was anything but joyful, as his new-found liberty seemed doomed to be cut short by the world's great gleaner-death. Bu happily fears grew groundless-life was again to glow with vigor, and hope for the hopeless one was revived. Three days after Newman's release, a friend who understood the remarkable power of Miller's Emulsion to sustain and strengthen life, advised his sister to procure a bottle of the remedy. Animated with the belief that while there is life there is hope, she purchased a bottle of Miller's Emulsion of Cod Liver Oil. From the first dose taken the patient looked torward with hope when i was found that his system could retain and assimilate this palatable preparation. His digestive organs had been so weak he was unable to retain sufficient food to nourish his body, from that cause he had so wasted away as to weigh only 102 pounds. The life-giving qualities of Miller's Emulsion soon exercised influence over Newman by arresting decay and check-

ing his dreadful enemy -the consumption. Steadily improvement has continued. Strength came with added flesh. Alexander Newman a new man indeed. We present a copy from photograph taken 2nd instant. Mr N man weighed on that date 145 pounds, a gain
