

Dr. Williams' Pink Pills

CURE WOMAN'S ILLS.

HEADACHE AND DIZZINESS CURED

Miss Leba C. Schilling, Peninsula, Gaspe, Que., writes: "I had been suffering for some time with a weary feeling. I had not strength to walk about. I suffered from headaches, dizziness and poor appetite. I could not walk even a short distance without being completely out of breath. I took no interest in anything, as I thought nothing could do me any good. A friend advised me to try Dr. Williams' Pink Pills. I had only taken them for a short time when I noticed a great improvement in my health; I was strong enough to walk a long distance without resting, could eat better and felt better in every way. I would recommend Dr. Williams' Pink Pills highly to all other sufferers, and think they will be surprised at the results obtained from their use."

ANAEMIA CURED

Mrs. M. N. Jones, Berthier, Que., writes: "My daughter, aged fifteen, has been restored to good health through the use of Dr. Williams' Pink Pills. She was very feeble, her blood was poor and watery, and she was troubled with headaches, poor appetite and always felt tired. After using four boxes of Dr. Williams' Pink Pills she is enjoying as good health as any girl of her age, and we give the credit to your grand medicine. Mothers will make no mistake if they insist upon their young daughters taking Dr. Williams' Pink Pills."

NERVOUS AND WORN OUT.

Mrs. Peter Mahar, Seal Cove, Que., writes: "It gives me great pleasure to acknowledge the benefit I have derived from Dr. Williams' Pink Pills, for I believe had it not been for their use I would now be in my grave. My health was broken down, and the least exertion would fatigue me. I was troubled with dizziness, shortness of breath, and palpitation of the heart; my appetite was feeble, and I was extremely pale. I gave the pills a fair trial, and they have restored me to good health, and I can do all my household work without experiencing the least fatigue. Dr. Williams' Pink Pills are the best tonic I know of for weak, tired and pale people."

Woman's Work

Woman's work, whether in society or in the home, is filled with more or less care and worry, and they are compelled to regretfully watch the growing palor of their cheeks, the coming wrinkles, and thinness that become more distressing every day.

Every woman knows that ill-health is a fatal enemy to beauty, and that good health gives the plainest face an enduring attractiveness. PURE BLOOD, and STRONG Nerves is the secret of Health and Beauty.

DR. WILLIAMS' PINK PILLS

for PALE PEOPLE

build up and purify the blood and strengthen the nerves.

To the young girl they are invaluable; to the mother they are a necessity; to the woman at forty-five they are the best remedy that science has devised for the crisis of her life.

The wonderful success of this remedy has led to many attempts at imitation and substitution, but these never cured anyone. Refuse any package that does not bear the full name "Dr. Williams' Pink Pills for Pale People." Sold by all dealers, but if in doubt, send to the Dr. Williams Medicine Co., Brockville, Ont., and they will be mailed post paid at 50 cents a box, or six boxes for \$2.50.

A NURSE'S SECRET

She Tells How She Saves Mothers' Lives and Restores Health to the Critical Time of Maternity.

No woman is better fitted for nursing, or has had more years of practical experience in that than Mrs. Moses Morris, of 340 Fourteenth Street, Detroit, Michigan. For twenty years she has been recognized as the best and most successful nurse in confinement. When asked once by a leading physician the secret of her great success in treating mothers in confinement cases, she said she used Dr. Williams' Pink Pills for Pale People in such cases, as they build up the mother more quickly and surely than any other medicine she had ever used.

Mrs. Morris was seen at her home on Fourteenth Street, and when asked for the name of the pills in her profession, said: "I have used Dr. Williams' Pink Pills for Pale People since they were put on the market, and so nervous I could not get any rest. After they had helped me I began to use them in restoring mothers. There is nothing that can be prescribed or given by a physician to a mother so quickly as Dr. Williams' Pink Pills for Pale People."

"I have taken them in hundreds of cases of nervousness to the mother, and it is wonderful how they build up the system. I have practically demonstrated their great worth many times, and have recommended them to my friends. Yes, I have been successful in confinement cases, but I must give Dr. Williams' Pink Pills for Pale People a great part of the credit for certainly having no equal as a strength and health builder. You can say for me that I strongly advise that Dr. Williams' Pink Pills for Pale People be kept and used in every house."

NERVOUS TROUBLE CURED

Mrs. Jas. Pryce, Glen Adelaide, N. W. T., writes: "I suffered very much from nervous trouble, at times so bad I could not sit still in a chair. I took doctor's medicine for months, but it did not do me any good. My husband urged me to try Dr. Williams' Pink Pills and they have done me a world of good. I can heartily recommend them to nervous sufferers."

Local Brevities

Hood's Pills cure nausea, sick headache, biliousness and all liver ills. Price 25 cents.

Another furnace is about to be placed in the basement of St. Mary's church.

McPherson & Co., of Longford, who have been lumbering in Anson township since September last, have made a big cut in logs.

Game Warden Smith, of Belleville, has fined three residents of Bancroft district \$20 each, with costs for killing deer out of season.

Local Brevities

An accident occurred at the Sylvan mill on Monday morning, resulting in some machinery being damaged to the extent of about \$50.

Mr. J. J. Stewart, representing Toronto parties, is buying potatoes and turnips in the locality. He wants to see a big cut in logs.

It may interest merchants and shoppers here to know that a bill has been introduced into the legislature making the cash coupon system in use in many cities and towns in Ontario illegal.

Mr. Wm. Cresswell, shanty foreman for the M. Boyd Co., has contracted to take out the mill's logs, and has probably made contracts with a number of other firms as well.

Our old friend, Lyman Minthorne, was in town last week receiving the congratulations of his friends on his appointment as hall-keeper of the sixth division court (Oakwood), vice W. H. McLaughlin, resigned.

Mr. Teddy Saint, of Oshawa, has been working in carrying factories in the vicinity of the mill, and has been the victim of frequent accidents. He now has only three and a half fingers and one thumb left, and is beginning to think that his luck is devilish, rather than saintly.

Local Brevities

What about the caterpillar pest? There is every reason to believe that the plague will be much worse this season than last. From now out everyone that values his shade and fruit trees should collect and destroy every caterpillar bracelet that can be found.

"Kitchener is coming!" announced Mr. A. D. Mallon last week as he headed into our sanctum. And Arthur ought to know, as he spent 48 hours in the city—at his own expense—and did some effective lobbying in legislative corridors in aid of the Sylvan and Kitcheners.

Beyond doubt the use of electricity in clearing frozen water pipes is a pronounced success. Mr. Reesor and son Walter, encouraged by the success met with at St. Andrew's church, recently made another trial at St. Mary's church last week, where the pipes had been frozen for over a month. A current of 68 volts was used, and the result was equally satisfactory, although a longer time elapsed before the water started to flow.

Capt. Edward Smith and gang of Know-nothing's camp at Deer Bay, below Becho, where they had been cutting cordwood since November. Most of the men there were 35 men and half-a-dozen teams employed, and over 2,000 cords of long and short wood have been cut and piled convenient for loading on scows next summer. The Lindsay men made the trip from camp in sleighs, following the ice from Becho.

The other day the indignation of a gentleman who has been a resident of the town for only a few weeks became fanned to a high pitch at sight of a farmer discharging a mercenary in his livery. "Where is he going?" he asked. "Where I am going," replied the farmer. "Where I am going?" he asked. "Where I am going," replied the farmer. "Where I am going?" he asked. "Where I am going," replied the farmer.

Local Brevities

Mr. Wm. Way had the misfortune to dislocate his wrist while performing in the gymnasium last week.

Who was it? A young gentleman an ardent admirer of the fair sex strolled up to the Assembly hall, one day this week, to watch some young ladies trip the gay fantastic. While he was deeply engrossed in the situation one of the boys shoved him in and locked the door. The fair ones, making in the situation, fled and locked their door, leaving the poor boy to climb out through the window.

The usual meeting of the Literary Society was held on Friday evening, and it being the last meeting of the society a special program was prepared, and for the same reason also the meeting was attended rather better than usual. The minutes having been read and approved of, the program was commenced. The first item was an exhibition of club swinging by a class of five young ladies. This feature was immensely popular, especially with the boys, who are not used to such performances, and who admired their appreciation by a round of applause. Next Misses Flavelle and Harding rendered a piano duet, though the piano was in a manner, the principal feature of the program, however, was the reading of an essay on "The Post Browning" by Mr. Collins, our popular classic reader. The essay was both interesting and instructive, and the rapt attention given was in itself sufficient evidence of its projection. Mr. Frank Manning followed with a very good and timely paper on "The Poet Browning," and justified his reputation as a good singer. The Society organ, "The Pan-Cosmic Review," was now read by the editor, and was a model of wit and humor. The meeting was closed by singing "God Save the Queen."

RHEUMATISM'S ORGIES

The Relentless, unrelenting Pain Gnat is Shorn of His Strength by the Aid of South American Rheumatic Cure — It Never Fails.

Mr. Duncan McIntyre, of Mount Forest, says: "I was sorely afflicted with rheumatism for over a year. I was almost totally disabled and at times suffered agonies of pain. I tried many remedies and without avail until I began using South American Rheumatic Cure. I derived great benefit from one bottle and was so pleased with the results I continued using it, and in a few days I was able to get on from rheumatism is to use this great remedy. I feel satisfied it is the greatest of rheumatic cures." Sold by A. Higinbotham and P. Morgan.

He Was a Trifle Slow

In a rural district of Renfrewshire a young ploughman went a-courting one Saturday night. In vain he racked his brain for some interesting topic; he could call up no subject at all suitable for the occasion—not one word could be uttered, and for two long hours he sat in silent despair. The girl no doubt remembered the teaching of the old Scottish song, "Men may be the first to speak," and she sat patiently regarding him with demure surprise. At last John suddenly exclaimed, "Jenny, there's a feather on your apron!" "There's a feather on your apron?" "I've been sittin' aside a goose a night."

Public Library Notes.

Application for borrower's ticket may be made to the librarian any evening this week, and Tuesday, Thursday, and Saturday afternoons from 3 to 5 o'clock.

The following books are still out: kindly return at once and save fines: That Frenchman, Gaster; By Elyse and Henry; The Adventures of Harry Richmond, Meredith; One Who Looked On, Montrose; A Gentleman Vagabond, Smith; A Roman Singer, Crawford; The Iron Claw, Clax; Ivanhoe, Scott; Wigwam and Warpath, Hope; Ernest Bracebridge, Kingston; Little Dorrit, Dickens; Our Mutual Friend, Dickens; St. James, Ainsworth; The Trials of a Pioneer of the New World, Bonnard.

To Guard Against Smallpox.

The board of health met on March 16th, at the clerk's office, the members being Chairman Keith and Messrs. Mills, Staples, and Mayor Walters. Dr. McAlpine, medical health officer, and Dr. Douglas, health inspector, were also in attendance. The M.H.O. read a letter received from Dr. Bryce, secretary of the provincial board of health, urging the use of a general system of vaccination in view of the fact that smallpox has made its appearance in several places in Ontario and Quebec. The letter was discussed at some length, and it was decided to defer action until the school board had given an opinion as to the best time to begin to vaccinate the pupils. The other business transacted was not of much importance.

Met Death in the Bush.

Many friends will sympathize with Mr. S. Perrin, druggist, in his loss of a brother by death under very extraordinary circumstances, as noted in a brief despatch in The Globe, and confirmed later by a telegram. The deceased, John Perrin, was a farmer, and resided about four miles from the town of Kincardine, in Bruce County. On March 16th morning he drove into the bush at the back of his farm for a load of wood, and when he returned to the house in the afternoon without him an accident was feared. On search being made he was found lying dead where he had been working, having been struck by a tree near by, and a terrible gash in one of his feet, told the sad story of the accident and subsequent helplessness; had the poor fellow been able to reach his horses, they would have conveyed him home in time to save his life. Mr. Perrin left Friday evening for Kincardine to attend the funeral.

Orillia's Cheap Power Scheme.

Mr. J. J. Wright, manager of the Toronto Electric Light Co., whose adverse report concerning Fenelon Falls water power cost the citizens of Lindsay \$400, has been convinced, and reports to the Toronto board concerning the Orillia scheme, and predicted that if that corporation pursued its present scheme "the town will be bankrupt in less than a year." Mr. Wright rather hard and say in effect that he is a "back number," that he shuts his eyes to all progress in electrical transmission, and that if two years' indefatigable study of the subject by brainy men, and the gathering of expert evidence from various independent sources, does not give knowledge, then the little or no use in mortal men departing from the ways of their forefathers, lest perchance they make a failure of that which they take in hand. Assuming that the whole project is a failure, and that every cent of principal and interest has to be levied as a direct tax, it would mean the addition of one penny to the rate on every dollar, and such a small sum would not bankrupt the town in three hundred, let alone three years.

LCI Notes.

Mr. Wm. Way had the misfortune to dislocate his wrist while performing in the gymnasium last week.

Who was it? A young gentleman an ardent admirer of the fair sex strolled up to the Assembly hall, one day this week, to watch some young ladies trip the gay fantastic. While he was deeply engrossed in the situation one of the boys shoved him in and locked the door. The fair ones, making in the situation, fled and locked their door, leaving the poor boy to climb out through the window.

The usual meeting of the Literary Society was held on Friday evening, and it being the last meeting of the society a special program was prepared, and for the same reason also the meeting was attended rather better than usual. The minutes having been read and approved of, the program was commenced. The first item was an exhibition of club swinging by a class of five young ladies. This feature was immensely popular, especially with the boys, who are not used to such performances, and who admired their appreciation by a round of applause. Next Misses Flavelle and Harding rendered a piano duet, though the piano was in a manner, the principal feature of the program, however, was the reading of an essay on "The Post Browning" by Mr. Collins, our popular classic reader. The essay was both interesting and instructive, and the rapt attention given was in itself sufficient evidence of its projection. Mr. Frank Manning followed with a very good and timely paper on "The Poet Browning," and justified his reputation as a good singer. The Society organ, "The Pan-Cosmic Review," was now read by the editor, and was a model of wit and humor. The meeting was closed by singing "God Save the Queen."

and purity will enter with the Son of God into full inheritance and possession of those things which "Eye hath not seen, nor ears heard, nor the heart of man conceived."

What a power the Lindsay Curling Club would be to have all the members as good Christians as they are curlers! And the same might be said of every member of the congregation, and of all congregations, if all were as zealous in God's work as they are for their own business affairs, what grand things would be accomplished for God's glory! May God in His mercy make us useful here and there, and win for us that better inheritance in the life beyond.

ONE OF THOUSANDS.

Mrs. Lily Cox, 24 Gladstone Ave., Toronto, contracted acute catarrh through taking a severe cold some two years ago. Her suffering was very distressing at times, and she tried several remedies, but none gave her any real relief. Dr. Agnew's Catarrhal Powder was recommended to her—one application gave instant relief, and when she had used four bottles she says she was entirely cured. Sold by A. Higinbotham and P. Morgan.

Worth Trying it Sick.

A verified record—1,016 persons cured in one month by Dr. Chase's Family Remedies. All dealers sell and recommend them.

Newspapers and Magazines.

—In the April issue of Harper's Magazine appears the first instalment of a serial by H. B. Marriott Watson, entitled "The Princess Xenia," fully illustrated. The war articles are especially interesting and of special contribution are of the usual high order.

Vulcanic Eruptions.

Are grand, but Skin Eruptions rock life of joy. Buckle's Arnica Salve cures them; also Old Running and Fever Sores, Ulcers, Boils, Felons, Corns, Warts, Cuts, Bruises, Burns, Scalds, Chapped Hands, Chilblains, Best Pile cure on earth. Drives out Pains and Aches. Only 25 cts. a box. Cures guaranteed. Sold by A. Higinbotham.

Don't Starve Yourself

to cure Dyspepsia. Eat heartily, and take Dr. Von Star's Pineapple Tablets. They assist nature in performing her functions and in an imperceptible time disease and suffering vanish and old time good health, comfort and youthful buoyancy return, and life puts on its festive and happy phases. 25 cents. Sold by A. Higinbotham and P. Morgan.

The Englishman Ahead.

Statistics go to show that, contrary to general belief, neither Pat nor Sandy uses as great a quantity of intoxicating liquor as their neighbor John. For every man woman and child in the United Kingdom the expenditure last year for liquor was \$19. The Englishman spent \$20.50, the Scotchman \$15.25, and the Irishman \$13.25. In the same order there was consumed 2.11, 1.65 and 1.54 gallons of alcohol.

Story of a Slave

To be bound hand and foot for years by the chains of disease is the worst form of slavery. George D. Williams, of Manchester, Mich., tells how such a slave was made free. He says: "My wife has been so helpless for five years that she could not turn over in bed alone. After using two bottles of Electric Bitters, she is wonderfully improved, and able to do her own work." This supreme remedy for female diseases quickly cures nervousness, sleeplessness, melancholy, headache, backache, fainting and dizzy spells. This miracle working medicine is a godsend to weak, sickly, run down people. Every bottle guaranteed. Only 50 cts. Sold by A. Higinbotham.

Social and Lecture.

The married men of the Queens-st. Methodist were rewarded for their efforts by a large turnout to the social and lecture last Friday. The men in their white coats and aprons were the envy of the ladies present, and they clearly demonstrated their ability to entertain, preside and wait on tables. The waiters' chorus was a feature of the first part of the evening's entertainment. The lecture by Rev. E. Roberts, of Omemee, entitled "An Hour with Solomon," was characteristic of the man—it was practical, pointed and pithy, with here a dash of humor and there a draught from the fountain of Solomon's wisdom. Following are some of the nuggets of wisdom that you know everything; be willing to learn; be careful of your companionship; be workers—the only glory now are the tramps; young men, find a wife, a good wife, her price is far above rubies, the heart of the husband can safely trust in her, she will do you good all the days of her life. What marks unity? Love and interdependence especially; make home the school of virtue. Parents are to remember that the children coming after are following in their footsteps. W. Muselman and Misses Armstrong and G. Fee enlivened the proceedings by well rendered instrumental and vocal selections.

Church Notes.

Rev. Father Conway, of Young's Point, delivered a lecture on St. Patrick in St. Luke's church, Downeyville, on the morning of Friday last, 17th.

We clip the following from a letter in the London Advertiser: If church managers were as wise in church affairs as some of them are in their own business, they would know that they should deal of "widows' mites" and "Peter's pence" because the poor and the respectable who would give these and cannot give more will give to have their small, scanty contributions used for the poor, and not be listed along with the contributions of the wealthy.

A meeting of the Lindsay Presbytery was held at Beaverton on Tuesday last for the purpose of inducing Rev. D. W. Fraser, a recent graduate of Queen's College, into the pastoral charge of St. Andrew's, Beaverton. The charge to the new minister was given by Rev. J. B. Fraser, of Lindsay, and Rev. John A. McKenzie, of Cambria, addressed the congregation. Rev. David Watson, D.D., is retiring from the charge of St. Andrew's after a faithful and devoted ministry covering the long period of 14 years, during which time no man in Canada has been more beloved by his congregation. St. Andrew's is one of the oldest churches in North Ontario; it was erected in 1872 at a cost of \$18,000, and is absolutely free of debt of any kind, while there is a fund of \$2,000 in the treasury towards the cost of a new manse.

DEALING WITH ECZEMA

Three Children Afflicted 20 Months. CURED BY CUTICURA.

My second child got eczema when seven months old. Three months later my first child got it, and following him, the last one, two years old. For twenty months they suffered fearful agony. Their whole bodies, especially their faces, were so sore and raw that they were blind half the time. No words can describe the suffering of my second child, whose whole body was one bloody mass. He was constantly crying, could get no sleep, and he actually did not look human. I tried doctor after doctor without the slightest relief. The first application of CUTICURA brought relief. In each case, and after fourteen days' treatment with CUTICURA SOAP and CUTICURA Ointment, the worst case was cured. Mrs. ANNIE KING, 515 E. 13th St., N.Y. City.

Cook's Cotton Root Compound

Is successfully used monthly by over 100,000 ladies for the cure of all menstrual irregularities. It is a powerful purgative, and its use is recommended by all responsible Druggists in Canada.

No. 1 and No. 2 sold in Lindsay by B. Gregory, druggist.

Victoria L. & S. Co.

The Victoria Loan and Savings Company

AUTHORIZED CAPITAL, - \$300,000
PAID UP CAPITAL - \$100,000
Head Office: Lindsay, Ont.

MONEY TO LOAN

on Farm and Town Property at Lowest Rates of Interest, on terms to suit the borrowers. Being a home company the expense are small.

SAVINGS DEPARTMENT

Money taken on deposit, withdrawable at any time. Interest allowed at 4 per cent. Other investment features made known on application.

JOHN MAGWOOD, Manager.

The Weekly Post.

LINDSAY, FRIDAY, MARCH 24 '99.

CURLERS AT CHURCH.

ANNUAL SERMON DELIVERED BY REV. C. H. MARSH

Curlers Turn Out in Numbers to Hear the Club's Popular Chaplain.

Curlers take kindly to cold weather and hickzards, hence they made a brave showing at St. Paul's church on Sunday evening, when Rev. C. H. Marsh, chaplain of the Lindsay Curling Club for 1898-99, delivered the annual sermon to his fellow curlers. To their credit be it said, the storm had no apparent effect in diminishing the attendance of the regular worshippers, as a large congregation was present.

Rev. Mr. Marsh selected as his text I Tim., 4-8, "And exercise thyself unto godliness: for godliness is profitable for a little, but godliness is profitable for all things, having promise of the life which now is, and of that which is to come." He was pleased indeed to welcome to his church the members of the Lindsay Curling Club, whose prowess was not from the Atlantic to the Pacific—indeed, all that many people at a distance know about Lindsay is that it is the home of famous curlers, of whom they hear much. He felt honored in having been elected chaplain of the Club for a second term. He knew the members and could say that they endeavored not merely to win, but to develop strong, robust men, imbued with a love for honest, manly competition men who could take successes modestly and defeats heroically. Exercise develops and builds up the young men and rejuvenates and invigorates the seniors, thus insuring their bodies to withstand disease and the weaknesses incident to increasing years; it is good for the individual, for the community, and the nation, as thereby the men of the nation are better fitted to protect their country in the time of need. Better still, exercise develops the mind as well as the body, and for that reason gymnasium exercise has a leading position in our system of education.

But there is that which profiteth more than bodily exercise; and that is godliness, which profiteth us in this world, and in the world to come. It can no longer be taken as a trifle that the good die young—it is not rather the vicious and immoral who as a rule pay the penalty for leading lives of sin, but the young men who die in their graves before their time? Godliness lengthens life, but a long life of indolence is a curse rather than a blessing; perhaps that is why not in his justice cuts off these worthless lives early. What a grand example the lives of such men as Gordon, Shaftesbury, Gladstone, and others, afford in comparison to the evil careers of many!

Godliness also tends to happiness, and the fact deserves to be emphasized. In order to be a happy man, it is necessary to be gloomy and dull—a happy face and cheerful manner should go with readiness to do God's will. The boy who strives loyally and cheerfully to do his father's will is a happier boy than he who does a service grudgingly and perhaps from fear of the consequences if he refuses. Sin never fulfills expectations, and the young man who goes out for a night's debauch, asks the young man who seeks the door of her whose steps lead down to hell, and who they say steal pleasures from a great deal, but fail in fulfillment. Ask the man who seeks only to do God's will, and he will tell you that God's ways are ways of pleasantness.

There's a life beyond the setting of the sun—beyond the shadows of this world; a life where the worm dieth not, where the fires are never quenched. There will come a time when God will say "Let the evil die still; let the filthy be filthy still." From that judgment the speaker prayed that everyone listening to his voice would be spared. The God, there is also a life where no sin can intrude, where there is no parting or pain, and where those who have lived lives of godliness

Minden, and Eden, and they had quite a time. After it was all over, which was pretty late, Mrs. W. T. Craig, the wife of our esteemed reeve, gave those present a distinct and most interesting account when they left they were all delighted with our town. I suppose I ought not to forget to mention the Salvation Army; they are doing well, and having two officers here now instead of one as formerly. The Roman Catholic church in Galway has also had a change of priests—Father O'Leary has taken the place of Father Nolan, removed.

SALEM-EMILY.

(Crowded out from last week.)
The oyster supper which was given in aid of the Metho-dist church building fund, in Mr. John Ashmore's residence on Friday evening, March 10th, surpassed anticipations, both financially and socially. A large number of guests were present, and the oysters were well cooked, and reflected much credit on the ladies who had the cooking of them in hand. The waitresses, who also deserve great credit, were Mesdames Ashmore, Elliott, James Kennedy; Misses Lily Kennedy, and Annie Stewart. The musical selections during the evening were voluntarily contributed by a couple of professional musicians and two or three amateurs. Miss Lily Kennedy, our noted organist, gave a number of well selected pieces, which also added to the enthusiasm, and a famous violinist from Lindsay gave three selections which brought down the house. Two or three songs were sung, which also added to the evening's enjoyment. Altogether a very pleasant time was spent. The receipts of the evening amounted to \$41.75. The boys want to know when the next one will take place. We must not forget to mention the extreme kindness exhibited by Mr. Ashmore in placing his residence and stables at the disposal of all-comers.

David Kennedy, who has been visiting friends and relatives around here, has returned to his home in Dakota. He says there is no place like it.

Mr. W. H. Kennedy, of Omemee, was in this part recently visiting his parents, Mr. and Mrs. David Kennedy, Sr.

Mrs. David Kennedy, Sr., took several weeks ago to going to bed in a block, and about eleven she was taken suddenly ill with inflammation of the bowels. Dr. White, of Lindsay, was brought to her assistance about midnight, and through his skillful care she is now recovering.

A London Case.

Proving the value of Dodd's Kidney Pills in Kidney Disease.

London, Mar. 20.—Mr. Charles Dean, stationer at the City Hotel, comes forward to add his quota to the mass of evidence in favor of Dodd's Kidney Pills.

Mr. Dean states that he had for three years suffered from severe cutting pains in the small of his back. At times they were so great that he had to lie down to get relief.

Several remedies were used without benefit. A doctor prescribed for him, saying his kidneys were affected, but no good resulted.

Finally he took a friend's advice and used Dodd's Kidney Pills. The usual result followed. Three boxes cured him out and out.

KINMOUNT.

As your correspondent in this village got his fingers so badly frozen during the cold snap that he has since been unable to write, anything for your valuable paper, perhaps you will please excuse me if I drop you a line.

Our village is not doing pretty lively for some time past. Sleighing has been splendid, and the farmers have taken advantage of it to haul in a great amount of logs, posts, etc. Our storekeepers—and we have lots of them—seem to be doing a thriving business. Mr. J. C. Craig has just opened up his depot, which is well stocked with the desirable implements, and he expects shortly to have in a stock of buggies, carts, etc., and is looking forward to doing a thriving business. Our churches are also alive. The Baptists have had a lady evangelist here for two weeks, and special services are being held nightly in their church this week. The Presbyterian minister, I believe, is about to sever his connection with the station and a student is coming to take his place. The English church are holding their own—a new bell in their church at a cost of a good many dollars. The Metho-dists also seem to have come out of their winter den and are now hard at work. For some reason or other they have withdrawn from the Union Sunday school, and started one of their own, and if reports be true, it promises to be a great success. A short time ago their Junior League, I think they call it, had some kind of a rally or public meeting which they say was quite a success. The youngsters who compose it have been busy during the winter making a patchwork quilt, which they presented to the Home for the Aged in Lindsay. Last Friday week there was a convention of local Christian Endeavor societies which brought a large number of delegates from Norland.

DANGERS FROM DISEASE IN WINTER.

How to Avoid and How to Cure Them

Strengthen the System and Enrich the Blood by Using Dodd's Dyspepsia Tablets, and you are Fortified Against Colds, Grippe, Pneumonia, etc.

The present season is, by long odds, the most unhealthy one Canada has known for a good many years. Doctors and druggists have been busy day and night, prescribing and compounding medicines for their patients.

Strange to say, however, there has been no decrease, but rather a marked increase in the number of sick people. No person whose blood is thin, watery and weak can successfully withstand the ravages of a winter like this has been.

The blood must be rich and red and nourishing, in order that the various organs of the body may be properly

fed and strengthened, and enabled to perform their work properly.

Now, in order that the blood may be rich, red, and nourishing, the food we eat must be thoroughly digested, just as wheat must be thoroughly ground, to make good flour.

And, in order that the food may be thoroughly digested, the digestive organs must be in perfect condition as the great use of the stomach is to grind the wheat perfectly.

There is one way to ensure the perfect and thorough digestion of our food, and as a result, the proper use of Dodd's Dyspepsia Tablets.

Dodd's Dyspepsia Tablets direct the food. They do it positively. It is no mere theory, or a perfect condition as the mill must be in perfect condition to grind the wheat perfectly.

There is one way to ensure the perfect and thorough digestion of our food, and as a result, the proper use of Dodd's Dyspepsia Tablets.

Dodd's Dyspepsia Tablets direct the food. They do it positively. It is no mere theory, or a perfect condition as the mill must be in perfect condition to grind the wheat perfectly.
