the Cure, and am now taking the fourth bottle of such medicine.

"Before I finished the first bottle I noticed a great improvement in my condition. I have now recovered the use of my eyesight, the use of my hearing, and the use of my limbs. My body, the headache has completely disappeared, and I feel almost as well as I did before I was afflicted with my disease. I feel almost as well as I did before I was afflicted with my disease. I feel almost as well as I did before I was afflicted with my disease.

We've got it near to a Science now--- That's True.

Years ago a store-keeper did not have to hustle much to gain trade--lack of competition gave him a cinch that enabled him to do a large volume of business without worry. Conditions are considerably altered now-a-days--completion is keen to a degree and one's business demands unremitting care and attention.
