

Arch. Campbell.

Dodd's Medicine Co.
THE ONLY HOPE!
For Victims of Bright's Disease is Dodd's Kidney Pills.

Not a day passes on which the newspapers do not record the death of one or more persons from Bright's disease. Already its victims number hundreds of thousands. Day after day the awful total grows larger. No class is safe from this destroyer. War and intemperance, with all their miseries and fatalities, are not responsible for as many deaths as have been caused by Bright's Disease. Yet, there is a way of resisting it, of drawing its poisoned fangs, and making it as harmless as a summer breeze. That great medicine, Dodd's Kidney Pills, has cured thousands of the worst cases. It never fails to cure, hopeless as the case may seem. Would you safely shield your loved ones from the fatal grip of this curse mankind—Bright's Disease? Then buy Dodd's Kidney Pills, the only cure on earth for this disease.

Does Not Propose to Have Any Canoeists Earn a Living in the Great Lakes Region.

Washington, Feb. 8.—Representative Pillsbury of Michigan, whose amendment to the bill for the amendment to the act relating to the navigation of the Great Lakes, passed by the House on Monday, is reported to be returning to his home this night. He is reported to be in possession of a large cargo of goods, which he is reported to be offering for sale at a low price. The amendment in question provides that no person shall be employed on public works on the Great Lakes, unless he is a citizen of the United States.

WORSE THAN THE FAMINE OF 1891.
Fearful Distress Among the Russian Peasantry.
FEEDING CATTLE ON THATCHES.

Affairs in the East—Japanese Fleet to Cruise in Chinese Waters—The Loan May Yet Be Abandoned—Another Denial of the Back-down Story—Cable News.

London, Feb. 5.—The St. Petersburg correspondent of the Times says: "A fallure in the harvest has caused terrible distress among the peasantry of the interior of Russia, especially in Central and Southeastern Russia. In some places they are worse off than during the famine of 1891. The Russian editors have been bidden to refer to the matter. Private letters from Tambov, in the province of that name, southeast of Moscow, say the peasants are feeding their half-starved cattle with the thatches of their roofs. Typhus and other diseases are making rapid headway among them."

JAPANESE FLEET.
A Cruise in Chinese Waters in Contemplation.

Yokohama, Feb. 5.—The Japanese fleet is manoeuvring prior to a cruise in Chinese waters. The press is silent on the situation in China, and it is believed the Premier, the Marquis Ito, is awaiting the settlement of the German claims before committing Japan to any policy. The Russian squadron is without smokeless coal, and the supply here is small.

THE LOAN MAY BE ABANDONED.
London, Feb. 5.—The Times on Tuesday published a despatch from St. Petersburg saying there was reason to believe that if the Russo-German loan to China had not yet been accomplished it was on the point of being settled, an almost certain indication of the fact being that the Minister of Finance had ordered the suspension of all sales of stock on the market. The same correspondent telegraphed yesterday that he was still unable to confirm the reports that the loan had been concluded, but that rumors to that effect continue to be circulated.

Mr. Foster's Speech.
Mr. Foster, who on rising, was received with faint Conservative cheers, at the outset laid down the principle that the leader of a party should keep his pledges to the electorate. He then proceeded to criticize the Premier's speech, which ended in a splutter of fireworks. Mr. Foster then proceeded to criticize the speech. Dealing with the claims of national prosperity, he said that the essentials was political stability. Fourteen years ago Mr. Fielding started a proposition to take Nova Scotia and the other Maritime Provinces out of Confederation. The good sense of those people was against such a move, and they would have none of it. If Fielding had had his way, this Confederation today would have been a memory. Mr. Foster carried him back to the agitation headed by Mr. Wiman, and supported by Sir Wilfrid Laurier, Sir Louis Davis and Sir Richard Cartwright. He said that the withdrawal of public life, on the ground that it was endangering British connection. If that agitation had been successful, which was the stable importance and good credit of Canada, of which Ministers boasted to-day? When the National Policy, which had done so much to advance the country, was inaugurated how bitterly it was opposed by the Liberals? They could claim credit for good accomplished by that policy, and yet last year they stood at the head of a party which had accepted that policy. (Hear, hear.)

Bye-Election in Durham.
London, Feb. 5.—The election in the Southeast Division of Durham to fill the Parliamentary vacancy caused by the death of Major-General Sir H. M. Havelock-Allan, Liberal Unionist, resulted as follows: Joseph Richardson, Liberal, 6,286; Hon. F. W. Lampton, Liberal-Unionist, 6,011; Liberal majority, 275. At the last election the Liberal-Unionist candidate had a majority of 114 votes.

Prince George of Crete.
Berlin, Feb. 5.—The Constantinople correspondent of the Frankfort Zeitung telegraphs that Russia, France and Great Britain have agreed to insist on the candidature of Prince George of Greece for the throne of Crete, and are ready to enforce it should the Sultan prove obdurate.

Spanish Steamer to Be Armed.
Barcelona, Feb. 5.—The Prefect has stopped the departure from this port of a Spanish steamer, Ciudad de Cadiz, and has returned the fares of passengers booked to sail on board of her. The Ciudad de Cadiz will be armed and used as a cruiser to escort the Spanish torpedo flotilla to Cuba.

FORECAST OF THE QUEEN'S SPEECH.
References to Foreign Affairs, India, and Especially the United States.

London, Feb. 8.—The following is a forecast of the speech from the throne, to be read at the opening of Parliament to-day:

Referring to China, the Queen will speak favorably of the Pacific relations between the powers, and will then point out the satisfaction experienced at the conclusion of the treaty of peace between Greece and Turkey.

Dealing with India, complimentary allusions will be made to the valor and loyalty of the British Indian troops.

There will be a lengthy reference to the West Indies and the Government's intentions as outlined by the Secretary of State for the Colonies, Mr. Joseph Chamberlain, and the speech will then express the hope that the international sugar conference will have satisfactory results.

The first place in the estimates is devoted to the army needs, and the chief bills promised by the Local Government for Ireland and the London Municipalities will, providing, as announced by the Marquis of Salisbury, for the modification of the London County Council in the direction of decentralization.

The Daily News says that the settlement of the claims by the Behring Sea arbitration Commission will give opportunity for a cordial reference to the United States, whose sympathetic action on the Chinese question has testified to a better feeling between Great Britain and America than existed at the opening of the last session of Parliament.

The speech is expected to be long, but rather more remarkable for its omissions than its contents. It is quite evident that no settlement has yet been arrived at respecting China, which will admit of more than a bare mention. The same applies to the West African difficulty with France and the troublesome Cretan negotiations, which are again in a state of collapse. The public is anxious to learn what the Premier has to say on these points, but it is not likely to be gratified to any extent. It is understood, however, that there will be a long reference to the West Indies and the sugar commission.

Mr. Kevill says:
Your Compound Banned all my Aches and Pains.

DO NOT CASE TOO COMPLICATED FOR THE GREAT MEDICINE.

Wells & Richardson Co.,
Dear Sirs—For the past fifteen years I have been troubled with diseased kidneys. I am engaged in the manufacture of cheese, and am obliged to work more or less in a stooping posture. At times I found it almost impossible to work owing to severe pains across my kidneys. Often, when working in a stooping position for some time, I would find it very difficult to straighten up at once, and it would only do so after repeated efforts. In late years, while laboring under these severe attacks, I became very nervous, and continually had tired, faint, and out feelings were banished. I needed to do me no good, and I always was tired in the morning. I was getting worse all the time. I decided to give Paine's Compound a trial. I procured a bottle and took it according to directions. I found its effects wonderful. Before I had used the first bottle I began to improve; after I had the second bottle I felt as well as I did in my life. It had banished all aches and pains, my nervousness was all gone, and the tired and out feelings. My rest at night was good, and I sleep well, and in the morning rested and refreshed. I have recommended Paine's Compound to my friends who were suffering from the same trouble as I had, and they have been greatly benefited. I can truly say that I can confidently recommend it to any person suffering from kidney disease.

Yours truly,
C. F. Kevill, Dundas, Ont.

THE DEBATE ON THE ADDRESS.
Hon. George E. Foster Speaks on Its Issues.
REPLY OF SIR R. CARTWRIGHT.

An Effective Defence of the Government—The Yukon Railway Policy—Comment is Reserved Until the Production of Papers—An Economical Policy—The House.

Ottawa, Feb. 8.—The speech that Hon. Mr. Foster delivered yesterday in continuation of the debate on the address occupied almost four hours of the time of the House and ran the whole gamut of Dominion issues, some of which are of the most burning questions of the day. His reference to the Yukon Railway contract was so brief and general as to give but a faint idea of his views upon this most burning question, and in the absence of the papers he may be pardoned if he but alluded to the matter and qualified his utterances by the statement that the information to be brought down might cause him to change his views. On the face of it, he condemned the scheme, but he reserved the right to revise his opinion.

Shortly after the House opened Mr. Davin asked for information regarding the destitute condition of the Galicians at Yorkton.

Mr. Sifton said the Immigration Commissioner at Winnipeg was investigating.

Sir Charles Tupper asked if the Government would lay the Mackenzie-Mann contract on the table to-morrow, and with the other estimates as to the amount of gold taken out of the Canadian Yukon; what proportion was taken out by Canadians and what proportion by foreigners.

Sir Wilfrid Laurier said the information would be forthcoming as far as possible.

Mr. Sifton informed Mr. Foster that the question of the English soldiers without arms being permitted to pass through Canadian territory was the subject of communication between the two Governments.

The Railway Bargain.
Turning to the Yukon Railway question, Sir Richard said that it could not be admitted that the Government had agreed to a treaty with the Yukon Railway Company, and that the Government was in the process of negotiating a bill in the form of a bill. He was prepared to admit that he would, like his colleagues, be glad to see the Government do what it would in the usual way, by securing tenders, etc. But anyone who had paid the slightest attention to the position of affairs of the Yukon Railway Company would be struck by the fact that the Government was in the process of negotiating a bill in the form of a bill. He was prepared to admit that he would, like his colleagues, be glad to see the Government do what it would in the usual way, by securing tenders, etc. But anyone who had paid the slightest attention to the position of affairs of the Yukon Railway Company would be struck by the fact that the Government was in the process of negotiating a bill in the form of a bill.

THE HEATHEN CHINEE'S DILEMMA.
Between Russia and England He May Yet Have to Ask Japan for Favors.

London, Feb. 8.—The Pekin correspondent of the Times, telegraphing yesterday, says: "The Russian proposal to build a railway from the coast of Manchuria to the interior of the province of Shantung, and on this principle the Government proposed to act. 'We will not surrender the rights of our territory, including the town of Kiao-Chow, beyond the area leased. China still maintains that the murder of the German sailor was justifiable homicide and due the sailor's own fault. The unsatisfactory and evasive nature of the Imperial edict authorized Sir Richard to meet the instalment due next May. The method proposed increases the growing distrust in the Government.
