LINDSAY, FRIDAY, MARCH 5, 1897.

Nowadays men are doing all sorts of wonders by means of electricity, both in mechanics and chemistry. I see by the papers that they expect to be able to produce real diamonds by it. Perhaps they wait till they do before we crow over that caygeon, Lindsay, Omemee, the Scotch will let him tell his own story on that moment that anything but death would job. August 24 1892. He had no inherited disease or weakness, so far as he knew, and was always strong and well up to April of that year-1888. Then his strength and energy began to leave him. He felt tired, not as from work, but as from power gone out of him through my heart. Very often the spasms were so some bodily failure. He sat down to his meals, but not with his old eagerness and relish. There was a nasty copper-like taste in his mouth, his teeth and tongue were with best physicians without relief. Havcovered with slime, and his throat clogged with a kind of thick phlegm, difficult to

"nawk up" and eject. He also speaks of a nagging pain in the stomach, flatulency, and much palpitation of the heart as having been among his symptoms. As the ailment - whatever it was-progressed he began to have a hacking cough which, he says, seemed as if it must shake him to pieces. He could scarcely sleep on account of it. One of the most alarming features of his illness, however, were the night sweats, for the reason that they showed the existence of a source of weakness which must soon, unless arrested, end in total prostration. In fact he was obliged to give up his work altogether. To him-as to any once active man-this was like being buried alive. One dostor whom Mr. Lagdon consulted

said he was consumptive, and it did indeed look that way. "For twelve weeks," he says, "I went on like this, getting weaker and weaker, and having reason to believe that it would end in my taking one long journey from which no traveller

"Protection," he said, means bad factories and bad articles for the benefit of a privileged few." Mr. Rhodes further said that in some of the mines they intended to employ Americans only, because of their better acquaintance with deep levels.

To a question by Mr. Labouchere, as to the meaning of the words "civil rights," as used by Mr. Rhodes, that gentleman answered with much warmth: "The Johannesburgers have no civil rights and no body of Englishmen will ever remain in any place for any period without insisting upon their civil rights."

the Transvaal towards the Cape Colony and Great Britain was introduced, in the course of which Mr. Rhodes took from his pocket and read aloud a long extract from a speech in regard to Crete, recently delivered in the House of Commons by Mr. Labouch re. As he finished reading, Mr. Rhodes said: "I quite agree with Mr. Labouchere, and transferred the same sentiments and state of affairs to the Transvaal." This remark created a laugh, in which Mr. Labouchere joined. Witness said that Mr. Chamberlain, Secretary of State for the Colonies, had absolutely no knowledge whatever of the revolutionary movement, and at this remark Mr. Chamberlain said that he would be very glad to answer any question The committee adjourned until Tues-

LINDSAY, FRIDAY, MARCH THEIR FAMILY MEDICINE.

SO SAY THOUSANDS CONCERN ING DR. WILLIAMS' PINK PILLS

Mrs. John Wood of Notre Dame, N. Z Says They Restored Her to Healt and Strength After Other Medicin Had Failed.

From the Richibucto, N. B. Review. In the village of Notre Dame, N. B., Mr. and Mrs. John Wood, respected by a who know them. Mrs. Wood had go through a trying illness from which she now happily recovered, and this recover created so much comment that your on respondent called upon the lady with a vie to getting the facts for publication. The reporter was cordially welcomed and w told by Mrs. Wood that she had no obje tion to making a statement for publication if it were likely to benefit anyone els She then gave the following particulars her illness and cure: "For some ting previous to February, 1896," said MA Wood, "I had been feeling unwell and ro that time out my health seemed to be going from bad to worse. I suppose the won general debility would best characterize n condition. I was weak, my blood seems as thin as water. I felt continually drows and yet could not get sound, refreshing sleep. My appetite was poor and I had a relish for food. I was reduced in flesh, at yet my limbs were bloated and swollen at I was told that I had dropsy, but really cannot say if this was the case, I tra several medicines but they did me no god and I almost felt like giving up in despa One of my friends urged me to try 1 Williams' Pink Pills and I began usi them in the early spring. It did not ta very long to see that I had at last found medicine that would cure me if anythis could, for after taking a couple of boxe felt both better in health and spirits than had done for some months. From this q I gained strength continually. My fle became sound and healthy, the bloating h me, my weight increased, and I soon for myself restored from the position of unfortunate invalid to a strong and healt person. I can say nothing but words praise for Dr. Williams' Pink Pills, and strongly recommend them to all who n be suffering." Mr. Wood endorsed w his wife said, and added that Pink P
