COMMERCIAL NEWS.

OFFICE OF THE CANADIAN POST, LINDSAY, April 9, 1891.

Failure of Wheat Crops in Europe.

A London cable says: The Standard publishes a review of the agricultural outlook, in the course of which it says the steady rise in wheat revives the hopes of the English farmer. Wheat will probably reach the highest price in many years, the principal cause being the failure of foreign crops. The wheat crops of France and Russia are much below the average. The deficiency will be at least 20,000,000 quarters. It is expected that cold winds and frosts have almost destroyed the French crop. Germany, Holland and Belgium all furnish pessimist reports. In Roumania there is a decrease in the wheat area, and in India there has been a bad wheat season. The only exception is Hungary, where there are better prospects; but it is almost certain the world's wheat consumption will exceed the production computed. Whatever the magnitude of America's crop may be, it will not be sufficient to cover the European deficit, thus compelling an extensive draft upon the reserves for the third year in succession. The Standard, in conclusion, says: "The increased home consumption, the decreased wheat area owing to the spread of population and the recourse to scientific tillage in order to repair the waste of the first settlers, thus increasing the cost of production, must inevitably remove the American farmer's formidable competition from European markets and allow the English farmer to look forward to a prosperous future."

A London cable says: Reports to-day from France show an even worse crop outlook than had been figured on. The new plantings seem to have failed in many places, and the complaining farmers are getting ready to make further appeals to the legislature for help. To some extent on the strength of this situation, but more because England's stock of wheat is practically exhausted and is being replenished from hand to mouth, prices of bread stuffs have all gone up with a bang in the British provincial markets. The English farmer is accordingly holding his head high once more, for the first time in half a dozen years.

British Grain Trade.

The Mark Lane Express, in its weekly review of the British grain trade, says:—English wheats are in active demand at an average rise of 1s. The finest kinds are quoted at from 40 to 42c, and farmers are not eager to sell. Foreign wheats are up 1s. California is firm at 43s. The stocks held at the leading ports barely amount to a total of 1,000,000 quarters. The holdings of flour amount to 500,000 quarters. Large consignments of India, California and Australia wheats will hardly meet the prospective demand. The limited arrivals of barley have raised values 6d. Oats are abundant in London and are difficult to place, though in the stock markets prices are 6d higher. Corn at London, Liverpool and Glasgow is quoted 6d dearer, and in Bristol is dearer. The stocks of corn at London are one-third less than the total stocks held at the same time in 1890. At today's market English wheats were strongar; a few kinds obtainable under like conditions. There was good enquiry for Californian and Australian. Indian did not share in the strength, the supply being old. Corn was badly assorted in the new crop. Good prices were off red for forward de livery Barley, oats and corn rose 6d. Beans and peas were 1s dearer. Flour was 1s 6d per sack dearer on the fortnight.

Toronto Live Stock Market.

Receipts at the western cattle market last week were 1,028 cattle, 365 sheep and lambs and 1,234 hogs. The offerings Tuesday were 27 loads, including about 450 hogs, 150 sheep and lambs and 25 calves The supply was a great deal more than the demand required, which, with advices of a poor market in Montreal, caused a very slow market here, and at the close several loads were left over unsold.

Cattle—Local butchers were the only buyers, and the supply of cattle on sale was too large for their requirements Prices, however, were firm for choice loads, but weak for poor and medium stuff. A few head of choice butchers' cattle sold as high as $4 50 per cwt., but the average price was from $3 75 to $4 per cwt. for good to choice, and $3 25 to $3.75 for fair to good, and down to $3 for inferior.

Sheep and lambs—The market was very weak and dreary, but this was owing in a great measure to the inferior quality of the offerings. The average price paid for sheep and lambs was from $5 to $5 50 per cwt. with a few choice lots as high as $6 50 and inferior down to $4.

Calves—Good calves were scarce and wanted. A few good heavy calves sold at from $12 to $15 each, but the ruling price was from $5 to $10 each, with culls as low as $2.

Hogs—Good heavy fat hogs were firm, and all sold at from $4 50 to $4 70 per cwt. There was very little demand for light fat and stores, and prices were weak, ranging from $3 75 to $3 90 per cwt.

Milch cow and springers were in very little demand, and what few were offered sold at from $30 to $40 per head.

Stock Notes.

—Mr. Nathan Day will take the usual round with his fine Percheron, "Finot," which is in fine condition.

—The annual spring show of the Ops agricultural society will be held on the fair grounds on Saturday, May 2nd, commencing at one o'clock. Of late years, owing to the importation of better stock, there has been keen competition in the different classes of horses and bulls, and this season there is likely to be a large showing. Farmers should not neglect this opportunity to inspect the points of the animals and profit by the critical rulings of the judges.

—Mr. James H. Wilson of Lifford reports the purchase of the imported Clydesdale stallion "The Real Mackay" (5407) and states that he is an "up-headed, showy fellow, and possesses great action." "The Real Mackay" was bred by Mr. James McCuaig, Barnultoch, Stranraer, Scotland; in color he is a beautiful bay, with strip on face, and white hind pasterns; foaled in 1885, and imported in 1887. He was sired by the far-famed What Care I, (912), by Prince of Wales, (673), etc.; his dam was Lovely of Barnultoch, (4777), by Lord Lyon, (489), by Hercules, (378), by Rob Roy (714). Mr. Wilson's reputation for "picking out the good 'uns" has been firmly established in the past and our farmers will study their own interests by carefully inspecting this his latest venture.

Board of Education.

The regular monthly meeting of the board of education was held in the council chamber Tuesday evening last. Present: Chairman J. R McNeillie, and Messrs. T. Stewart, John Kennedy, R. Kennedy, R. J. McLaughlin, Col Deacon, P. Pilkie, J. D. MacMurchy and John Dobson. The minutes of last meeting were read by Mr. Spier and on motion were confirmed. Principle Harstone's report gave 306 as the number of pupils on the roll of the collegiate institute for March, with an average attendance of 284. Headmaster Broderick's report gave 732 as the number on the public school registers; average attendance, 693..... As a result of enquiries which Mr. Broderick had been instructed to make it was reported that the parents of 23 pupils would like to see the fifth form established in the public schools In the discussion of the report it was pointed out by Mr. Broderick that the junior 4th classes are much overcrowded at present and would likely continue so, and that an additional male teacher in junior 4th work was necessary. This would permit of the fifth form being established at small expense to test the attendance. Messrs. John Kennedy and R. J McLaughlan both expressed themselves in favor of the scheme, and it was moved by Mr. Pilkie and seconded by Mr. Macmurchy, that provision be made in the public schools on and after September 1st, next, for the tuition of pupils who having passed the high school entrance examination, may desire to still further prosecute their studies in the public schools The motion was adopted ..... The report of Inspector Seath, who, recently visited the Collegiate Institute, was read by the clerk. Every department is rated first-class, but attention is directed to the fact that the attendance is too large for the building ..... A communication was read from Mr Church in which he tendered his resignation as teacher of vocal culture and music in the public schools, to take effect from the 1st of April On motion it was accepted, the board placing on record its high appreciation of the value of Mr. Church's services during the time he has been in the employ of the board..... The report of the finance committee was presented by the chairman, Mr T. Stewart The report called at ention to the fact that the payment out of the town funds to the separate schools of an equivalent to the legislative grant was illegal, and recommended that the attention of the council be called to the matter. The amount of institute fees collected for three months was given as follows: January, $282 50; February, $284.25; March, $284.25. The report also recommended payment of a number of accounts.....Col Deacon read the report of the visiting committee, which was adopted ..... On motion of Mr. Macmurchy, seconded by Mr. Dobson, the sum of $100 was set apart for improving public school grounds, and $150 for altering fence at the Collegiate Institute and putting a hedge or fence between the institute and Union School, as recommended by Inspector Seath ..... A communication from Janitor W Passmore for an increase of salary was referred to the managing committee, after which the board adjourned.

IN MEMORIAM.

[Lines by a friend in memory of Jeremiah Herlihey, late of Ops, who died at Rochester, N.Y., Feb 23rd, 1891.]

Oh, distant friend, whose dying bed
'Twas not my privilege to see,
To cool thy lips, to raise thy head,
Or change a loving word with thee.

Or join the little mournful train,
That around thee bend the knee,
To offer to the Great Supreme
A tearful prayer for thee.

Or mingle with the silent throng
That bears thee to the tomb,
Or plant a little rose or flower
Above thy heart to bloom.

But one poor tribute I impart
To him I loved so dear,
'Tis but the ebbing of the heart,
'Tis but a silent tear

A friend he was, a faithful friend,
In him there was no guile;
Though fickle fortune might prove false,
He wore a cheerful smile.

A parent kind, a husband dear,
A friend he was to all;
Oh, cruel Death, keep back thy sting,
Too soon, too soon, you call.

But when we reach that other land,
Away from toil and woe,
Perhaps he'll take us by the hand
And show us where to go.

IMPORTANT NOTICE TO BREEDERS.

The Pure-Bred Imported Clydesdale

"JUST THE THING."

[7360 B. C. S. B.] (1248 C. C. S. B.)

The undersigned would respectfully intimate to the farmers of this district that he has recently purchased from Mr. Jas H. Wilson that well-known and popular young sire "Just the Thing," and will make a route in this district the coming season with a home stand at the Waverly House, Lindsay.

"JUST THE THING" is a beautiful seal brown in color, rising four years old and is developing into a grand horse.

In point of breeding "Just the Thing" is "gilt edge and fashionable," being lineal descendant of the famous Darnley, and sired by the grand stock horse Jordanshaw (3313), by Top Gallant (1850). On the maternal side he ranks correspondingly high; his dam being the famous "Bell of Hillbrashow" (3318). A study of his pedigree will certainly convince the most sceptical that he is one of the best bred horses that has yet stood in this district, and that in prize-winning strains he is the equal of any stallion in Canada. As a stock-getter he has proved himself sure, and his colts are coming right and strong and must in time prove his superiority.

In extending an invitation to the farmers and breeders of this district to call and inspect this animal it will not be out of place to state that he is wonderfully improved over his form of last season, and as he has not yet fully arrived at maturity, he must develop into a great horse. He can be seen at the Waverley House stables.

Printed specifications and the special form of tender as to each work can be obtained at this Department. All blanks in the special form of tender are to be properly filled up; and tenders must, as to form, sureties and otherwise, comply with the terms set forth in the specifications.

An accepted bank cheque, payable to the order of the undersigned, for the amount mentioned in the specifications of the special work tendered for, must, subject to and upon the conditions mentioned in the specifications, accompany each tender. Parties tendering for more than one of the said works must, as to each of the works, remit a separate cheque for the amount mentioned in the special specifications relating to each such work.

Security for the fulfilment of any contract entered into is to be given as stipulated in the specifications; but the Department will not be bound to accept the lowest or any tender.

For the Ladies:

The Styles in Ladies' Jewellery we show this Season are exceedingly Handsome and Attractive. This is so especially in Lace Pins, Brooches, Watch Chains, Bracelets and Gem Rings.

For neatness and elegance of design it is difficult to imagine anything prettier.

Flowers enamelled in natural colors on yellow, red, or green gold vines are particularly effective for lace pins, Pansies and forget-me-nots and other small flowers entwined with delicate gold leaves are favorities.

Brooches of Rhinestones or Crystal in various designs, such as Stars, Horseshoes, three-leaf Clovers, Crescents, Scrolls, and so on, are much worn and admired.

As for Watch-chains, the patterns are many and not easily described. Among the prettiest is a very narrow yellow gold woven ribbon with a knotted ribbon charm of the same material; the whole being encrusted with dainty blue and white enamelled forget-me-nots.

The variety of Bracelets, too, is adapted to many tastes and comprises both plain and jewelled, flexible, hinged, and chain bracelets. Some of these are fastened with small padlocks made in heart and other fancy shapes.

It is impossible to convey an adequate idea of the beauty of fine Jewellery by a written description. It must be seen to be appreciated. Then the variety is such that enumeration, even of the different styles, is out of the question.

It is always a pleasure to show goods to those who wish to see them.

Now a word or two about ladies' Watches. We have a good stock of both hunting and open face, and are offering some extra good value in silver, filled gold, and solid gold. These are elegant and strictly first-class throughout, and the style of ornamentation is rich and in good taste, many patterns being entirely new and highly artistic.

The range of prices is wide enough to meet the requirements of all
