THE CANADA LIFE

SEMI-CENTENNIAL

This being the 50th year of the Com pany's history, the policy forms have been liberalized, especially in the surrender and oan privileges and guarateed values, so that the company enters upon its second semi-centennial with premium rates consistent with present-day interestearnings, and with policy contracts as definite in their terms, and liberal in their conditions as the safety of the Company and the demands of the public seem to warrant. Taking a glance over the past history of the Company, it is not too much to say that its distinguished characteristics have been economy, integrity, liberality and

Its economy has enabled it to tower above less prudently managed institutions; its integrity has begotten a confidence that is never betrayed; its liberality to policy holders stands proved beyond question in its large profits; its stability is evidenced by 50 years of honorable existence, and by present investments adequate for every contingency.
Intended assurers will consult their best interests by making application to the agents of the Canada Life.

A. Moore.

NOTICE TO THE PUBLIC.

Spring is about here. The time for house-cleaning. will soon commence. You will doubtless find it necessary to have something in the way of Painting, Paperhanging or Calsomining done. It is quite immaterial to some folks who they employ so long as hey get their work done promptly and with neaters, which is a very good policy, as it gives a fair ance to all, but owing to the hardness of the times t is quite a consideration as well as a necessity for ome to have it done as reasonable as possible. For the next 30 days A. Moore is prepared to do anything n the above lines at greatly reduced prices before he busy time starts Give him a call. You will

His Hip Joint Dislocated. Our Dunsford correspondent writes us as follows: William Thurston, son of our well known citizen, Mr. J. B. Thurston, met with a serious accident on Tuesday while drawing wood. Near the lake the road was very rough, and under the pres-sure of a severe jolt the rack gave way and part of the load fell forward on the horses' heels, carrying the driver with it. The horses then ran away, and Mr. Taurs-ton was dragged along the ice some dis-tance until the sleigh became entangled in a stump, causing the horses to stop. Luckily assistance arrived just then in the person of a neighbor, who rescued the young man from his dangerous position and conveyed him to the residence of Mr.
Burgess. Dr. Herriman, of Lindsay, was
summoned, who found that the hip
bone had been dislocated, in addition to receiving severe bruises on other parts of the body.

Local Brevities.

-The Sons of England grand lodge chose Mr. Barlow Cumberland as grand president, and Ald, Parnell, of London, grand vice-president. The grand lodge will meet

-A beautiful rose of the La France variety, given out by the horticultural society last spring, and now in full bloom, is on exhibition in Hughan & Co's window. The rose is one of the most beautiful we have ever seen. -Mr. H. W. Hodge has purchased sev-

eral first-class Jersey cows, and is looking about for others, as he has undertaken to furnish Mr. Shannon, the milkman, with milk by the wholesale, and intends supplying a superior article. -We understand that Mr. D. Ray has not been successful in making arrange-

ments to retain possession of his stock.

The time given him to obtain the necessary security expired last week. It is likely that the stock will be again offered -Inspector Floody, of the inland revenue department, Toronto, who seized several stills in Peterboro last week, visited Hal-iburton, Gelert and Minden on Friday. He passed through to the city next morning. We understand he located a still in

Two well-known citizens of Bobcaygeon met with painful injuries the other
day. Mr. Richard Garlick slipped on a
bit of ice while going to the stable and
broke his leg, and Dr. Thorne was kicked
by one of his horses, from the effects of

members are requested to be on hand next Friday evening at the same place, as there is important business to be transacted.

-Mr. R. D. Robbins, formerly of Port Perry, was in town last week distributing plans and other information concerning the proposed new town of Waubsgoon, in Algoma district. A syndicate of wealthy Toronto capitalists has been formed to exploit the project, and it is said that a large number of town lots have been disposed

-Three teams of horses were driven into an unprotected hole in the ice on the river near Dark's last Saturday, but were pulled out on solid ice without further damage than a cold bath. The main ice

to be the town of Port Perry. Capital, \$10 000. The applicants are Matthew Edwards, egg merchant, Hull, Eng.; J. D. and W. M. Flavelle, Wm. Steers, of Lindsay; and J. W. Flavelle, of Toronto.

-Mr. G. H. M. Baker, the Rathbun Co's energetic local manager, is already pre-paring for the opening of the cutting season, and a number of improvements are being made in the mill and machinery. The yard is piled high with cedar purchased during the winter from farmers, and there is ample stock to keep the mill running until the timber being cut in the back country is floated down with the spring freshets. Some of the cedars delivered to the firm are the largest out for some years, and it is evident there is yet good stock in the vicinity of Lindsay. -Crosman Bros., the well-known fancy

pea dealers of Cobourg and Wellington, with headquarters in Rochester, N.Y., and branches along the northern shore of Lake Ontario, are financially embarrassed. Lia-bilities are placed at \$50,000. Their fullure is said to be due to the fact that the crop of fancy peas was fully 50 per cent. larger last year than ever before. This has glutted the market, forced prices down, and has left the firm with a large stock on hand. Farmers in this section may as well make up their minds that there will not be much money in fancy peas for some years to come, as the McKinley tariff places a duty of 803, per bushel on them.

-An east ward citizen writes us at some length enumerating many favorable fea tures in support of his claim that the tures in support of his claim that the ward is now equal, if not superior, to other portions of the town as a residential other portions of the town as a residential locality. Among the many advantages if my mare didn't lose her four shoes the writer notes that the ward has no somewhere between the swing bridge and lock-up, tavern or poor-house, that the religion and morals of the people are improving and exemplary, that the young girls are pretty and modest, and that the dwellings are well constructed and of good appearance. Decidedly there is nothing to be said against the east ward, and it is strange that there is not a brisk demand for the many comfortable dwellings erect-ed for rental.

EDEN-THORAH.
[Correspondence of THE POST.]

Signs -Many spring birds, among them the festive crow, have again appeared in our section....The merry sleighbells have again given place on our roads to the rattle SPORT. -The recent thaws have made

good skating, much to the delight of the small boys and others. CREAMERY operations are in full swing now. The patrons had several bees drawing ice and sawdust, and have succeeded in storing the necessary quantity.

LECTURE.—Professor Sprague, of Guelph
model farm, delivered an able address on

3 miles east of Kirkfield, McMillan's house,

Pork Packers vs Pork Producers. We have received a lengthy communication from Mr. D. Hawkins, of Woodville, on the above subject, in answer to Mr. Geo. Matthews' last letter, which we are unable to insert in this issue. It will

They Snared Maskalonge. As a result of the visit of Mr. A. Bradshaw, Dominion fishery overseer, to Port Perry on Thursday and Friday last, five of the citizens of that town have got into trouble, and will have to answer to a charge of having illegally snared masks longe. Their names are Alldredge, Schell, Sebert, McKenzie and Hudson. Mr. Bradshaw has communicated with the department. The trial will likely take place at Port Perry.

South Ops Cheese Factory. The directors of the new South Ops cheese factory have contracted for the Son, and some of it has already been drawn by the patrons. The inside plan will be prepared. Liberal prizes are offered for selected in a few days and the erection of the building will be proceeded with short-Mr. Jas. Greenan is president, and the other directors are Messrs. Owen Traynor, Jar. Robertson, P. Clancy, Frank Gibbs and John Sluggett; trustees, Messrs. J. Greenan, Geo. Murphy and S. Parkin.

Her Arm Dislocated. Mrs. R. Miller, of the north ward, wife of the genial manager for the Sadler, Dundas & Flavelle Milling Co., met with a in St. Catharines next year.

-There will be a boom in schoolbouse building this spring. Mr. W. A. White, building this spring. Mr. W. A. White, wards the Y. M. C. A. hall she slipped on architect, of this town, has prepared specifications for new brick schools in sections 14 and 21, Mariposa, and tenders have been assisted her to reach a doctor's office near had been dislocated and several severe bruises inflicted. Mrs. Miller's many friends will wish her a speedy recovery.

Trent Valley Canal Deputation Hon. A. G. Blair, minister of railways and canals, has signified his willingness to meet the Trent Valley canal deputations on April 6th. Every interested municipality along the line of the canal will likely send a deputation, and delegates from every county will swell the crowd which will go to Ottawa on that it date to impress upon the government the necessity of expending a sufficient sum of been suspicious for some time past that money to make former outlay of value to lilicit liquor has been manufactured and those whom it was intended to benefit. It | sold in Peterboro and vicinity, but the is confidently expected that the deputain Ottawa.

Fire in Manvers. The farm residence of Mr. Robt. Jamieson, of Manvers, was burned on Thursday night last, with all its contents. The fire night last, with all its contents. The fire is supposed to have started from the kitchen stove or chimney, and it had obtained a good start when detected at 3 a.m. Mrs. Jamieson was overcome with smoke while groping for the doorway, and had her moans not been heard by Mr. Jamieson she would assuredly have been suffocated. The girls ran for help to Mr. Free a near neighbor, in their night clothby one of his horses, from the checks of which he is yet suffering.

Owing to the blustry weather last Friday the meeting of the Children's Aid Society, announced to take place in the council chamber, was not held. The council chamber, was not held. The members are requested to be on hand next the fire from the barn. The loss will be

close upon \$1,500. The Sons of England. The grand lodge of the Sons of England, which met last year in Peterboro, was in session last week in Brantford President J. Boxali being present as the representative of Westminster Lodge No. 12, Lindsay. Supreme grand secretary John W. Carter submitted a voluminous report, which, as usual, was replete with statistical information. The state of the order was, he thought, more encouraging, for in spite of the continued stringency, the society was holding its own. Twelve lodges had been instituted during the year, and four char-

damage than a cold bath. The main ice is perfectly solid and is being used for heavy teaming; the bad ice is in the neighborhood of the stumps which are exposed to the sun, and where the current is strong the ice is now frail.

—A charter is being applied for to the Ontario legislature for a company whose object is the preserving and disposing of eggs, butter, cheese and other classes of the books were closed. Present total members, farm produce. The operations of the company whose pany are to be carried on through the province, and the chief place of business is province, and the chief place of business is to be the town of Port Perry. Capital, the province of the solid province of the sol Financially, too, there had been an improvement in the condition of the society.

The amount of cash received by subordinate lodge secretaries had been \$75,960.55; paid lodge secretaries had been \$75,960.55; paid for sick benefits, \$22,734.23; paid doctors, \$13 756 54; cash in bank and other securities, \$53,226.95, an increase of \$4,004.91; in hands of lodge treasurers, \$7,912,81; liabilities, \$4,053.74; management, \$21,196.80; total funds of the lodges, \$57,332.64, an improvement of \$5,075 89 over last report

a year ago. Lots of Work.

breaking stone for the streets; Orillia reports that every man in the corporation who wants work can get it, and earn good wages, breaking stone at 40; per yard. In Lindsay no work has been provided for the poor man because a councillor who thinks he knows how to build roads has somehow got the idea into his cranium that the proper way to establish a nice roadbed is to drop unbroken field stone into the ruts and pitch holes. In the meantime men out of employment polish the bricks at street corners, and the tax collector has been ordered to go slow and not sell them out. We do not think any citizen will lift up his voice in favor of our town roads. Last fall an old gentleman from Port Hope district drove into Mariposa to visit some friends. It was his second trip to Lindsay in 40 years, and in conversation with several of our old citizens he raised a hearty laugh by remud. Last week I made the trip again, and found things a little better-only lost three shoes doing the same distance, but the fourth was just hanging on."

The Fate of Rossland. The Bob. Independent man has not yet

invested any of his surplus wealth in Rossland mines, according to the following: Mr. Laurier is, no doubt, being pressed from several quarters to grant money for the Crow's Nest rallway. He is being pressed by those who are gambling in gold | made in the '97 model will give incr ased mines. His true policy can be very clearly defined by this journal—he must temporize. About the date when the staff of this journal will be rejoicing in iced claret and moonlight strolls with its summer friends, the model will give increased strength where it is most important to have it.

Riders of the '96 model will probably doubt that it is possible to build a bicycle that will run easier than the wheel that that will run easier than the wheel that the gold boom will burst, the mining craze will cease, public sanity will be restored, and everybody will be laughing at the fol-lies and absurdities of the Rossland farce If Mr. Laurier postpones action until July, no action will be required. The whole dairying to the creamery patrons last Monday evening.

Personal — Rev. Mr. Rix addressed the C. E. on Tuesday evening. ... Miss Belle McRae is again seriously ill... Miss Belle Sarah Oke is suffering from the effects of is grippe ... Mr. Wm. Little, who has been working during the winter months, has hired with Mr. John Proctor, Beaverton, for the coming season.

Removals — Mr. W weatherall, who has been working Mr. Wm. Bain's farm for several years, has moved to Mr. Geo. Vallage farm. ... Mr. Charles Paffer by Mr. Weatherall ... Mr. Charles Paffer has moved to Mr. Geo. Wallsoe's farm. ... Mr. Geo. Little has moved into Mr. Edward McMillan's house,

New Dry Kiln.

Once upon a time the owners of planing factories had to depend upon the lumber dealers for their supplies of dry stock, but that day has gone by-now every wellequipped factory has a dry kiln in connection, and steam heat does the work of old Sol faster and better. Mr. J. P. Ryley, of the Victor's planing factory, near the Wellington st. bridge, having used up all the suitable dry stock at his command, has just completed a modern drying kiln, embodying the system of circulating hot air currents used by the large American firms. Mr. Ryley is now fully equipped to handle contracts of any size expeditiously; having a large shop filled with machinery of the latest design, and a staff of experienced workmen, he is prepared to give the lowest quotations for all classes of work.

The Last Carnival.

The last carnival of the season will be held at the Victoria rink next Tuesday evening, when skating will likely close. those in costume; there will be several races, including an obstacle dash and a challenge race between W. Brooks, of the Benson house, and Charlie Podger, for a box of choice Havanas, but the event of the evening will be the return hockey match between the Benson house and combined hotel teams. The latter claim they suffered defeat the other evening owing to the unavoidable absence of their heavy weight star player, and as he will be on hand Tuesday night they are confident of winning. Ticket-holders in costume, free; others 10c. Band will be

They Make Their Own Whiskey. As a result of frequent complaints forwarded to the inland revenue department, Toronto, Inspector Floody and Provincial Detective Greer, assisted by the local police, conducted an energetic and successful search for illicit stills in Peterboro on Tuesday. One was found on the premises of Wm. Faint, woollen manufacturer, and another in the house of a Mr. Cook, both citizens of Ashburnham. Mr. Faint claims that he used the still in connection with his business, and Mr. Cook says he never saw the contrivance before, it having been found under a boiler in his son's room. The department has people of Peterboro believe the officers struck a false scent in the case, as the suspected citizens are strong temperance advocates. The inspector will report to the department and a thorough investigation will no doubt take place.

Railway Notes.

-The Grand Trunk Railway system includes 4,186 miles of track, 1,015 locomotives, and 27,681 cars. The C. P. R. has 7.196 miles of track, 602 locomotives and

-The extension of the Grand Trunk system from Meaford to Owen Sound is talked of. A feeder would thus be afforded via Allandale, Orillia, Lindsay and Madoc Junction to Balleville, where it would meet the double tracks.

-Lindsay citizens have now first-class train connections east and west. As a re-sult of the transfer of Conductor Rundle, of the Toronto mixed, to Lindsay, travellers can now leave town for Toronto at 6.15 am., reach Toronto at 10, and return with Conductor Rundle at 11 p. m., reaching town at 2.30 next morning. The faulty connection from points east has always been a sore grievance, but is now remedied in consequence of an order issued by Supt. Tiffin directing that a tooach shall be attached to the way-freight leaving Peterboro every evening at 8 20. The effect of this change is that passengers leaving Montreal at 9.15 s.m., can reach Lindsay at 10 o'clock the same night; formerly they had to remain over all night at Peterboro. -A change was initiated Tuesday on this division that will lead to the removal of two or three train crews to Lindsay. Conductor Morris and crew, now in charge of the Belleville mixed to Peterboro, will hereafter run through to Lindsay, carrying freight and passengers leaving at 8.20 and arriving here about 10. Next morning Con. Morris and crew will take the Port Hope mixed run, and Con. Jack Britton and crew, now in charge of the latter,

will take the Belleville run, leaving will from this date run out of Lindsay also, leaving at the same time and returning during the early morning with freight. It is said that an extra crew will have to be engaged for this run, and in that event the four crews will take the runs above mentioned in rotation.

THE '97 RED BIRD.

Peterboro has 60 or 70 men at work This Year's Brantford Wheel is an Ex-This year's Brantford Red Bird Bicycle bids fair to be even more popular than any of its predecessors, and has a variety of strong points that will commend it to the

experienced rider. The greater width of hubs will give additional strength. The large tubing used all around adds to the strength and rigidity, besides being

very pleasing in appearance. The bearings are absolutely dust proof, being protected by four different protec-

ollers, the best olling device ever used on The floger washers, with which it is adjusted, being most sensitive to the touch, make an ideal means of adjustment. Solid steel centre pedals, with corrugated ends and side places, that increase their strength by 200 per cent., will be used.

The offers in these potals are located in the side-screws, an . . re invisible to the casual observer. A new feathered . x e, introduced in the 7 model, prevents and axle from turning in adjusting. The new straigh bottom fork tubes

give greater strength.
The larger balls in crank-hanger will add to their world wife reputation of being wonderfully e running. New fork sides, tapered from end to end, will give increased strong h. New crown plates, that, while being lighter than those used in the '96 model, have a greater distance between them that

is certain to increase the s'rength at this it will be seen that the improvements

year, but the larger balls used in this year's crank-hanger will certainly give

The '97 ball oller is a little thing in itself, but it is such an excellent one, and is such a safeguard against dust and grit entering
