Clinton, Feb. 22.—One of the most enthusia stiemestings was held in the Town Hall here on the evening of polling day on hearing the news of the return of the front Bob, namely Robert Holmes of Clinton, member-slect for the West Riding of Huron by a handsome majority of about 120. The Town Hall was growded to the doors by the electors. Mr. William Robb, being moved to the chair, called upon James Scott, barrister, E. Holmes and Alex. Armstrong of Clinton, and D. McGillicuddy, editor of The Goderich Signal, the old standby of West Huron, and the member-elect. All the speakers spoke in glewing terms of the noble work done on behalf of Mr. Holmes, paying a tribute to the many Conservatives who threw in their support for Laurier and good government. Mr. Holmes, the slected member, was then called upon, and heartily thanked all his supporters for this grand victory. Canadian Lumber for England. Toronto, Feb. 23.-In an interview yesterday, C. E. Newton, the big lumber man of Midland, who has just arrived from England, said, "I have been watching the sales of Canadian lumber in From my personal experience I can say England, and the sales and enquiries for that it is not necessary to take a glass of Canadian pine, oak and butternut were wine or a cigar in order to be thought phenomenal. I found Canadian pine manly. For above 40 years-from the bringing at least 15 per cent. higher position of an office boy, without any prices than either Norway or Swedish pine, England's great source hitherto. The Scandinavian lumber is too parrow and'is rapidly going out. In a number of cases the contract for English houses expressly specified Canadian pine. A condition necessary to place Canada in the liquor or a cigar. Nor is it necessary for lead as a lumber exporter to Europe would be to charter a vessel, a syndicated affair, and get the lumber over that way. I believe this is the way to solve the problem of cheap transportation, and it

should be done right away." SULTAN BROUGHT TO TIME.

Cuble News. Paris, Feb. 22.—President Loubet, in his message, submitted to both Houses yesterday afternoon, said the regular transmission of power to the new President proved France's fidelity to the Republic, at a time when certain misguided persons were seeking to shake the conndence of the country in its institutions. The President dwelt upon the necessity of appeasament, union and respect for the essential organs of society, Parliament, the magistrature, government and the national army. He concluded with recalling the work of the republic, which, he asserted, assured liberty and peace; had founded a great colonial empire and had concluded alliances and precious friendships. The Chamber of Deputies was crowded

when M. Loubet's message was read. It was greeted with bravos. The House adjourned until Friday. The Senate received the message with similar approval, and passed the credits demanded to defray the expenses of the funeral of the late President Faure.

This is the tenor of advices received from Skaguay yesterday by the steamship Farnallon. Startling news was brought out from the interior Feb. 16 in a letter written by John McCarthy, correspondent of the Skaguay newspaper. Its publication on the following morning caused great excitement in Skaguay, although no details of the threatened rebellion were

According to Mr. McCarthy's letter, British and Canadian subjects, together with a few Americans, whose claims are included in the recently announced Government reservation of five miles along the west shore of Lake Atlin, have banded together and pledged themselves to resist the proposed forfeiture of their mining claim town lots to the Government without trial of their rights or judicial process of any description.

A petition has been prepared and extensively signed, binding signers to every means in their power to defend their property, even by resort to arms. The conspiracy of the injured miners was discovered only when a copy of the petition fell into the hands of Deputy Recorder McVicar, who reported the matter to the gold commissioner, who has a force of police and constables to back up his forfeiture order.

In Skaguay, where the facts are well known, public sentiment is practically unanimous in upholding the signers of the petition. The reservation includes many hundreds of the most valuable mining claims in the district, as well as the town site of Atlin.

S. Itais signed: Dr. Calder, coroner; James Rae, foreman, and William Cousins, James Mitchell, B. P. Lewis, Warren Shoebottom, Christopher Lean and H. C. Yuill, jurymen. into the dealings of William Muir, Benjamin French and Robert Long, find that they came to their death as the result of an accident on the C.P.R. Co.'s bridge here, through one freight train

From the evidence given we cannot attach any blame to any of the men but feel that some provision should have been made by the C.P.R. Company to prevent such an accident from cocurring, either by having an operator at Stair or a safety switch west of the bridge, as the hill, under certain circmatances, is certainly dangerous."

Toronto, Feb. 23.-At a crowded smoking concert held by the Conservatives of the Third Ward in the Pavilion last night Sir Charles Tupper, Mr. N. Clarke Wallace, M.P., and Mr. J. P. Whitney, M.P.P., discussed the Washington negotiations and indicated the policy that the Conservative party will pursue. Sir Charles spoke for over an hour with astonishing vigor. He took the position that the British commissioner license commissioner in 1899 and Mayor should have broken off all negotiations their position on the Alaskan boundary, Commons at a bye-election April 27, which he characterized as a monstrous insult. In the same spirit that Lord Rosebery came to the support of Lord Salisbury during the friction with France, Sir Charles advised the Government to pursue a policy of retaliation toward the United States and promised to support the Government in such a policy. Mr. N. Clarke Wallace, whose appearance on the same platform as Sir Charles Tupper was in the nature of a surprise, endorsed what Sir Charles had said about the return of the commissioners to Canada, and blamed them for tying the hands of Parliament during the coming session by adjourning the conference. The Pavilion was well filled with hard-smoking men. Dr. Beatty Nesbitt, president of the association, presided, and on the platform were Sir Charles Tupper, Messrs. N. Clarke Wallace, M.P., E. B.
