—Sawyer, Dundas & Co.'s saw-mill started up for the season Thursday.

—One dose of Miller's Emulsion is equal to one tablespoonful of Cod Liver Oil.

—The council of Ops will meet in the council chamber, Lindsay, on Monday night, April 13th, at 10 a.m., for business.

—The opening of navigation will create a stir among the grain-brokers. The wheat harvest will then seek a market in Lindsay.

—Remember the G. T. R. concert is at aid of the library and reading room on Wednesday evening, April 22nd. Secure your tickets at once.

—The upper Saugeen is open to Muskrat Island, but the ice in the lake remains solid. The lower channel is clear to within a short distance of the cut.

—If the hair is falling out and turning grey the glands of the hair need stimulating and a color food, and the best remedy and stimulant is Hall's Hair Restorer.

—Messrs. Spratt & Kilien are still shipping an average of two cars of potatoes weekly to the Indianapolis market. They are now paying from 50c to 55c. per bushel to the farmers.

—Mr. John Carow of the north ward has purchased the saw mill recently owned by McNabb & Martin, opposite the lower wharf, and has contracted about 2,000 logs in order to "run the hum."

—Pat. Doris, our veteran boat-builder and designer, reports business as exceptionally brisk. He is engaged in building six or eight canoes and skiffs in various stages of completion, and all have already been ordered.

—Rathbun & Co. will have about 80,000 ties and logs to cut in their mill at the lower wharf this season—about double last year's supply. Their mill will commence cutting soon as the first drive can be brought in from Fensell.

—The dredge has been moved up close to the Williams-st. bridge, and the work of deepening the river channel, for the completion of which the sum of \$2,000 has been included in the Ontario estimates.

—Mr. James Staples, whose right hand was so severely injured in some weeks ago, called upon his fellow employees during the week, as the wound is almost entirely healed. Only the little finger remains stiff, and the malformation will seriously hamper Mr. Staples in gaining a livelihood.

—"We're going to have high water this spring," said an old head Tuesday. "You see, it's already a couple of inches higher than usual this season, though no lot of it, except a little come down, and when it fines up a bit there'll be a rush." Owners of cutting boat houses should look after the ballast.

—Mr. R. D. Thexton has gone extensively into the packing and shipping of hay and straw this season. Up to date he has contracted for 400 tons of hay and a very large quantity of straw, which is being reduced to neat bales at his yard in the north ward. Toronto parties take care to furnish—from two to three carloads each week.

—Reference to the county bridge department records will be found on another page, that the order of the case for this county, prepared and read by Mr. J. R. McNeill, was an able and convincing document. Mr. Hugh O'Leary, Q.C., is in the interests of this county attending the sittings of the parliamentary committee, to whom the matter was referred.

—The dry weather of the past week has started the dust flying, and Kent-st. merchants and shops are yearning for a slight shower to come down, and when it fines up a bit there'll be a rush." Owners of cutting boat houses should look after the ballast.

—The Ontario Mutual Life Association company in this district, has removed its office from Helmer's block, three stories of the post-office block, to a new building, 101 Queen-st. E. T. A. is a "worker," and as the representative of a progressive and enterprising company has a happy "knack" of making its policies popular investments with the public.

—A good many subscribers have not yet paid up for their Post, and they are entitled of their duty in the premises. Look at your address label and remit to the publisher, J. H. McNeill, at the address given on the label. A small amount is "of no consequence." A number of accounts long overdue are being collected for collection without further notice.

—The members of the street and bridge committee should ponder over and weigh the matter of the river bed last summer for road-making. A large quantity of the broken stone dredged from the river bed last summer for road-making, is being piled up in the north ward, and it is found to wear well the committee should arrange with Sawyer & Kilien for its use. Its use will mean hundreds of dollars saved to the town.

—The curriers are still at it, and seem loth to give up the sport. During the week a match was arranged. "Single man v. Benedicts," it was called, and the contest was a very interesting one. On Good Friday a keenly contested struggle took place between "Slick v. Vice-skips," resulting in favor of the latter by six shots. Following are the names of the winners.
