Totten for the Queen-st. Methodists. The last item was the pastor's estimate of the value of the Y. P. S. C. E. Speaking of the movement as a whole, he thought that if carried on in a perfunctory way a society might be a serious hindrance to a church, but if actuated by the presence of the Holy Spirit it could do marvelous good. Of the home society he said that since he had been pastor here it had not been doing all that it was capable of, and he trusted that from the present time forth there might be a deepened consecration and an increased fervor that should prove fruitful and worthy of God's rich and abundant blessing. Bright

Lindsay Branch Bible Society. The collectors appointed at the annual meeting have completed their house-tohouse collections, and have paid including the amount taken up at the annual meeting, the sum of \$75 for the free distribution of the scriptures among those who are anxious to receive but are unable to purchase copies. If any friends of the society have been inadvertently or itted, their subscriptions will be thankfully received by the treasurer, Mr. J. H.

Lafayette Place, New York,

Commemoration Services in Connection with the Tenth Anniversary. On Sunday evening last (April 25th) the usual services at the Baptist church gave place to special services commemorative of the tenth anniversary of the Young People's Society of the church. The pastor presided, but the different parts of the service were led by several of those who were members in the first term of the society's existence.

Mr. Robt. Kennedy was the first, and read a portion of scriptur. Then a short sketch of the rise and growth of the Endeavor movement in general was given by E. A. Hardy, etq., B. A., president of the Ontario Provincial Union. Miss M. Morton followed with a brief history of the home society. It began on April 12th, 1897, with Mr. E. S. Jackson as president, and about fifteen active members. Of the forty-five to sixty members on the roll during the rext three years, only fourteen are new in Lindsay, but they are all connected with the church, and those who are in other parts of the world are almost all (as far as they can be traced) engaged in work for Christ. The society was about the seventh or eighth in the province, and its existence stimulated the formation of others in this district, and it has been well to the front in promoting the Lindsay local, Victoria county and

Next, the roll of original members was called, and written responses from old members now living at Vankleek Hill, Buffalo, Rochester, Ottawa, Chicago, Toronto, Port Perry, Bobesygeon, etc., were read by Miss Whiteside, while others made personal reply to their names as The following is an abstract from it as an important auxiliary to the church of Christ. In Lindsay I found it exceed-ingly helpful, resulting both in the conversion and edification of those who belonged to it, and I know that numbers of those who removed to other places have proved active Christian workers where

in' town were extended to the Baptist society by Mr. Robinson, on behalf of the Cambridge-st. Methodists, by Mr. Campbell for the Presbyterians, and by Dr.

Hamilton Gibson, in the May Harper's. The flower of our fathers, which was "born to blush unseen, and waste its a friend recommended Dr. Williams' sweetness on the dssert air," is now known to have its woodland sweethearts, and to bumblebees and mothe. This fact explains why orchids kept in greenhouses blush so much longer than those growing wildthey are waiting for the message of the moth or the bee, which, alas! never comes.

#### MUNYON OFF FOR EUROP Proposes to Establish Medical Institu-

tions in London, Paris and Berlin, The steamer New York, of the American Line, Wednesday carried among its passengers Professor J. M. Munyon and a staff of his physicians. When questioned as to his intentions Professor Munyon said: "Yes, it is true I have determined to introduce my remedies into all foreign heard of these remedies through their friends on this side of the water, that I am led to believe that I will meet the same

have discovered that they don't require big doses of calomel and other dangerous "I am glad to see," said Professor Munyears my system of doctoring will be cenerally adopted by all schools of medicine. vials, shows their popularity and curative qualities. The system of preparing a separate cure for each disease appeals to the common sense of all intelligent communities, and enables people to doctor themselves successfully and cure them. selves at the least possible expense.

"I shall give London the largest and best equipped medical institution in the world. I shall take there a duplicate of all my improved medical appliances as well as a complete stock of my remedies, and shall offer them to the public on the same generous terms that are afforded our people at home.

"It is my intention to make this establishment in London a resting place for all American tourists, where newscounty in the United States, and where a full line of American publications can not backward in telling his friends the registry and news bureau for the confree, and I want all Americans to feel perfectly at home, making use of this institution whenever they have an ache or a pain or desire any information."

Professor Munyon carries with him the best wishes of his countrymen. We feel certain that he will receive a warm welcome abroad and that his humane labors will be crowned with man's universal

A Bright Scholar. At the north ward school the other day, a teacher, having asked most of her pupils the difference between an island and a peninsula without receiving a satisfactory answer, came to the last boy. "I can explain it, ma'am, "said the bright youth. "First, get two glasses; fill one

with water and the other with milk.

Then eatch a fig and place it in the glass

of water. That fly is an Island, because it

is entirely surrounded by water. Bat

surrounded by water.' The boy went to the top of the class. New advertisements.

Canadian Lost. LINDSAY, FRIDAY, APRIL 30, 1893. CHRISTIANITY OWES MUCH TO

HIS ZEAL AND ENDURANCE, His Life During the Early Days of Methodism in Canada Was Often One of Great Hardship-The Story of One Now Enjoying a Ripe Old Age. From the Simcoe Reformer, In the early days of Methodism in

Canada the gospel was sp.ead abroad in the land by the active exertions of the circuit rider. It required a man of no ordinary health and strength, an iron constitution and unflagging determination to fulfil the arduous duties incumbent on one who undertook to preach salvation to his fellowmen. It was no easy task that these mea set themselves to, but they were strong in the faith and hope ultimate reward. Many fell by the wayside, while others struggled on and prospered, and a few are to-day enjoying a ripe old age, happy in the knowledge that a lasting reward will soon be theirs. Most of these old timers are not now engaged in active church work, but have been placed on the superannuated list, and are now living a quiet life in town or on a farm free from the cares of the world, they await the call to come up Rev. David Williams, who lives two

miles southwest of Nixon, Ont., in the

township of Windham, Norfolk County,

was one of these early days circuit riders.

He was a man of vigorous health, and although without many advantages in the way of early education he succeeded by dint of hard and constant study in being admitted to the ministry. He was the first born in the first bease built in Glen Williams near Georgetown, Mr. Geo. Kennedy, the founder of Georgetown, being a brother of his mother. To-day he is 70 years old, and for the past 26 years has lived in this county. For many years he had been a sufferer from kidney and kindred diseases. He tried all kinds of remedies, and although sometimes temporarily relieved he gradually grew worse until in October, 1895, he w.e. stricken with paralysis. From this he partially recovered and recovered his powers of speech, but his mind was badly wrecked, and his memory was so pool that he could not remember the name the person to whom he wished to speak without thinking intently for several minutes. One day driving to church be wished to speak of a neighbor who live next to him for twenty years, but h could not recall the name for an hour o more. In addition to his mental trouble he had intense bodily suffering; pains the head, across the forehead, in temples and behind the ears, across t lower part of the skull and in the jo of the neck. He had great weakness an pains in the back, hips and legs. In fac so much did he suffer that sleep w almost an impossibility, and he fell awa in weight until he weighed only pounds. By this time, Dec. 1895, became despondent and felt that if he not soon obtain relief he would soon adieu to the things of this world. the 20th of December he read of a c in the Reformer by Dr. Williams' P. Pills, and being seized with a sud inspiration at once wrote Brockville for supply of that marvellous reme lmmediste good results followed to use, and he has improved wonders during the past year. He has recove bodily health and strength, is comp tively free from pain, and his memor nearly as good as it ever was, and as improvement continues the prespect very bright for complete recovery. has gained 20 pounds in weight beginning the use of Dr. Williams Pills, Mr. Williams says: heartily endorse the many good th gaid of these pills in the papers
