

# THE GREAT SALE OF THE ARMY AND NAVY BANKRUPT STOCK

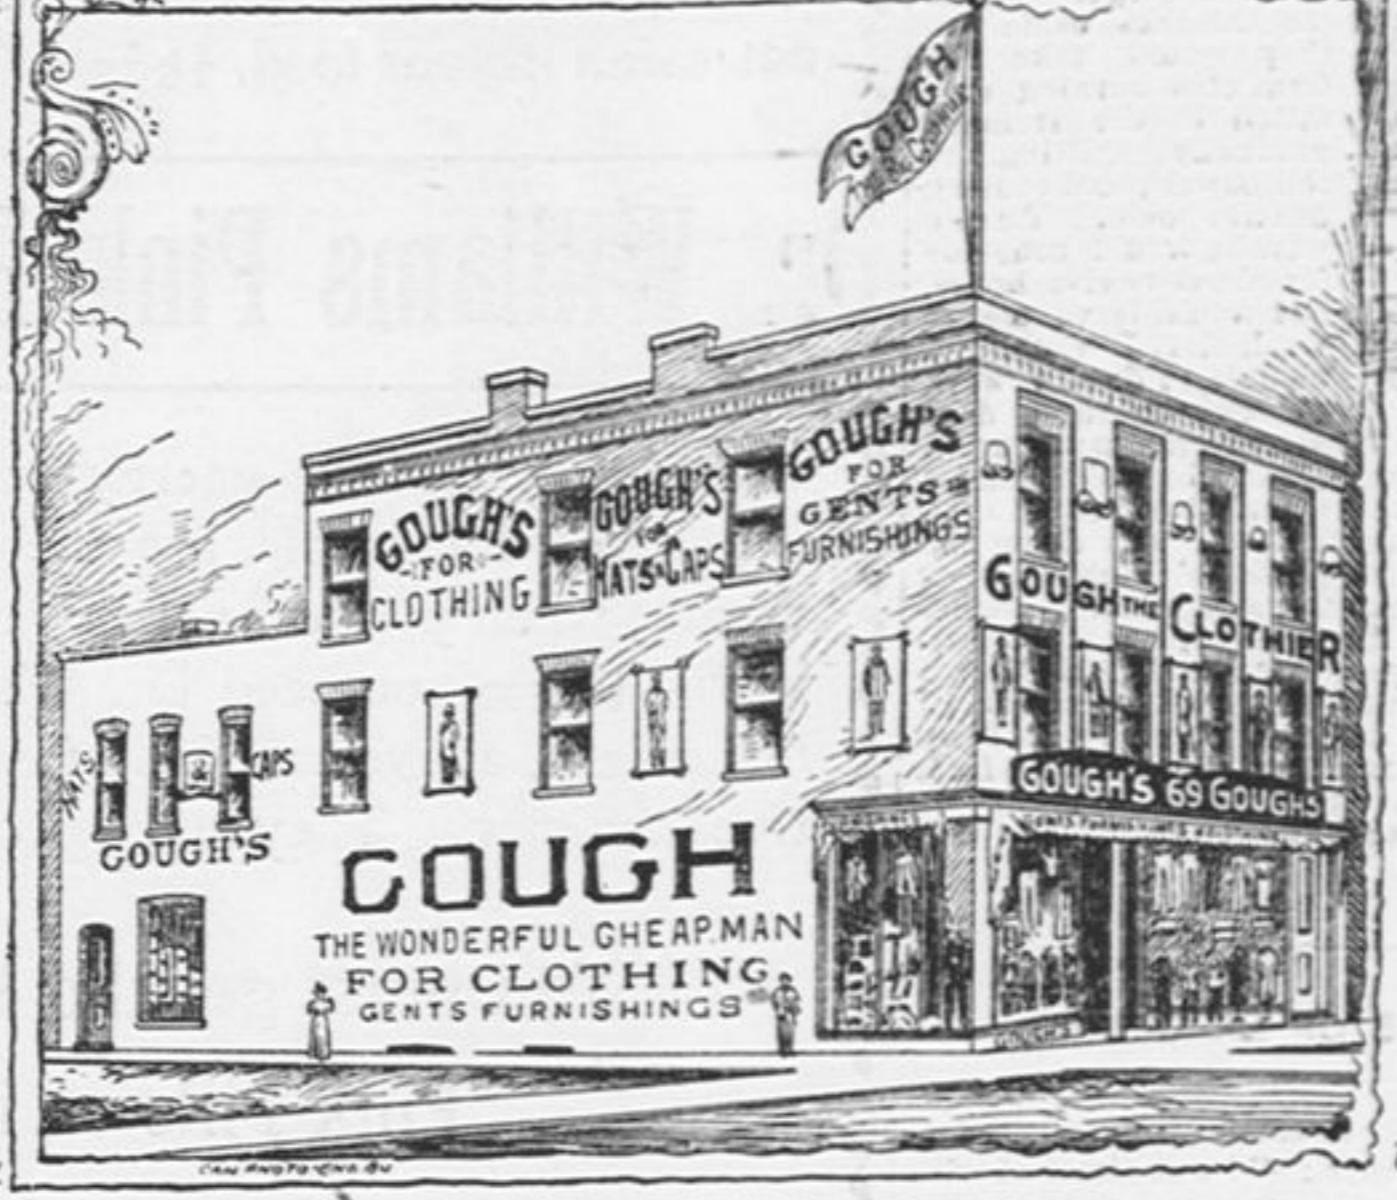

HAS BLOWN ALL OLD VALUES OUT OF SIGHT AND PRICES OF SIX WEEKS AGO ARE NOW SPLIT TO SPLINTERS.

HEAR WHAT WE SAY ABOUT THESE GOODS:

**There's No Mystery about Gough's Way of Doing Trade,** and he wants to drive home the facts. One man's extremity is another man's opportunity. Our grip on the market has brought THIS BONANZA to our Counters.

**We Want the Public to Know Just What We Offer.**

When we say the Goods are Bargains they are positive. When we say that no such a picnic was ever before offered we have the Goods to back up the statement.

**WE WANT EVERYONE TO COME TO THIS GREAT SALE** and see what we are doing. Drive in if you can, come by water, by stage or on foot, for there is money for you in the expedition, but that there shall be no excuse.

**We will Pay the Railroad Fare of any Passenger within the Radius of Twenty-five Miles, who comes to this Great Sale and buys \$10.00 WORTH OF GOODS or Upwards.**

**WE NAIL THE FLAG OF CHEAP AND GOOD CLOTHING, OF BRILLIANT, SPARKLING BARGAINS, TO THE MAST** and defy any Clothier on Earth to Lower our Colors.

**LOCAL NEWS-LETTERS**

**MOUNT HOREB.**  
(Special Correspondence to The Post.)  
Mr. John Sluggert has purchased the farm owned by Mr. S. McGill. We wish him every success in business. Mr. Thos. Dillon is moving into Cartwright. He being in this place ten years, we wish him success in the change.  
Mr. James Moore has erected a new driving house, and transfigured his house. Every building is now in first-class shape, and Jim is on the hill. The contractor for the buildings was Wm. Shaw, of Omeuse; and the mason work was done by Mr. Walker, Janetville.  
Mr. Hermon Hart, of Hill Head, has removed to Mr. Bolton's farm.  
The wood yard in Mount Horeb, owned by Elliott, of the Elliot house, is about filled. Any person wanting wood can be supplied on the shortest notice.  
Mr. McNevin is now living in his new house, which is a credit to him

and the surrounding country. We wish Mr. and Mrs. McNevin and family success in their new home.

**EDEN, THORAH.**  
(Correspondence of The Post.)  
The weather during the past week has been very lamb-like for the first of March. We will likely have to make up for it later.  
Much satisfaction is expressed in the neighborhood over the results of the elections.  
Meadies have put in an appearance in the neighborhood.  
The spring floods have passed away. Very little damage was done.  
Several Eden fishermen have given up fishing through the ice in despair, having had very poor success.  
A very pleasant time was spent at the residence of Mr. A. McPhaden on Friday evening. In spite of rain, darkness and mud, a large number were present, who indulged in the "light fantastic" until an early hour.  
Mr. McPhaden intends to remove to the farm lately occupied by Mr. J. Little. We wish him every success in the new venture.

**OAKWOOD.**  
(Correspondence of The Post.)  
Our cheese factory company have appointed their officers and directors and building committee, and a site has been chosen wisely and every thing goes on nicely, and the calculation is to have everything ready for the opening early in May. The old steam mill site at Centre Oakwood has been secured.  
We are favored with an abundance of kangaroo the road this spring, and some come with double purposes (and one especially)—to see some of our pretty girls, and we have the pretty girls too.  
A number of our citizens leave this morning for the prairie provinces by the Grand Trunk, via Chicago and St. Paul, among others Frank Smallwood and family, W. H. Webster and Mrs. Webster and two sons, Elmer and Otis. Mr. and Mrs. Webster will remain for the summer only.  
We are sorry to announce some illness among us; amongst others Mrs. A. O. Hogg is quite ill.  
(From another Correspondent.)  
We are glad to be able to report the children of Mr. R. J. Sheridan are recovering after their prolonged illness are pushing things forward with a will; the territory is a large, as well as profitable one, and we predict that the undertaking will be a very profitable one, also a great convenience to the neighborhood.  
Our local horse trainer has another on hand. After the cart is repaired, we expect it will be only a few days until he will have the colt quite tame. Charlie understands how to do the job.  
On Tuesday evening, in the Methodist church, the young people intend to have a debate, the subject, "Prohibitory legislation is not the best method of dealing with the liquor business."  
The trial of W. H. Park, of Manilla, came off in the town hall yesterday. Much interest was taken in the matter. The sympathy of the people seems to be divided—would it have been so had the defendant been charged with violating any other law on the statute books than the liquor law? The people have demanded the law, what are they going to do with it? The de-

cision in the case was adjourned. Land is selling at good round figures still; the old Parkinson homestead and acreage, for \$50 per acre. The Foresters are steadily increasing in numbers. A good sound insurance is sure to be appreciated as it becomes well known.

**WOODVILLE.**  
(Correspondence of The Post.)  
On Monday night, the 14th inst., a supper was given by Mr. Michael McGowan, of the Royal hotel, on behalf of the young men who are about leaving for Manitoba and other places. Mr. Cronberry goes west as far as the coast to act as agent for the Messer-Harris Company. Mr. J. Staples will leave on an early date for the Military School to qualify himself as captain of his company in the 16th Battalion, and prepare himself to take command of an American brigade, should a war arise between the U.S. and Spain. Lastly, the two sons of Dr. McKay, late M.P.P., they go to the farm lately occupied by Mr. J. Little. We wish him every success in the new venture.

**FRANKLIN.**  
(Correspondence of The Post.)  
The mantle of white, which has so nicely covered the ground, and was so convenient to the people during the past three months, has disappeared. Now, people are wondering if spring is near at hand.  
Our worthy blacksmith, Mr. Spiers, is kept busy at the anvil now.  
The election, which is to take place in this part, the 18th, for the commission, helps to fill in the evening's talk about the village.  
Mr. Kincaid, the village of Manvers, was in the locality purchasing hogs the beginning of this week.  
Mr. Swain, the popular music teacher, has again put in his appearance in this part. The roads were not very good for awhile, and as he has so many pupils, he found it impossible to attend his duties.  
Mr. David Falls, the Cavan assessor, was in this part the latter part of last week.  
Mrs. F. Vesla, who has been spending a week's holidays with Reardon relatives, has returned home.  
On Tuesday, March 8th, the wife of Mr. Wm. Whiteside presented her husband with a young daughter. Mother and child are doing well.

**Oakwood Cheese Factory.**  
A long procession of wagons, loaded with lumber from Kennedy, Davis & Son's yard, passed up Kent-st. yesterday morning and led to many enquiries as to the destination of the vehicles. It appears that the holders of stock in the cheese factory to be built near Oakwood made a "bee" to haul the lumber and other supplies, as work on the building will be commenced in a few days. The location selected is the site of the old Piper mill at the creek, a short distance 28 ft. wide and 60 ft. long, exclusive of boiler room, and will have a projection over the curing room to afford protection from the sun and during wet weather. The shareholders have planned the building with a view to turning it into a creamery in the fall. The prospects for the new factory are very bright, and the output will likely be large, as a number of farmers as far away as Manilla have taken stock and will send milk daily, and it is expected that the farmers of West Ops will also become patrons, as the charge for drawing will be the same to all, thus placing the distant patrons on even terms with those living close to the factory. Following are the officers: President, Wm. Jordan; vice-presidents, C. Good, Wm. Chapman; sec-treas., A. O. Hogg. With such men at the head of affairs the success of the factory is assured. It is expected that the building will be ready for the cheesemaker about the middle of May.

**IMPORTATION PROHIBITED.**  
American Nursery Stock Barred Out of Canada.  
**SAN JOSE SCALE BILL PASSED.**  
Hon. Mr. Fisher's Measure Granted Emergency Treatment With the Consent of the Leader of the Opposition—Yukon Railway Bill Passed Also—The Sunday Newspaper Bill.

Ottawa, March 17.—The House yesterday adopted a measure which it is hoped will protect this country from the invasion of that dread scourge, the San Jose scale, whose ravages among the fruit trees in the United States have been so disastrous. The Minister of Agriculture introduced a bill which empowers the Governor-General in Council to prohibit the importation of fruit trees from countries where the disease exists. He asked the House to suspend the rules and pass the bill through all its stages, so that its object would not be defeated by the American nurserymen sending in cartloads of stock in anticipation of such a prohibition. Sir Charles Tupper willingly acceded to this proposal, and was evidently anxious to see the bill passed as were the members of the Government. The only opposition came from Messrs. Charlton and Ellis, the former of whom maintained that the bill was too drastic, and the latter that it involved a protection to nurserymen and fruit-growers inconsistent with the free trade principles which he was sent to Parliament to represent.

**The Yukon Bill.**  
The Yukon Railway bill was put through its final stage in the House without serious opposition, and sent over to the Senate to be passed upon by that august body. Mr. Quinn of Montreal introduced an amendment to the motion for the third reading, providing for the capitalization of the Yukon Railway Co. at \$10,000,000, divided into \$1 shares, to be offered for subscription by the Canadian public until September 1, 1898. No vote was demanded, so little was the faith of the Opposition in Mr. Quinn's creation, and the bill was declared carried "on division," which is the Parliamentary method of indicating the disapprobation of the minority without actually dividing the House.

**Sunday Newspapers.**  
The annual discussion of the question of Sabbath observance took place upon the bill of Mr. Charlton to prevent the publication and sale of Sunday newspapers. In committee two amendments were offered, one by Mr. Fisher to prevent the sale in Canada of any newspaper published on Sunday, and one by Mr. Hughes, prohibiting the sale of any commodity on Sunday. After four hours of discussion the committee rose without coming to any decision.

**The San Jose Scale Bill.**  
Mr. Fisher introduced his bill to pro-

hibit Canada from the insect pest known as the San Jose scale. He said great injury was being done to fruit and other trees by this insect, which reproduced itself by millions in one season. The bill proposed to prohibit absolutely the importation of nursery stock of all kinds from countries where this insect largely prevailed. It was proposed to apply it at once to the United States, Japan and Hawaii. He asked a suspension of the rules to rush the bill through in order to prevent spring importations of nursery stock. He was glad to acknowledge the courtesy of the Opposition leader, who had promised his co-operation in facilitating the progress of the measure.  
Mr. Macdonald said he was glad to hear of the Minister of Agriculture adopting a national policy, although in an indirect way. The Mother Country and Germany were taking steps such as Mr. Fisher proposed. The Government should not only prohibit the importation of nursery stock, but the pest ought to be stamped out in those portions of Canada where it now existed, as, for instance, the Niagara Peninsula. He was glad to learn that the Government proposed to protect our own nurserymen.  
Mr. Charlton said the bill was a most drastic one. It was not called for by the fruit interests of Canada. The bill was an arbitrary and sweeping one in its character. It was a measure of non-intercourse.  
Sir Charles Tupper said this was an occasion on which either the Government must adopt a drastic policy or fall in the object they had in view. Mr. Fisher had satisfied him that the measure should be passed without a moment's unnecessary delay.  
Dr. Sproule approved of the measure, but was surprised it was not introduced a month ago, as spring deliveries of nursery stock from the United States were now being made in Western Ontario. He believed the bill was in the best interests of Canada.

Mr. Henderson favored the bill, only he thought it didn't go far enough. He would like to see fruits as well as nursery stock included in the bill.  
Mr. Gibson supported the bill, as also did Mr. McCleary, who rallied Mr. Charlton upon his pro-American proclivities.  
Dr. Borden, Minister of Militia, didn't object to the bill, because it incidentally protected the Canadian fruit growing industry.  
Messrs. McMillan, Casuvin, Hughes and Erb favored the bill, only they thought the Minister of Agriculture should take power to deal with the pest in Canada.  
Mr. Bain, Chairman of Agriculture, deprecated the attitude of Mr. Charlton, pointing out that power was given the Government in the bill to declare any safe district free from the operation of the Act.  
Mr. Bostock, speaking for British Columbia, supported the bill.  
Mr. Ellis (Liberal, N.B.) regretted to observe in this drastic measure the entering of the thin edge of the wedge of protection to the fruit growing industry in Canada.  
Dr. Montague replied that the hon. member's free trade instinct might find more serious scope for exercise upon other points of his Liberal friend's policy. For himself, he supported the bill, and congratulated the Minister upon its introduction.

**THE YUKON BILL PASSED.**  
The special orders of the day were reached, the motion for the third reading of the Yukon Railway Bill.  
Mr. Kaultbach, in a brief speech, spoke himself on record as opposed to the bill.  
Mr. Quinn moved to substitute the following amendment in place of the bill:  
"That the capital stock of the company shall be \$10,000,000, divided into shares of \$1 each, the whole of which shall be first issued for subscription to the Canadian public, and left open for subscription until September 1, 1898. No individual shall be allowed more than 1,000 shares, but should the whole sum of \$10,000,000 be not then subscribed, any person shall have application for shares, and be allowed to take up any portion of the balance remaining unsubscribed. The event of applications for stock in excess of the \$10,000,000 being received, the shares shall be allowed pro rata to each subscriber."  
"The ownership of the railway and contractors' interest in their construction the Government shall be acquired by the company by paying to the contractors the amount expended by such contractors for the construction of such railway, with a profit of 25 per cent. on the expenses so made by them."  
The amendment was lost. The bill passed its third reading on division.

and see what we are doing. Drive in if you can, come by water, by stage or on foot, for there is money for you in the expedition, but that there shall be no excuse.

Remember it's a Great Sale, a Triumphant Sale, and for the BIGGEST BARGAINS ON EARTH You will miss the chance of a lifetime if you don't take a friend's advice and follow the crowd to GOUGH'S.
