Lindsay's Leading Jewellers

Canadian Lost. LINDSAY, FRIDAY, MARCH, 11, 1898.

TOWN AND COUNTY. DASHES HERE AND THERE.

Local Brevities.

There was a fairly good market -Messrs. McLean and Dusty came

together again last Friday at Uxbridge, and the former was again defeated with apparent ease by the Cannington man,

-The Reaboro brass band and a number of the residents of that burg serenaded Mr. S. J. Fox, M.P.P., at his residence last week and were most hospitably entertained.

-The Uxbridge hockey team made the Benson house their neadquarters, and one and all voted Mr. Wardrobe to be an ideal landlord and the house one of the best they ever put up at. -Little Hector, owned by Mr. John Aldous, of Fenelon Falls, won the 2.27 trot at Whitby races. He was the favorite for the free-for-all contest, but the race failed to fill, and he was barred out of the 2.35 class.

-A new dynamo from the Canadian General Electric Works, Peterboro, has been placed in the Bank of Toronto mill at Fenelon Falls. It is of 20 horse power, and will supply 325 lights, He's got the skill to fill the bill. 75 more than the old one. -The Good Roads agitation

spreading. The Cannington Gleaner has decided to issue a special edition shortly giving information on the subject of road building. It is to be hoped the pathmasters will adopt the ad--A farmer whose mental faculties

were befuddled last Friday night attempted to drive his team through the fence guarding the excavation in front of McGaffey's store. One of the animals received a bad cut and the farmer was thrown to the ground, bus

-Mr. and Mrs. Thos. McConnell, the Royal hotel, entertained between 60 and 76 friends on Thursday week, all of whom are a unit in pronouncing the evening one of the most enjoyable of the season. Dancing was kept up till the "wee sma' hours," excellent music being furnished by Prof. J. Bates' orchestra. -The C.P.R. rate war has reached

Lindsay. Tickets for Toronto via Peterboro are now being sold for \$1.55, and return at \$2.50. The 5.45 a.m. train connects at Peterboro with the train reaching Toronto at 10 a.m. The train from Lindsay to Peterboro at 11 o'clock connects with train at 1.15

-A force of Bell Telephone linemen, in charge of Mr. C. J. Leslie, head repairer, were at the Benson house Saturday. They are on a driving trip through the country inspecting the condition of the poles and lines, and have had to make numerous repairs in consequence of damage done by the violent storm a few weeks ago.

-The choir of the Cambridge-st. Methodist church, under the direction of the organist, Mr. Morse, and the music committee, are preparing for their annual Easter concert, to be held on the evening of Easter Monday. Local and outside talent will be engaged and the choir expect to present one of the best sacred concerts yet held.

-Archbishop Cleary left an estate amounting to \$53,000, consisting of \$28,000 life insurance and property valued at \$25,000 which came from the Cleary family in Dungarvan, Ireland. His will leaves \$45,000 to Regiopolis College, Kingston, and the balance of the estate will be divided among the deceased prelate's brothers and members of his household.

-Messrs. Horn Bros. are having a large addition built to their factory. The new wing will be 35x40 feet in size, and two storeys high, and occupies the site of the former power house, which was torn down to make room for the new erection. The lower flat will contain the power machinery and the pickers, while the upper flat will give needed room for several new machines, the purchase of which is necessitated

by the firm's rapidly growing trade. -A cricket enthusiast writes to the Peterboro Review in praise of the Australian cricketers, stating that they have shown themselves throughout cricket history to be the real cricket champions of the world, and in conclusion points to the proud fact that Canada and Australia, with a population of only ten millions, holds nearly all of the championships of the empire and the majority of the world

V.; Cor Comp. Grahan Janitor

championships as well. about the same as last-17 mills. The instalment is paid with the first on or lap, thus winning the race in two before August 1st that a discount of heats. The race was a good one-it two per cents be allowed on the second was run fairly and honestly, and greatinstalment.; that if the first instally pleased the public. We underment be not paid on August 1st, 5 per ment be added to it, and if the second cent, be added to it, and if the second instalment, be not paid on Dec. 1st. cent. be added to it, and if the second ments with the contestants gave them | passed after some discussion. 5 per cent, be added to it:

MAY BE ARCHBISHOP O'CONNOR The Bishop of Peterboro May Become

Archbishop of Kingston. In Roman Catholic circles it is currently remored that his lordship Bishop O'Connor is likely to succeed to the Archbishopric of Kingston, vacated by the death of Archbishop Cleary, The Bishop of Peterboro is known as one of the ablest, as well as the most popular, in the province, and his appointment would be hailed with satisfaction in the province, but while the people of Peterboro would be pleased to hear of his promotion, they would regret to learn of his removal from town. - Peterboro Review Hamilton papers think Bishop Dowling, of that city, will be appointed to the Archbishopric, and that Monsignor Mc-Evay, his assistant, will replace him. It is almost certain that if Bishop O'Connor is promoted Monsignon Laurent, of this town, will be offered the

THE TANKARD WINNERS.

The Tankard contest's over And the mist has cleared away, Permitting us to view the men Who nobly gained the day, The struggle was a hard one From the first stone to the last, But the heads upon our curlers Served them now, as in the past.

To win this much prized trophy, Calls for science, pluck and skill, And Lindsay beats the best of them, "Like sliding down a hill." That old veteran, J. D. Flavelle, With McLennan and his men, Have scooped the Tankard twice now, And may do the trick again.

You may scan this country over, From the East coast to the West, But you'll fail to find a curler That our Flavelle cannot "best." He's a general-you should watch him As he's building up his end, For well he knows the scoring Upon such work depends.

If this man has got an equal, McLennan is his name-He lives right here in Lindsay, And is always in the game. When excitement's at its highest, And the rink is in a hura, He holds his men together And "keeps chewing on his gum.

We have also Jack McMillan, Who is noted far and wide For his beautiful delivery, His left paw and his glide; He's a credit to the country, Which claims to own the game, And there's no vice-skip in Canada Can get there "just the same.".

Geo. Little's work is wonderful On ice or on the green-In fact, in sports of any kind His equal's seldom seen. Good judges say, in curling, He has reached the highest rung, And although he has a record, His good work has just begun.

Then we've unassuming Lochie, Who is always on the team, And who can measure up the weight, Regardless of his "steam." His presence gives Skip Flavelle No cause to be afraid, For well he knows that Lochie Never "stalled upon the grade."

Mat Kennedy, too's, a factor, And classifies in "G," And when he lets his stone go. It settles near the "Tee." If a stone projects a little, Or he's wanted through a port, And help us hold the fort.

There's only one McConnell, And the boys all call him "Tom, And when he's wanted in the ring He's never short or long. He plays with such precision That his skip's been heard to say That it really looks to him as though "The cup's come here to stay."

The ladies' representative Upon our Tankard rink-Some say is Jack McMillan, But its Wesley Greer, we think. Wes. plays with great precaution, With but one eye on the ice, For the ladies have the other-And they think he's awfully nice.

Twas in the nineteenth end, When the game was waxing warm, That someone mentioned "Piggery," And thought it was no harm. Wes. was in position,

But he must have slipped a cog, As Flavelle cried with all his might "Why, Wes., you've made a Hog!

This is the Way of it The glycerine in Scott's Emulsion soothes the rough and irritable throat. The hypophosphites tone up the nerves. And the cod-liver oil heals and strengthens the inflamed bronchial tubes and air cells.

A Peculiar Accident. Messrs. Murphy & Riley, liverymen, whose place of business is opposite the market, are likely to lose a valuable horse as the result of a very peculiar accident last Friday. Mr. Riley was driving about town, and as he turned the corner at Brooks' the band started up. The animal-a new purchase -reared violently and made a dash for the sidewalk, but slipped and fell with great force upon one of the two iron tie-posts in front of the hotel, which penetrated the poor beast's body over a foot. The wound was a horrible one, but the animal managed to walk to the stable, leaving a trail of blood along the snow. Veterinaries Broad and Kenny say the animal can-

not recover. The Matcaed Skating Race. The Dusty-McLean race, held here March 3rd, was the event of the season. The night was an ideal one, the ice in good condition, and the spectators all on the tiptoe of expecta-Shortly after 8.30 the contestants faced the starter-Mr. W. H. Simpson-and after a couple of tries were sent away, with McLean on the inside and in the lead, After about 20 laps Dusty made a clever inside pass and took the lead, only to fall and lose it in the next lap, but at about the 26th lap he again took the lead and steadily drew away from McLean, till he won by about half a lap. While the contestants were being ministered to by their attendants, Messrs, LePage and Taylor, gave a fine exhibition of fancy skating, which added much to the enjoyment of the evening. During McLean was suffering from a sick the recent trial of the author, has inthis time a report flew around that spell, and fears were expressed lest the race would have to be called off. consent to fight Major Esterhazy if the -Peterboro's rate this year will be However, fortunately he felt well enough to come to scratch on time, and this time they were got away with council has adopted the saxes be payable in no trouble, Dusty taking the lead and lasting several days the Senate late this two equal instalments, the first on the lolding it with apparent ease till about the lat of August, and the second on the 1st of December; that if the second again came in ahead by about half a

than were at first understood.

MAINE BROKEN.

An Important Statement Concerning the Havana Disaster.

CAUSED BY AN OUTSIDE MINE.

The External and Internal Evidence Which Make This Statement Conclusive and Certain-The Feeling Among American Naval Officers -A Tell-Tale Photograph-Work of the Divers.

Havana, March 3.-The Maine's back was broken. Latest discoveries made by divers show that a mine rent the U. S.

battleship asunder. The keel of the ship has been found in two pieces, the nearest ends of which are now separated by a distance of from two and a half to three feet. The sections are no longer lying in one straight line, but show the effect of a force exerted from port to starboard.

It is evident from the discovery of the present condition of the keel that the section of the bottom found 29 feet from its natural position was wrenched from the keel by the first explosion and driven upward. The keel itself was forced in the middle until it was broken in two, and then collapsed in two sections, which fell in the position in which the divers found them yesterday. Reliable persons familiar with the results of high explosives, and with the wreck above and under water, say that the breaking of the keel as now disclosed could not possibly have been done by an inside explosion alone.

Feeling among American naval officers in Havana is that beyond the recovery of the dead remaining in the wreck, all useful work in connection with the Maine wreck has been done. Letters have been sent from here to representatives and Senators in Washington warning them against voting for appropriations for raising the Maine, saying that the work would not only cost millions, but would not add anything to the information regarding the nature of the explosion.

A photograph which is in itself evidence of the nature of the explosion has been taken. It shows the Maine's dog standing on a part of the wreckage still above water. The fact is that the plate on which the dog stands came from the keel of the ship, and was the lowest part of the tremendous mass of material thrown upward, and to starboard.

THE WRECKING CO.'S WORK.

The Merritt Tug Has Arrived at Havana and Has Begun Work.

Havana, March 3 .- The wrecking tug I. C. Merritt of the Merritt and Chapman Wrecking and Dredging Company, commanded by Captain D. A. Wolcott, arrived here from New York yesterday, and later in the day she moved a barge near the wreck and commenced work. Mr. Fred. J. Sharp is here in charge for the company. The Merritt is a powerful boat, but another and bigger tug is expected here shortly. The Right Arm will probably remain so long as she can be useful. The Wrecking Company expects from now on to keep four expert divers at work. Two Spanish divers were at work about the wreck yesterday, and it is understood | hospital. that they will report to the Spanish Board appointed to inquire into the cause of the disaster. Captain Peral is the President of the Spanish Board of Inquiry.

No bodies were found yesterday. It is reported that Captain Sigsbee does not expect to find any of the dead in the zones of the explosion, but he still believes bodies will be recovered from portions of the wreck as the divers remove the debris. The divers who are working steadily forward are encountering contintugs, additional men and complete apparatus will hasten the work of salvage. The barge brought with the wrecking tug I. G. Merritt is proving of great value in carrying away debris. In the course of a will be removed.

A SPANISH DEFEAT. The Battle in Santiago de Cuba a Decisive

Victory for the Insurgents. New York, March 3 .- The Press says:

Reports of the recent battle at Holguin in the Province of Santiago de Cuba have been received here. Instead of the battle being a Spanish victory, as reported from Havana, it was a disastrous defeat, followed by a retreat on the part of the Spanish forces. This information comes through Cuban sources, and is a cause for a great amount of rejoicing in Cuban circles, because the guns and ammuniti shipped from Montauk Point less than a month ago were used in the fight. The Cuban loss in the five days' fight-

ing was less than fifty killed. The real Spanish loss will never be known, as the dead and wounded were taken from the field at night. It is estimated that nearly one thousand were killed and wounded. From word received from Holguin, it was learned that there were several companies almost annihilated by the Cuban fire.

Letters from the Cuban army report it

For Cuba's Relief. Washington, March 3.-Secretary Long has decided to send a naval vessel to Cuba at orce, with forty or fifty tons of provisions for the relief of the suffering reconcentrados. The vessel will go to Matanzas or Sagua. It is said an emergency exists that makes it necessary to despatch provisions at once in order to succor the starving. It was subsequently decided to send two vessels with relief supplies. The Montgomery will take supplies to Matanzas, and the Nashville supplies to Sagua La Grande.

Maine Court Closed.

Key West, Fla., March 3.-The court of enquiry convened shortly after 2 o'clock yesterday and went out to the barracks, where all the survivors of the Maine were mustered. The men were asked if they had any charges or further statements to make. Not a single word came from the ranks, and after a whispered consultation the work of the court of enquiry at Key West came to an end. The members of the court are awaiting instructions from Washington as to whether they shall return at once to Havana. Apparently the court has gained little information during the Key West session which could help explain the ex-

Col. Picquart Won't Fight. Paris, March 3 .- Col. Picquart, the disciplined chief witness for M. Zola in formed the Aurore that he will never latter challenges him. Uncle Sam and Jack Canuck.

Washington, March 5 .- After a debate afternoon passed the bill extending the homestead laws, and providing for right of way for railroads in the district of Alaska.

SAD DROWNING ACCIDENT.

Father and Daughter Drowned in the Icy Water of McNamee's Cut. Toronto,

on Saturday Night.

Toronto, March 7.-A double drowning fatality occurred on Saturday evening at the ill-fated McNamee's cut, foot of Cherry street, by which Thomas McDonald and his 13-year old daughter Mamie, who both lived on the Island side of the cut, lost their lives. They were coming to the city in company with Mr. Frank McDonald of 54 Stephanie place, a bro-ther, and Mrs. McDonald, wife of the drowned man, when the punt in which they were crossing filled with water and

Early in the evening Mr. McDonald paid his brother a visit, and at 9.30 decided to go home. At this time the family had not got their provisions for Sunday's use, so the deceased head of the family, his wife and daughter arranged to come to the city with the visitor.

When the party reached the edge of the cut they stepped into an old punt that was lying on the shore. Mr. Frank McDonald and deceased's wife taking seats at the rear end; the daughter Mamie sat at the bow.

Thomas McDonald worked the paddle, and all went well till the party were in the middle of the stream, when the boat began to fill with water and soon after sank, throwing all the occupants into the ice-cold stream.

Mr. Frank McDonald, who was nearest to his brother's wife, seized her, and together they made for the Island shore, while Mr. Thomas McDonald, in his brave yet futile endeavor to save his daughter, was drowned.

The screams of the drowning party attracted the attention of Mrs. Smith, who lives next door to the McDonald family, and she in all haste sent her boy up the shore to the home of Messrs. Ramsay Brothers for assistance. They came on an iceboat, but too late to save life. Arrangements were at once made to drag for the bodies, which were recovered soon

Meanwhile the rescued couple had walked back to the home, and on reaching the house were in a very exhausted condition. The bodies of the victims were also brought to the home, where they remained over night until yesterday afternoon, when they were removed by Undertaker Millard to his Yonge street establishment and prepared for burial. Later the remains were taken to the home of Mr. John Finch, 65 University street, a brother-in-law. Mrs. McDonald is at present at the

home of her brother-in-law, 469 King street east, and is in a precarious condition, caused by the nervous shock. Coroner Greig was notified, but he deemed an inquest unnecessary, attributing the deaths solely to an accident. It will be remembered that the raft fatality on Sunday, Aug. 21 last, by which four children lost their lives, occurred at the same place as the accident of Saturday.

Toronto Man Mangled. Paris, Ont., March 4.-A man giving his name as John Walder, a cigarmaker, whose home is 56 River street, Toronto, was seriously injured here about 4.15 yesterday afternoon. Walder was on the east-bound mail and in endeavoring to get off at the diamond crossing while the train was still in motion, slipped and was thrown in contact with the wheels. His skull was fractured and the left foot was so badly mangled that amputation above the ankle will be necessary. The unfortunate man was taken to Brantford

THE POPE IN GOOD HEALT

Replied in Good Voice to Congratulations Tendered on His Birthday. Rome, March 3.-The double anniversary of the birthday and coronation of Pope Leo XIII., who was crowned in the Sistine Chapel on March 3, 1878, was begun yesterday. His Holiness was born on March 2,-1810. He was in excellent health when he received the congratulaual difficulties, and it is certain the new | tions of the high prelates in the throne room, and replied in a strong voice. He recalled the demonstrations upon the occasion of his sacredotal and pontifical anniversaries, and protested against the outrages aimed at this enthusiasm, which had few days much of the wreck above water | been allowed to be committed, adding that it was painful that while the aspirations are faithful towards Rome, the sacerdotal metropolis and depository of divine oracles should be wilfully misrepresented. But, continued His Holiness, in order to

console the Papacy for these outrages, God had increased the love of the multi-

tudes for the Papacy in Rome and throughout the entire world. His Head Smashed In. Montreal, March 3 .- At an early hour yesterday morning a tragedy was discovered to have been enacted in a house at the east end of Demontigny street, where a man named William Cog, aged 60 years, was found dead in his chair with his head smashed in. John Nesbitt, a day laborer who also lived in the house, has been arrested, charged with the deed, and his sister-in-law states that the murder was the outcome of a drunken row.

Engineer Hutchison Is Dead. Hamilton, Ont., March 3. - Thos. Hutchison, engineer of the G.T.R. express train which crashed into a freight train near Burlington, died at the General Hospital last evening from his injuries. His fireman, Clark, is pretty low, but slight hopes for his recovery are entertained. Both men were terribly scalded. Hutchison lived on Hughson street south, and had been on the G.T.R. for 25 years. An inquest will be held.

Stableman Fatally Burned. Cobourg, March 3 .- About 3 o'clock yesterday morning fire was discovered in Dr. Moore's livery stables. It was soon under control, and little damage was done to the building or contents. Wm. Dorris, an employe of Dr. Moore, was

asleep in the office when the fire orgin-

ated, and is so badly burned that he

cannot live many hours. Bonus Voted for a Factory. Montreal, March 3.-At Ste. Therese resterday a bonus of \$30,000 was voted by a large majority of the people to George A. Woods, Louis Cleghorn, William Hocking and Alfred S. Peachy, of the Minerva Manufacuring Company of Toronto, to erect their new factory in the

PASSENCERS HAD A SCARE.

C. P. R. Express Thrown From the Track Near Montreal-Nobody Hurt. Montreal, March 3.-Some 15 passen-

gers from Toronto and western points received the worst scare this morning of their lives. At half past seven the C.P. R. express inward, while passing Dorval, about 10 miles from the city, was thrown from the track, four of the five cars, innot a soul on board was injured. The driving wheel of the engine broke, and this was the cause of the accident. Both the engineer and fireman stuck to their respective posts and the locomotive remained on the track. The passenger coaches were thrown over in the snow banks, and although the ladies were greatly alarmed no one received as much as a scratch: A special train was sent out from Windsor station, and the passengers reached Montreal just 25 minutes behind schedule time.

In the spring the young man's fancy, Gently turns to thoughts of "Bicycles."

THE GENDRON BICYCLE.

We have secured the agency of the Gendron Wheels. The Gendron M'f'g Co. claims for their Bicycles perfection in every detail, the most rigid frames and truest bearings. Our '98 model is equipped with the Diamond Pedals, Water's Adjustable Steel or Wood Handle Bars, Brooks', Christie's and the Garford Truss-frame Saddles, and Buckeye Tires. Ladies' Wheels equipped in same manner, all in four grades, Catalogues furnished on application.

SAP PAILS! SAP BOILERS!

Maple Syrup season is at hand. We are manufacturing our own, Sap Buckets and Boilers. Nothing but At material is used. It will pay you to buy our Sap Pails in preference to factory-made goods-they are by far superior.

IT'S EASY TO DYE.

Home dyeing with Diamond Dyes is Pleasant and Profitable

Beautiful and Brillant Colors That will not Fade-Diamond Dyes have Special Colors for Cotton and Mixed Goods -How Wise Women Economize in Hard Times - A Ten Cent Package of Diamond Dyes often Saves Ten

Dollars In these days of enforced economy gown for herself and suit for the little one, or can make her husband's faded clothing look like new. Diamond Dyes, which are prepared especially for home use, will do all this, They are so simple and easy to use that even a child can get bright and beautiful colors by following the directions on each package.

There is no need of soiling the hands with Diamond Dyes; just lift and stir the goods with two sticks while in the

dye bath, and one will not get any stains or spots. In coloring dresses, coats, and all large articles, to get a full and satisfactory color, it is absolutely necessary to have a special dye for cotton goods and a different dye for wollen goods. Bargains in Number. This is done in Diamond Dyes, and before buying dyes one should know whether the article to be colored is cotton or wool, and get the proper dye. Do not buy dyes that claim to color everything, for their use will result

LAWYER FOLEY COMMITTED. Very Strong Evidence Against Him a

the Magistrate's Court.

Paris, Ont., March 3 .- C. M. Foley, the lawyer arrested two weeks ago on charges of fraud, he having approto his own use over \$50,000 of his clients' money, was brought up for hearing before Police Magistrate Powell in the Town Hall here yesterday afternoon. P. D. Crerar of Hamilton conducted the prose-

cution, and George Wells of Simcoe appeared for the defense. Foley pleaded not guilty to all the charges. The evidence showed that Foley had had the entire confidence of his clients, many of whom had handed over their money to be invested in various ways, only getting Foley's receipt for the amount, and in many cases even this was not obtained. Bogus mortgages and receiving money to pay off mortgages, which were never discharged, had evidently been his chief means of swindling, witness after witness telling the same story of paying money to Foley either to lift a mortgage or to take on investment, and which can now be traced no farther than Foley's pocket. Bail was refused and he was committed to stand his trial at the Spring Assizes.

Charcoal Gas Killed Him. Niagara Falls, Ont., March 3 .- Last evening car repairers at the M.C.R. Montrose yards found a man dead in a car of potatoes that had arrived. The man, whose name proved to be John Nagel Field, from Gaylord, Mich., who was in charge of three cars of potatoes, for the purpose of keeping up. the fires, had evidently gone into the car where he was found and started a charcoal fire and fell asleep, and the fumes of the fire smothered him. His friends were communicated with, and are coming to take back his remains.

Disgusted With Alaska. Nanaimo, B.C., March 3.—The steamer Oregon arrived from Skaguay and Dyea, Alaska. She had a number of passengers who are returning home disgusted with Alaska. Before the Oregon left Skaguay seventeen deaths from cerebral spinal meningitis were reported. In twenty-tour hours Dr. O. B. Estes of Astoria, Ore., who was a passenger on the Oregon, predicts that the number of deaths will soon run into the hundreds Manitoba Lievator Burned.

Sydney, Man., March 2 .- O'Reilly's elevator, containing 13,000 bushels of wheat, 3,000 of this stored for farmers, was burned to the ground yesterday. The elevator was owned by James Richardson & Son, of Kingston, Ont.

Bernabe Salls for New York. Gibraltar, March 2.—Senor Louis Polo y Bernabe, Spanish Minister to the Unicluding the sleeper, being ditched, and | ted States, sailed for New York yesterday.
