London, April 19 .- A special to the Daily News from Madrid says: "The Cabinet Council met at 4 o'clock this afternoon. The session lasted three hours. Senor Sagasta, the Premier, submitted a draft of the speech from the Throne. Its tenor is not precisely known, though it makes an appeal to he highest patriotism of the nation. It summarizes the international problem and points out how Spain has always presented an accommodating front in everything which did not diminish her sovereignty, though she only agreed to grant a cessation of hostilities in Cuba when the Pope made his request and the powers joined in counselling it. The Liberal adds: "Such rumors are dangerous, as they lead to popular discontent. The truth is, a conflict is certain. President McKinley is ambitiously following a deliberate plan, and the powers are too jealous of one another to interfere, though they may be driven to suppress hostilities, should their self-interests be endangered.
