The Ohio State Agricultural Experiment Station has been experimenting to discover the source of fat in milk. A recent bulletin says that a cow was taining less than two ounces daily of engin fat, and upon this diet she not only gave milk as rich as that produced by her while on ordinary foods, but seemed to grow fat. From food containing only 5.7 pounds of digestible fat, she secreted milk containing 62.9 pounds of fat and gained 47 pounds in weight. The experiment seems to prove conclusively that part, at least, of the fat in latter were summoned to the colors.

### FLOODS IN ONTARIO. MUNYON'S

The Raging Waters Have Caused Much Damage.

ome Idea of the Damage Done at Brant ford, Galt, London West and Hespeler -The Floods Abating, But Still People Fear for the Future-A Concise Statement.

Ottawa, March 15 .- The rapid thaw of last week, supplemented by heavy rains, has caused a great rise in that part of the Rideau River which flows through and near the city, with the result that the low-lying lands on the east bank of the river are submerged and thousands of acres are under water. The villages of Janeville, Clarkstown and the southern end of New Edinburgh, all of which are only separated from Ottawa by the river, are badly flooded, and several hundred | If You Are Ailing, No Matter What persons are practically homeless to-night. their homes being so surrounded by water as to be only reachable in boats, and many of them are so unsafe as to be

The flood is the worst in forty years, and the damage to property is very great. To-day the ice below the railway bridge was blasted away and the water immediately commenced to flow freely into the Ottawa, and it is still falling almost as rapidly as it rose.

Abated at Galt.

Galt, Ont., March 15 .- The Grand River flood has abated and the quantity of water in the cellars of numerous stores and private dwellings is gradually becoming less. Every store on Main street has water in the cellar, owing to the water being forced back through the sewers. Cherry Bros.' storehouse, adjoining the mill, and containing two hundred barrels of flour, was swept away last night, carrying with it another span of the upper bridge. The loss to Cherry Brothers will amount to about \$2,000. The other smaller individual losses will aggregate about \$8,000, making a total of \$10,000, besides the loss to the muni cipality, which will be in the neighborhood of \$7,000. The Galt, Preston & Hespeler Street Railway is unable to run between Preston and Hespeler, owing to the washed-out track on that section of the road. The Grand Trunk Railway have 100 men at work on their line between Galt and Doon repairing the roadbed and replacing rails. It will be several days before traffic can be resumed on that branch of the road.

The Flood at Brantford. Brantford, March 15 .- The water in the Grand River continued to rise until an early hour yesterday morning, when it appears to have attained its highest, at which it remained for some time. In West Brantford the water continues to rush through the streets at great speed. The streets are badly cut up with washout holes, and sidewalks are floating across the street. Communication is made

with boats. The G.T.R. suffered considerably, their track being washed a few feet out of place and considerable of the earth washed away. They had a gravel train and gang at work repairing.

Much Trouble at Hespeler. Hespeler, Ont., March 15 .- Not for many years have the waters of the Speed been as high as they have been to-day. The river is swollen to many times its normal size, and many acres of low-lying farm lands between here and Preston are under water. Several departs in the-Brodie Woolen Mills, Hespeler; Speedsville Woolen Mills and Ferguson & Pettinson Woolen Mills at Preston have been closed to-day on account of the flood. The G. & H. Electric Railway between Preston and Hospeler is inundated in several places and a number of washouts have occurred, consequently there was not a car up yesterday. Preston was in darkness last night, as all the electric light wires between there and Blair, where the power station is situated, are down. The river is slowly receding, and it is expected that the worst is over.

London West Is Safe. London, Ont., March 15 .- All danger from flood in West London is past. After midnight last night the water began to

fall, and last night it was well within its banks. The reports sent to the Toronto papers, stating that 1,500 people were made

LORD SALISBURY MUST REST.

Mr. A. J. Balfour Taking Charge of Foreign Office Business.

London, March 15 .- It is officially announced that the Marquis of Salisbury was greatly fatigued by Friday's Cabinet Council, and a return of weakness, following the attacks of influenza, supervened, with the result that Sir William Broadbent, the famous physician, advised the Premier to take a complete rest in -Harper's Magazine for April will the South of France. Mr. A. J. Balfour, the First Lord of the Treasury, and Government leader in the House of Commons, so far as necessary, is now dealing with the Foreign Office business. The Press Association says it is authorized to declare that the rumor that the Marquis of Salisbury contemplates resigning

The Marquis starts for Beaulieu in about a week's time and will stay there

Walked 65 Miles to Court. Toronto, March 15.-Charles Robinson of Eudora on Saturday received a subpoena to appear at court here as a witness in the case of the Queen v. Cook. He hadn't any money, but believing the summons to be imperative, set out to walk to the city. The distance from Eudora to Toronto is 65 miles, but Mr. court at 10 o clock yesterday morning.

Drove in Front of an Engine. Cobourg, March 15.—Geo. Cockburn and Hugh Maher, of Baltimore, drove across the Division street crossing of the fed for ninety-five days upon food con- Grand Trunk in front of a shunting

Mr. Cockburn has several fractured ribs and internal injuries, while Mr. Maher is nursing a broken collar bone.

Are Canadian Reserve Men Liable. London. March 15.-A rumor was reserve residing in Canada would be called out simultaneously with those of Great Britain and Ireland, when the milk is formed from the carbohydrates | Enquiry at the war office has utterly failed to substantiate the report, and military men generally discredit it.

> Cotton Workers Return to the Mills. Taunton, Mass., March 15 .- The 1,100 operatives of the Whittenton Cotton Mills returned to work yesterday. They seemed glad of the opportunity to resume. The monetary loss to them during the strike has amounted to about \$40,000.

It is sometimes a fortunate thing t be shot at. King George of Greece was very unpopular a short time ago, and so unhappy was he in consequence, that it was said he seriously contemplated abdicating. To-day he is one of the most popular men in Anthens, all be- States and Canada. There is scarcely cause of those shots that were fired a town or village in either country at him a few days ago. The practice would not be without its risks, but it might be worth the while of public | constantly on the road, covering every men, whose popularity is on the wane, to offer themselves as targets.

'Promotion of General Happiness' Is secured by Nerviline-the great nerve-pain cure. The highly penetrating properties of Nerviline make never failing in all cases of rheumatism, neuralgia, cramps, pains in the back and side, lumbago, &c. We heartily commend it.

homeless, were pure exaggeration.

Mrs Hooper Cured of Female Weakness by Dodd's Kidney Pills.

Norwich, Mar. 14-The evidence of Stanley Hooper, farmer, living near Norwich, in the case of Dodd's vs. Disease, was as follows :-"My wife suffered for twelve years with Female weakness. The best doctors attended her. She used many

remedies, but neither doctors or remedies did her the least good.' "Finally I tried Dodd's Kidney Pills One box worked wonders. Four boxes cured her. She is as well now as she ever was. Dodd's Kidney Pills, cured The judge charged in favor of Dodd's. Verdict was unanimous. "Dodd's

Kidney Pills are the only known cure for diseases of women." This accords fully with popular feel-

Safety In Buying Seeds

There is no other way to measure the value of the seed than by the value of the crop. A good crop simply cannot come from poor seed. Secondrate seeds will waste good land, good fertilizer, and good labor, and the crop won't pay expenses. Now, as the practical farmer cannot afford to waste time stands to reason that the only safe way to buy seeds is to seek the pro tection of a name that has stood for reliability in the past. The great seed house of D. M. Ferry & Co., of Windsor, Ont., has sold seeds all over the United States for the last fortytwo years, and the steady growth of the business is a sure indication that Ferry's seeds have given satisfaction. Ferry's Seed Annual for 1898, a standard guide for farmers and gardeners, containing much valuable information, is sent free to persons writing for i

AN IMPORTANT INDUSTRY.

In the minds of most people the manufacture of paints and colors is not thought of much importance, and this branch of business is little understood by the public generally.

Twenty-five or thirty years ago paint was made in a very crude way, and consisted mainly of grinding white lead and colors in oil-the mixing, or preparing for use, being done by the To-day it is different. This branch

of business, like all others, has made rapid improvements. The best paint is now made ready for the brush Paint for every purpose can be bought ready to put on. This change has been brought about

by the application of special machinery for the fine grinding and thorough mixing of the different pigments and ingredients. This, with skilled labor, produces paints better and cheaper than under the old method. Much of the improvements and ad-

vancement in paint-making is due to the Sherwin-Williams Co., who are without doubt the largest manufacturers of paint in the world. This company has an extensive plant-the largest of the kind in existence-at Cleveland, Ohio. It will give an idea of the extent of their premises when it is stated their floor space exceeds nine acres. Many thousands of gallons of paint ready to use is delivered out every day. Besides the Cleveland plant the Company have their own factories at Chicago and Montreal, Canada, also branch houses at New York

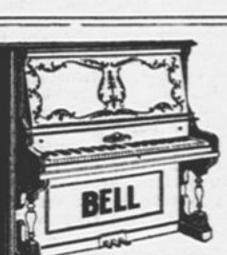

and Boston The Sherwin-Williams Paints are used by the principal railways and steamship companies in the United SATURDAY, the Second Day of APRIL where the well-known S. W.-P. may not be obtained. Fifty travellers are point of the continent in the interests of the extensive business.

The business was built up from small beginnings, and its great success is due largely to the fact that from the start the proprietors have never allowed more than one quality-the best they could make-to go out under their label. The result is wherever The Sherwin-Williams name is found on a package of paint it stands for the best that there is in paint.
