EDITORIAL NOTES.

As we go to press we learn that the Ottawa ministers have decided to face the music and hold a session before appealing to the country. It is said that parliament will assemble on April 18th.

Dr. Baxter has been elected for Haldiman by a majority of 252. Dr. Baxter is one of the oldest members in the house, and was speaker. This will add to the Tuesday, April 2nd, and at Elora on Wednesday, premier's majority.

### Watch Repairing

When done right is done cheapest, even if it costs more than to do it improperly. But it doesn't cost more in the long run, really not so much. It is cheaper to pay \$100 once than 75 cents twice, to say nothing of the satisfaction of carrying a reliable time-piece instead

of a dummy. In fact the cost of watch repairing, like that of any other service or commodity, is largely governed by its quality. It often happens that incompetent artisans try to conceal poor work behind high prices, but eventually the quality of the work, be it good or bad, proclaims itself.

We are prepared to do good watch work. No shop in Canada is better equipped for this purpose than ours. It means a large outlay for fine tools and appliances. It means care, study and long practical experience, and a determination to make quality the first consideration. These we have.

That these things are appreciated by people who want value for their money is proved by the scope of our business. In addition to our customers who live in this vicinity there is a considerable number who send us work from long distances, even as far off as the Rockies. Why do they send to us past all intervening towns and cities? Because it pays them to do so.

We want your work. WE WANT YOUR WORK if you are not already a customer.

Try us next time you need anything in our line. Send by mail or parcel post if you are too far away to come yourself.
