LINDSAY, FRIDAY, FEB. 17, 1899.

An Early Append

Oh, gentle spring, you blessed thing, you're not so far away; Come in, we beg of you, on time don't dally and delay. We've had our share of freezing and of being knocked about, And winter never takes a hint

stays till he's put out! You bring the violet and the bloomthe tiny, tender bud-The "lifting of the spirit" and thrilling of the blood. So we forgive your winds of March, that rollick near and far;

We overlook your poet and your dead-You'll send a joy thro' many a heart -surcease from many a pain-If you will make an early call and bring your verdant train!

Small Cause for Complaint.

In speaking at the recent banquet in Waterloo to Hon. Sidney Fisher, the Minister of the Interior took occasion to refer to the charges of corruption which have been so persistently and recklessly made against Yukon officials. He said that, after all that had appeared in the opposition papers, no single specific charge against any Yukon official had ever been laid before him, as a responsible minister. No complaint was ever made, either, to Major Waish. Mr. Ogilvie wrote that he had investigated and found nothing wrong. One or two officials were removed, but this was because they were not administering their office satisfactoruy, and that was a thing that might happen anywhere. The net resuit of the first year was that the receipts were \$1,053,150 and the expenditure on police, charity and everything else was \$647,000, leaving a balance of \$400,000 to the good. The figures for the present year were not in, but would be found equally satisfactory, and this was accompaished in the teeth of the bitterest opposition of the conservatives. Sir Charles Tupper cabled him the other day for authority to tell the people of England that the royalty of ten per cent would be abolished or substantially reduced, but he replied that neither would be done. Two unarmed mining inspectors collected \$420,000 royalty, although the conservatives predicted that an armed force could not collect from the wild miners. He believed the royality next year would amount to \$800,000, and ridiculed the complaint of Sir Charles Tupper that the royalty would kill the indus-

A Strong Editorial Group.

The Presbyterian Review does not lose in vigor and ability with its growing age. The oldest Presbyterian Journal in Upper Canada, it maintains its lead in enterprise and usefulness to the church it so well serves. Its announcement for 1899 just issued gives some idea of what it has in store for its readers. The method adopted is radical departure from that followed by its contemporaries. In addition to regular staif the services of distinguished writers in Canada, the United States, Great Britain and even South Africa, have been secured, sa that not only various phases of thought but many centres of Presbyterian activity will be represented in its columns. Among the names on the list of special contributors are those of Revs. Dr. Robertson, Winnipeg; Dr. A. B. McKay, Montreal; Principal Mc Vicar, Montreal; W. D. Armstrong Ph.D., Ottawa; Donald Tait, M. A. Quebec; Dr. John Crombie, Smith Faus; W. Garden, Blaikie, D.D., LL.D. Edinburgh; Dr. Cuyler, Dr. J. R. Miller, Dr. George Dana Boardman Dr. Newman Hall, Count A. Bernstori Berlin; F. B. Meyer, Andrew Murray Capetown. Such an array of name and it by no means exhausts the long list, shows that during this year the Presbyterian Review will lack neithe ability nor variety; and when it added that the editorial columns wi be as heretozore under the abie man agement of the Rev. Prof. Scrimger, D.D., Montreal, and Asxander Fraser, M.A., Toronto, it goes without saying that a cordial welcome will be extended to the paper everywhere.

Newspapers and, Magazines. -It is always with pleasure we draw attention to the Canadian Home Journal, published every month in the interests of Canadian Homes and Women, because we believe Canadians should support such publications printed and published in Canada, in preference to those published in other countries. The February issue is well up to the standard of the marked improvement so apparent in this paper the last few months. Send ten cents for sample copy to the Canadian Home Journal Office at Toronto, or order off your news agent, and you will learn how you can secure this paper free for

-Writing about boys in the February Canadian Magazine, the editor says "Above all things, a boy must be taught mainly through the sports in which the youth are trained either by intelligent masters at the great boarding schools, or under the immediate supervision of sympathetic parents. In America it is not taught to as great an extent in our public schools because the children's play is under a much looser supervision, hence it must be taught more at home. "What does manliness mean? It means dignity which makes the young man respect his own rights and those of others. It includes a moderation in speech, a temperance in action, a magnanimity in conduct towards others; a garment which envelopes and surrounds the man, so that he may always be distinguished from the cad, the sneak, the drone, the criminal. It is the concentrated essence of all virtues without a trace of impurity. It is the halo which makes the man

898 Public Accounts and 1899 Estimates Brought Down.

THE BUDGET SPEECH TO-DAY.

Retrenchment in the Various Departments of the Public Service-Many Bills Introduced-Substantial Reduction in the Receipts From Crown Lands Owing to the

Embargo on Pine Logs. Toronto, Feb 9 .- At yesterday afternoon's session of the Legislature the Attorney-General announced that he had a message from His Honor the Lieutenant-Governor, signed by His Honor's own hand, and the House immediately rose to its feet to receive the message. The Speaker, on behalf of the Legislature, having received the donument, intimated that His Honor had forwarded the estimates for 1899. The Provincial Secretary also laid upon the table the public accounts for 1898, and in answer to Col. Matheson Hon. Mr. Harcourt stated that he intended bringing down his annual budget this afterneon.

Bills Introduced. Mr. Hoyle, seconded by Mr. Barr-To introduce an amendment to the Election

Mr. Barr, seconded by Mr. Brower-Amendment to Registry Act; second reading on Monday.

Mr. Stratton, seconded by Mr. Dryden -An amendment to the Municipal Act. Mr. Davis gave notice of the budget. Mr. Hardy, seconded by Mr. Ross-That the Speaker issue a new warrant for the south riding of Perth.

The Budget. Mr. Matheson asked when the budget would be brought down; the answer was

Mr. Barr asked the Government for certain returns promised regarding the appointment of the Division Court clerk at Shelburne, and regarding binder twine at the Central Prison.

Mr. Stratton will introduce a bill to define the legal status and definition of a junk shop. The act gives cities the power to license second-hand shops, and power will be asked to revoke, if necessary, the licenses of junk shops in all towns and cities.

Annual Inspections. Hon. Mr. Davis moved the first reading of a bill to amend the Asylums and Prisons Inspection Act. At present the act provides that an inspector must visit these institutions twice a year and at any other time when it is necessary. As there are 193 institutions, it means at least 384 inspections, thus it is an absolute impossibility for one inspector to attend to the work. The remedy provided by the bill is to make an annual inspection except in special cases. The bill was read

ASSEMBLY NOTES.

February instant. In connection with the recent trouble over the West Zorra audit, Barrister A. S. Ball of Woodstock, solicitor for the Township of West Zorra, waited on Hon. Mr. Harcourt yesterday. The settlement, if any, has not yet been reported.

A deputation from the County Frontenac waited upon the Attorney-General and urged the appointment of Thomas Dawson, farmer, Wolfe's Island, as sheriff, to succeed the late Sheriff Ferguson. The Liberal executive of the county are backing the deputation. The other applicant is T. C. Stark of Pittsburg Township. Mr. Hardy did not make any promise

Miscellaneous 213,802 The appropriation for the year was \$8,687,824. The expenditure, exclusive of annuities, railway fund, etc., was \$3,-507,128.89; including annuities, etc., it was \$3,808,081. Succession duties amounted to \$206,185, of which \$50,472 came from the County of York. The Neilson \$12,240; John bhields \$4,500; Col. Gzowski, \$28,659; Neil Curry, \$21,-

398; Robert Hamilton, \$21,500. Toronto Lunatic Asylum gave the Government \$39,866, and the Central Prison \$1,500. total expenditure of \$3,803,081 in 1898, as over expenditure. compared with \$8,767,675 in the previous year. The total revenue for 1898 was \$3,647,853, as compared with \$4,189,847 in the previous year, the chief eductions being in the Department of Crown Lands, the revenue from which fall from \$1,595,269 to \$1,100,539, no less than \$346,000 being in the item of woods and forests. The revenues from licenses, law stamps, succession duty and casual

sources also showed a decline.

Toronto, Feb. 10 .- The entire time of the Legislature vesterday was occupied with the debate on the budget. The Provincial Treasurer occupied upwards of three hours in the delivery of his by which the Government intends to recoup the loss of revenue which has resulted from the enforcement of the logs, but intimated that in the course of a few days the Government would introduce a measure which, he trusted, would meet with approval of the House and country. The Provincial Treasurer was fellowed by Mr. Matheson.

THE BUDGET SPEECH. Hon. Mr. Harcourt then rose to make his annual statement. There were many reasons, he said, why he need not occupy the attention of the House in generalities. The financial issues had been all gone over in the general election on March 1 last, the press going fully into the subject, and

subsequent bye-elections. He then proceeded, without further introduction, to discusa the leading Items. The first and largest, the gross receipts, \$3,647,000, which in December were estimated at \$3,313,000. leaving, therefore, an excess of \$333,981 over estimates. Over 1807 we have an excess of \$722,000; in 18.86 the excess was \$192,000. This frequently-occurring and large excess helps to explain the delusions of my honorable friend from South Lanark, who evidently fears an enormous deficit.

He confuses the actual receipts with the estimated receipts A most important receipt last year is that of the subsidy from the Dominion Government, remaining at the same figure. The next item requires a word of explana-tion, namely interest. In 1808 we received \$304,083, in 1897 \$247,435, in 1896 \$260,544. This large interest receipt is composed almost entirely of three items: (1) Interest on capital sum, which the Dominion holds in trust, \$272,414; (2) interest from deposits in banks \$17,730; (3) Interest on drainage debentures \$13,631. It is manifest that the Dominion Government won't pay this interest unless we have somewhere the capital to yield the interest, which amounted to these figures: 1897 \$212,000, 1896 \$214,-000, 1895, \$262,000, 1894 \$310,020; and it is

worthy of particular note that that last 1894 represents the sum would be paid in the Items, funds, trust funds, U.C.C. building fund, U.C. Grammar School fund, placing \$2,848,000 to the credit of the province by the Dominion, through what is known as the Tilley Act. Only in 1894 did we get an exact payment instead of an approximate payment. In 1897 I explained to he House the variation in the receipts, Next, regarding Crown lands, there was received \$1,112,000, \$162,000 beyond the estimates, and less than the year before. Going back to Confederation, the average for the 30 years is \$949,000; therefore, last year's receipts were nearly \$150,000 larger than the average. Under the different heads there were received from woods and forests \$981,000, mining lands \$63,000, sales of Crown lands \$42,603. The receipts from

mining lands this year was abnormally From liquor licenses was received last year \$277,000. This receipt is shrinking. as we expect it to do, as fewer licenses mean lesser revenue, and 212 fewer licenses were granted than the year before. During the last five license years the following licenses were granted: 1893-4, 3276 licenses; 1896-7, 3096 licenses, 1897-8, 3064 licenses. The constant shrinkage gives evidence of the survival of the fittest. 1707 last year, and 10 years ago 4097. The spectively. In Outario, in 1897, there was one conviction to every 919 population; one for 381; New Brunswick, one for 262; Newfoundland, one for 337; British Columbia, one for 239 Therefore, under the license laws of Out. rio, the rate is less necession duties was \$1,073,832, every dol-

lar of which has been applied to purposes 1898, \$206,185. Strictly speaking, the amount is somewhat less, as one estate the solicitors made a cash deposit instead of fyling bonds. This large receipt comes celvable way could so large a sum be brought into the treasury without diverse criticism. The Surrogate Courts, in 1898, passed upon 4625 estates, but only 86 were that paid duty 51 escaped out of the 29,203 estates throughout the whole province. In

last year, amounting to \$128,417. We were we didn't sell any; in five years, since 1884, we have met extraordinary expendito be able to announce that the sale will e less this year still by \$12,000 or \$15,000. Prices last year were also better than any other year, and every railroad so aided has The casual revenue was a growing receipt \$24,000 fees paid for charters of incorporation, of which The London Times says: better indication of recurring prosperity than the large receipts from charters

can be asked for. Coming to Crown lands, Mr. Harcourt The whole deficit of 1898, compared with '97, is accounted for by the deficiency in Orown lands receipts. Had our Crown lands receipts kept up to the preceding year our receipts of last year would have been exceeded; the total receipt last year was larger than any three years previous. \$3,802,941. An honest, earnest, successful attempt had been made to curtail the ex-The expenditure for agriculture and arts last year exceeded any previous year by \$15,000, and it was evident that the House

was ready to foster this branch. The question was asked which of the grants would be cut off, poor schools, Public schools or High schools? The speaker considered instead of the Minister of Agriculture explaining his \$4000 over-expenditure, he might ask for more, the large sum of \$19,-289 being spent on the San Jose scale atone Educational expenditures were increased to aid and increase the usefulness of the

A new Item was \$15,091 for the Public school leaving examination. School inspec-tion cost \$53,280, Normal schools \$46,000, High schools \$106,000. Secondary education must not be discouraged by meagre grants.
Nine per cent. of all educational moneys
expended was paid to superannuated teach—

late wheelmen; for free markets; regarding fees of pupils attending high schools.

Just before the House rose, Mr. Ger-

The province spent last year to maintain public institutions \$815,745, about 21 per cent. of total expenditure. The daily average of the number of insane cared for by the province in the seven insane asylums has steadily increased from 2006 in 1878 to 5004 in 1898. There is a similar alarm-

ing increase in other countries, and Mr. Harcourt quoted statistics. He compared ing them, demonstrating that the Ontario system was far preferable, and that the ratepayers were relieved of a large burhad not been complied with.

Mr. Harcourt dwelt at length on the asyium question, and said that all things either profit or advantage depart from the

public buildings and public works. kept within the vote of the House, is the largest of any year since Confederation. It amounted to \$218,000, but of this sum no less than \$90,000 was spent in connection with the general elections held during the largest estates gave as follows: John | year, the contested elections and voters' 1894 amounted to \$88,944.

There was an over expenditure in connection with legislation, chiefly due to the Items, viz., stationery, printing and binding 139,866, and the Central Prison \$1,500.

The comparative statement shows a last of course partly accounts for this "It must be very gratifying to the who'e

with a credit cash balance in our banks amounting to \$450,121," said Mr. Harcourt. The schedule of assets and liabilities does not vary much from last year. "Leaving out of consideration our future railway obligations, the present value of will be seen that our surplus of assets at the end of the year, over all liabilities amounted to \$4,988,079." As to the current year, the expenditure estimates amount to \$3,409.567 and receipts

are estimated to reach \$3,201,987 from the usual ordinary sources of revenue. "We are now face to face, however, for the first time with revenue conditions such as heretofore have not existed in the his tory of the province. "To meet this year's expenditures the

Government would, keping in mind the cash balance of \$450,000, need to receive at flag and the applause was frequent and lands revenue, and it is proposed to intro-vigorous. He did not disclose the means duce legislation this session which will ap-Mr. Harcourt concluded: "If this House continues to demand increased votes for regulation prohibiting the export of pine | vices; if the large measure of relief we have already given to municipalities is to grown in the past, then, sir, even aside from the question of a probably lessened revenue from our woods and forest growing out of the restrictions we have placed the manufacture of our logs, it would still be wise and prudent to antici-pate any possible lack of equilibrium which might arise hereafter between our receipts and expenditures by making safe and immediate provision for additional revenue.

"We hope, Mr. Speaker, to make suitable provision during the session in a fair and equitable way to meet any emergency which may possibly arise."

Every Housekeeper

wants pure hard soap that lasts well-lathers freelyis high in quality and low in price.

Surprise is the name of that kind of Soap.

The Opposition Critic. A. J. Matheson, South Lanark, replied to the Provincial Treasurer's statement. Reciting the Government's proposals to meet the deficiency that they admitted, he said he was glad to see them making some attempts to meet that excess of expenditure. He then proceeded to criticize the practice of presenting the accounts of the several departments. Details should be given as to the pay of publi servants and the service rendered. The statements of the trust funds an common school funds, Mr. Matheson main tained, were misleading; \$60,000 had been borrowed from the Dominion Governmen for which five per cent, interest was pair The whole sum was put in as interest He proceeded to criticize the chief items of expenditure, and said that the efficiency of the service in every department should be kept up without increasing the debt. Government, he said, admitted a deficit of \$392,402, to which should be added \$75,000 in bonus and \$42,000 in connection with the

Crown lands, thus showing the account deficiency last year to be nearly half a mil. lon dollars. if they would put on the market \$2,000,000 at 3 per cent., payable in 60 years, with the interest received from the Upper Canada College building fund, they would be able to pay the principal and interest, and trust funds, thus saving \$20,000 a year. He commended this Ontario Government three sideration of the Government. But, said the hon, gentleman, there another way of making ends meet-the exer cise of strict economy. [Applause.] There

is no justification whatever for the large -perhaps the Attorney-General will explain that term-[applause and laughter]-that went on at some of those elections. on the great territory and its resources that responsibility lay on them for dethem. The Government should assist in this brought to bear on the Government, not by the Opposition alone, but by their own supporters, not to add to the taxation of the province, but to reduce expenditure. The House adjourned at 10 p.m.

Toronto, Feb. 11 .- As is usually the case on Fridays, the attendance of members at the sitting of the Legislature yesterday afternoon was very small, and but little business was transacted. It was private members' day, and private members were anxious to get away home by the afternoon trains and spend Sunday with their families, hence the brevity of the proceedings.

Petitions Presented. Mr. German-From Fort Erie, wanting free markets.

Mr. Kribs-Waterloo, asking the provincial road instructor's supervision of road construction, providing provincial aid be obtained for payment of such Mr. Pettypiece, Lambton-From medi-

cal men of the county, requesting an infirmary for the better treatment of women at London Asylum. Mr. German-From County Council of Welland and from Fort Erie, for the

beautifying of the old fort land at Fort Eric and making it a public park. Mr. German-To reduce the number of members of township councils from fiv

Mr. German-From County of Welland, to amend the Jurors' Act; to reguman handed in petitions from the Village Councils of Chippewa, Township of Stamferd, Village of Niagara, Town of Niagara Falls and County Council from Welland, asking for immediate power from Niagara Falls.

Questions by Members. Col. Matheson asked regarding the contract for public printing, and was informed by Mr. Harcourt that the lowest tender had been accepted, but the contract had not been let, as the conditions

Mr. Marter put Mr. Whitney's question regarding the recent bye-election in West Hyron, and the Attorney-General instructions in the matter.

replied that the returning officer would be asked to furnish the information. In response to a further question, Mr. Hardy said he expected to hear from the returning officer in West Elgin on Mon-
