SEBRIGHT.

Chituary.—It becomes our sad and painful duty this week to record the death of Mr. Wm. Himill, who departed this life on Tuesday evening of last week at the early age of thirty-two years. Seldom is it that death has claimed a more promising, intelligent and morally upright person than when it marked Mr. Hamill for another of its many victims. Mr. Hamill had been a strong, healthy and robust person until he was prostrated with inflammation of the lungs, and in spite of all that loving hands and skillful treatment could do, sank gradually lower until death put an end to his sufferings. William was a general favorite with everybody, his stately appearance, manly character and honest dealings endeared him to all, and consequently his sudden demise has cast a gloom over the entire meighborhood. The sorrowing aged father and mother, the remaining brothers and sisters have the heartfelt sympathy of a host of friends in their sad bereavement of a kind and thoughtful son and a true and loving brother. The funeral on Thursday afternoon last was very largely attended, and tokens of regret for the death of deceased could be seen on every sountenance as they followed his remains to its last resting place. (R quiescat in countenance as they followed his remains to its last resting place. (R quiescat in pice.) Rov. Mr. Smith performed the burial rites. Plant McMillan, Florence McDonald, "Bassie median Bill?" was the next question.

"It is recognized on all hands," replied Sir Donald, "that the Dominion has the right to pass Remedial Legislation. How far they may be able to pass the bill I cannot say more than you. Personally speaking I am very hopeful that even yet the matter will be settled, not quite immedia ely. I mean by the Provincial Government, but, at any rate, after a time, a way will be found for meeting the views, in

a moderate way, of both sides." the people of Manitoba will accept it?" "I do not see why they should not, There appears to be an impression that they were not sincere; that they really had no earnest wish settle the question; but I believe they have the interests of the province at heart, and that they will find some means of doing justice to the minority. Of course, I feel that the minority have certain rights which were assured to them, and I look upon it that those rights should be respected. But, at the same time, the minority are evidently willing to accept much less than, as they look upon it, they are entitled to demand.' "What they were willing to accept was contained in your offer to the

Manitoba Government?" "Of course; if we had not expected that what we offered would be assented to as satisfactory to the minority, it would have been no use putting it forward. But these were merely suggestions put forward by the commissioners on which to have discussion on the subject."

In conclusion, Sir Donald said that he and his colleagues had seen every member of the Government of Manitoba, including Mr. Greenway, who, unfortunately, had not been very well and had consequently been unable to take part in the discussion in the first instance; but, before leaving, the visitors had seen Mr. Greenway, and from him, and from all the other Ministers, they had received the most courteous treatment.

DEMILI. COLLEGE IN RUINS.

the Education of Young ladies

Burned to the Ground. Oshawa, April 6.-About 7 o'clock this evening fire broke out in the cupola of the Demill Ladies' College, which is located on the hill at the southwest corner of the town, The alarm was promptly given, but owing to the distance from the firehall, and to the lack of any water tanks in that section of the town, the brigade was helpless, and nothing could be done to check the spread of the flames. The whole roof was soon ablaze, and the flames rapidly extended to the lower stories, destroying the whole building. Most of the portable contents, however, were removed from the lower flats. It is impossible at present to make an accurate estimate of the total loss, but it will probably reach \$20,-

Many of the students and faculty were at their homes enjoying their Easter holidays. Those who are here feel very keenly the destruction of their college home. As the principal,

Mr. F. X. St. Jacques, Proprietor Russell House, Ottawa, Cured of Hemorrhage of the Kidneys.

Among travelling men, members of Parlia ment, and habitues of the Canadian Capital, no man is better known than Mr. F. X. St. no man is better known than Mr. F. X. St. Jacques, the popular proprietor of the Russell House, Ottawa, who suffered greatly from a distressing trouble, hemorrhage of the kidneys. In the hope of effecting a cure he doctored regularly, but without success. During July he began the use of Ryckman's Kootenay Cure. In one week he was not only benefited, but was entirely cured. His own words in writing to the proprietor of the medicine about his own case are few but years strong. He says: very strong. He says:

OTTAWA, August 7th, 1895. S. S. RYCKMAN, ESQ., M.P. DEAR SIR,—I will gladly and strongly recom-mend Kootenay Cure to my friends after the good result it has done me in so short a period. Wishing it every success, which it so well I am, dear sir, yours, F. X. ST. JACQUES.

County of Carleton. To-wit: I, Thomas Moffatt, of the City of Otbawa, in the County of Carleton, do solemnly declare that I live at 176 Murray street, in the City of Ottaws, that I am forty-six years of age, and a baker by trade and was formerly of the Dominion police. For over twenty years I have been badly afflicted with Rheumatism. So severe was my ocsa that I thought that I would never get better. On the first day of May, 1895, I began taking "Rych-man's Kootenay Cure." I used three bottles and it cured me completely. I have not felt the first sign of rheumatism since. It is a great tonic and a grand Blood Perifier. I gained twelve pounds in weight while using the remedy. I recommend it most highly.

And I make this solemn declaration

conscientiously beleiving it to be true, and knowing it is of the same force and effect as if made under oath, and by virtue of the Canada Evidence Act. THOMAS MOFFAT. Death Through the Kidneys. Hardly any organs of the human system play a more vital port than the kidneys. A derangement of these, even to a slight degree, will lead to trouble that is likely, if not stayed, to prove fatal. There is only one way for the system to be rid of this disease, and that is by trying a medicine that will act specially, and is a specific for kidney disease. This is the strong factor in the great South American Kid-ney Cure. It is prepared specially for the organs, is radical in its banishment of disease located here, and rich in the healing powers necessary to complete restoration. Sold by A. Higinbotham.
